This supplement implements and extends guidance of Air Force Manual (AFMAN) 23-110V2PT13CH2, *Standard Base Supply Customers' Procedures*. This supplement describes 45 SW procedures for use in conjunction with the basic AFMAN. It applies to all 45 SW activities, tenants and contractors operated or supported by the USAF Standard Base Supply System. This supplement does apply to Air Force Reserve Command and Air National Guard units.

SUMMARY OF REVISIONS

This revision aligns paragraph numbering to correspond with the basic manual.

2.3.6. (Added) The Julian date portion of the document number must not reflect a date prior to the time it is received in Base Supply. Downrange activities, ships, and other outlying areas may either predate their documents or let supply assign the date. Documents will be processed as soon as they arrive in Base Supply.
