This supplement further implements guidance found in PACAFI 23-204, *Deployment Bag Processing*. It establishes additional guidance and procedures on management of base chemical warfare assets. It applies to all assigned, attached or associated units to the 8th Fighter Wing, Kunsan Air Base, Korea.

SUMMARY OF REVISIONS

Global changes from 8th Supply Squadron to 8th Logistics Readiness Squadron. Global changes from Mobility Section to Mobility Operations Element. Changes the requirement to use the DD Form 1574, Serviceable Tag – Materiel with MICAS Inventory Receipt. Changed notification of expired shelf-life from individuals to the Squadron Disaster Preparedness Representative. A bar (|) indicates revision from the previous edition.

PACAFI 23-204 dated 14 August 2000 is supplemented as follows:

10. “A” and “B” mobility bags will be centrally stored in the 8th Logistics Readiness Squadron, Mobility Operations Element. “C” bags will be centrally stored under the control of the 8th Logistics Readiness Squadron. “C-1” bags will be issued to personnel within seven days upon arrival at Kunsan AB. Individuals will be responsible for serviceability of all “C-1” bag components after issue.

10.1. Type bag, size, and boot size are reflected on the Mobility Inventory Control and Accountability System (MICAS) Bag Inventory Receipt. Built bags will be sealed with a plastic zip tie after being inventoried by the individual receiving the bag.

15.3.2. Tariff sizing for masks is as follows: Small 16 percent, Medium 60 percent, and Large 24 percent.

15.3.3. The 8th Logistics Readiness Squadron Mobility Operations Element will maintain and issue protective masks. Individuals will be responsible for the inspection and serviceability of the protective mask once issued to them.

15.3.3.3. This option applies to Kunsan AB.

15.3.3.4. This option does not apply to Kunsan AB.

15.4. The Mobility Operations Element will maintain training gear.

16. Kunsan AB personnel will be issued the “C-1” bag as described in PACAFI 23-204, Attachment 5. Two ensembles will actually be issued. The remaining assets will be dispersed to help ensure chemical-biological attack survivability.

16.2. A locally devised MICAS document will be used to record issues.

16.3. Expired shelf-life information (what’s expired, how to dispose of expired item, how to get replacement item) will be passed on to each squadron’s disaster preparedness representative. Mobility Automated Inventory and Tracking System (MAITS) will be used to confirm all personnel have complied with expired shelf-life instructions.

24. Canisters will be issued per PACAFI 23-204, Attachment 5, in the “C-1” bag, the remaining canisters will be bulk stored in dispersed locations by lot numbers.

25.1. Remaining decontamination kit (M291) will be bulk stored in dispersed locations.
