OPR: 944 MOF/MXOA (SMSgt D. Denzer)
Supersedes 944 FWI 21-123, 20 September 1999

Certified by: 944 MXG/CC (Lt Col L. McCourt)
Pages: 5
Distribution: F

This instruction implements AFD 21-1, *Managing Aerospace Equipment Maintenance*. It establishes work center mnemonics for the 944th Fighter Wing (FW). These work center mnemonics will be used when making documentation within the Core Automated Maintenance System (CAMS). This instruction applies to maintenance activities within the 944 FW.

SUMMARY OF REVISIONS

This revision changes the office of primary responsibility (OPR) and revises work center designations in **Attachment 2**. A bar (|) indicates revisions from the previous edition.

1. Responsibility: Mnemonic codes will be assigned by designated representatives of the Analysis and Data Base Management Section, Logistics Plans, and maintenance supply liaison (MSL).

2. Procedures. The work center mnemonics (**Attachment 2**) will be utilized by work centers for assigned personnel, equipment and documentation. Work centers followed by an asterisk (*) are non-reporting centers. As such, assignment of 10X labor personnel or documentation is not authorized for those work centers mnemonics. Those work centers that have a (+) must remain unchanged and in CAMS.

CRAIG S. FERGUSON, Colonel, USAFR
Commander
