

**BY ORDER OF THE SECRETARY OF THE AIR FORCE**                      **AFI 11-2C-130V3 CL-13**  
**13 APRIL 2000**

***Flying Operations***

**AEROMEDICAL EVACUATION CREW (AEC)  
CHECKLIST**

This checklist establishes procedures for the operation of C-130 aircraft employed by Mobility Air Forces (MAF) to accomplish their worldwide missions.

This checklist complements AFI 11-2C-130V3, *C-130 Operations Procedures*, and is printed on standard 8 ½” x 11” bond paper then trimmed to a unique size 4 ½” x 6 ½” that will fit the standard plastic C-130 aircrew checklist binders. Units may request copies of this checklist printed on a water proof-based media (in the size outlined) from the OPR. This product reduces weight and eliminates the need for plastic inserts. Limit water proof copies to aircrew only for use in-flight and training purposes.

This checklist is intended to provide quick and reliable references to aid the AEC while mission planning and for use in-flight. All C-130 AE crews will carry this annex.

**ABBREVIATIONS & TERMS**

AECM	Aeromedical Evacuation Crew Member
LM	Loadmaster
AEC	Aeromedical Evacuation Crew ( <i>Applies to entire AEC listed below</i> )
MCD	*Medical Crew Director
FN	**Flight Nurse
CMT	***Charge Medical Technician
AET	****Aeromedical Evacuation Technician (CMT, 2AET, & 3AET)
2AET	Second Aeromedical Evacuation Technician
3AET	Third Aeromedical Evacuation Technician

**\* MEDICAL CREW DIRECTOR**

MCD ensures the aircraft is acceptable and configured for the assigned mission. The MCD supervises the nursing care and management of patients and is responsible for managing the AEC assigned to the mission. The MCD will advise and/or coordinate all pertinent aspects of the mission with the pilot.

**\*\* FLIGHT NURSE**

FN will assist the MCD as required. The FN provides professional nursing care during all aspects of AE missions, reviews and coordinates in-flight patient care requirements as required with origination and destination MTF personnel, completes appropriate forms, and performs additional duties as assigned by the MCD.

**\*\*\* CHARGE MEDICAL TECHNICIAN**

CMT is responsible for the supervision and management of AETs assigned to perform duties on the mission. It will be the responsibility of the CMT to ensure that medical supplies and equipment are on the aircraft and installed equipment is operable. CMT will normally receive directions from and be responsible to the MCD or their assistant and will also assist the flight crew, if required.

**\*\*\*\* AEROMEDICAL EVACUATION TECHNICIAN.**

AET (2AET and 3AET) will assist the CMT as required. AETs provide in-flight patient care under supervision of a qualified FN, complete appropriate forms, and perform additional duties as assigned by the CMT. 3AET is responsible for all patient baggage procedures.

## CREW DUTIES: MCD & FN ABBREVIATED CHECK LIST

AECMs are required to use and refer directly to this checklist during all phases of the mission when accomplishing their flight crew duties. If the checklist is accomplished by one FN, accomplish all MCD and FN duties. When aircraft preparation and loading are accomplished by a ground support crew, the items with an "\*" WILL be briefed by ground support personnel prior to the AEC assuming responsibility. Items with an "!" WILL be accomplished prior to takeoff for combat/contingency missions. Resume the applicable section of the checklist, once in-flight. When crew duties permit, AECMs will make every effort to assist the LM in accomplishing their passenger related duties.

### INTERIOR INSPECTION

**BEFORE TAKE-OFF (Continued)**

14. Cabin Secure	Reported/ Received	(AEC)
------------------	-----------------------	-------

**CRUISE**

1. Patient Check	Completed	(AEC)
2. Patient Care	Administered	(AEC)
3. In-flight Meal Service	Completed	(AEC)

**NOTE**

Meals should be served in the following order:  
special diets, litter patients, ambulatory patients

4. Administrative Duties	Completed	(AEC)
5. Cabin Cleanliness	Maintained	(AEC)
6. Medical Inventory	Completed	(AEC)

**NOTE**

Perform inventory during the last sortie of the day.

**DESCENT**

1. Deplaning	Coordinated	(AEC)
2. Patients	Prepared for Landing	(AEC)

**WARNING**

Immediately notify the MCD if the cabin is not secure for landing.

**NOTE**

Notify the LM if AECMs must stand during landing.

**DESCENT (Continued)**

- |                 |                   |       |

| 3. Equipment, Supplies | Removed/Stowed | (AEC) |

## CREW DUTIES: CMT, 2AET/3AET ABBREVIATED CHECKLIST

AECMs are required to use and refer directly to this checklist during all phases of the mission when accomplishing their flight crew duties. If the checklist is accomplished by one or two aeromedical evacuation technicians (AET), they will accomplish all CMT/2AET/3AET duties. Duties may be delegated by the CMT. When aircraft preparation and loading are accomplished by a ground support crew, the items with an "\*" WILL be briefed by ground support personnel prior to the flight crew assuming responsibility. Items with an "!" WILL be accomplished prior to takeoff for combat/contingency missions. Resume the applicable section of the checklist, once in-flight. When crew duties permit, AECMs will make every effort to assist the LM in accomplishing their passenger related duties.

### INTERIOR INSPECTION

- |  |           |       |
|--|-----------|-------|
| *1. AFTO Form 781A                             | Checked   | (CMT) |
| !2. Oxygen Mask, MA-1 Bottle,<br>Goggles, EEBD | Checked   | (AEC) |
| !3. LPU, EPOS, POK<br>(As required)            | Checked   | (AEC) |
| *!4. Cabin Preparation                         | Completed | (AEC) |
| *5. Portable Therapeutic<br>Liquid Oxygen      | Checked   | (AEC) |
| *6. Electrical System(s)                       | Checked   | (AEC) |

### WARNING

Do not exceed 20 amps per 115 volt AC power outlet.

- |                                       |         |       |

| *7. Suction, Bag-Valve-<br>Mask (BVM) | Checked | (AEC) |
|---------------------------------------|---------|-------|

**INTERIOR INSPECTION (Continued)**

*18. Medical Supplies, Equipment	Checked, Secured	(AEC)
-------------------------------------	------------------	-------

**WARNING**

Do not position PTLOX adjacent to hydraulic reservoirs.

*9. Survival Equipment	Check with LM	(CMT)
*10. Meals, Service Items	Checked	(3AET)
11. Aircraft Status	Reported	(AEC)

**LOADING****NOTE**

Inform MCD before leaving aircraft.

*1. Crash/Fire/Rescue (CFR) Vehicle (As required)	Available	(CMT)
!2. Engine Running Onload (ERO) Preparations (As required)	Completed	(CMT)
!3. Auxiliary Ground Loading Ramps	Installed	(CMT)
*4. Anti-hijacking Procedures	As Required	(CMT)
*15. Patients	Enplaned	(AEC)
*6. Baggage Procedures	Completed	(3AET)
7. Patient, Passenger Briefing Demonstration	Completed	(AEC)

**BEFORE TAXI**

- !1. Patients, Passengers            Secured            (AEC)

**WARNING**

As minimum, outside litter brackets should be secured before taxi.

**WARNING**

If not ready for taxi, immediately notify the MCD, providing estimated delay time, so the pilot will not begin taxi of aircraft.

- !2. Souls on Board Report            Received            (AEC)

**BEFORE TAKE-OFF**

1. Patient Care                      Completed            (AEC)  
!2. Cabin Secure                      Completed            (AEC)

**WARNING**

Inside litter brackets and stanchion straps will be secured before takeoff.

**WARNING**

CMT will immediately notify MCD if the cabin is not secure for take-off.

**NOTE**

Notify the MCD if AECMs must stand during take-off.

- !3. Safety Belt                      Fastened            (AEC)  
!4. Cabin Secure                      Received/Reported    (AEC)

**CRUISE**
