CAREER FIELD EDUCATION AND TRAINING PLAN**

PART I

PREFACE

1. This Career Field Education and Training Plan (CFETP) is a comprehensive core training document. It identifies life-cycle education and training requirements, training support resources, and minimum core task requirements for the security forces (SF) specialty. This CFETP provides all SF personnel (active duty, reserve and Air National Guard (ANG) a clear career path to success.

2. This CFETP consists of two parts; both parts of the plan assist supervisors in planning, managing, and controlling training within the career field.

2.1. Part I provides information necessary for overall management of the specialty. Section A explains how everyone will use the plan. Section B identifies career field path progression information, duties and responsibilities, and training strategies. Section C associates each skill level with specialty qualifications (knowledge, training, education, experience, and other). Section D indicates resource constraints (e.g., funds, manpower, equipment, and facilities).

2.2. Part II includes the following: Section A contains the Specialty Training Standard supervisors will use to certify training. Section B contains the course objective list/training standards supervisors will use to determine if airmen have satisfied training requirements. Section C identifies available support materials provided by Air Force Handbooks (AFHs). Many AFHs are conversions from Educational Subject Block Indexes (ESBIs). However, use ESBIs unless replaced by an AFH or rescinded. Section D identifies a training course index supervisors can use to determine resources available to support training, and includes both mandatory and optional courses. Section E is reserved to identify major command (MAJCOM) unique training requirements. Unit level supervisors and trainers use Part II to identify, plan, and conduct training commensurate with the overall goals of this plan. The core Specialty Training Standard (STS) for AFSC 3P0X1 (Part II, Section A, page 23), attachment 1 (AFSC 3P0X1A), and attachment 2 (AFSC 3P0X1B) identify the duties, tasks, and technical references required to support unit training; establish Air Education and Training Command (AETC) training requirements; identify core/wartime tasks; and identify correspondence course requirements.

3. CFETP guidance ensures individuals in this specialty receive effective and efficient training at the appropriate point in their careers. This plan will enable us to train today's work force for tomorrow's jobs.

ABBREVIATIONS/TERMS EXPLAINED

Advanced Training (AT) Formal course that provides individuals qualified in one or more positions of their Air Force Specialty (AFS) with additional skills/knowledge to enhance their expertise in the career field. Training is for selected career airmen at the advanced level of an AFS.

Air Force Handbook (AFH). A concise reference book on the technical aspect of a particular subject or a compilation of factual data and instructional material not subject to frequent change. Air Force Index (AFIND) 0-2 contains a listing of Security Forces AFHs.

Career Field Education and Training Plan (CFETP). A comprehensive, multipurpose document encapsulating the entire spectrum of education and training for a career field. It outlines a logical growth path, including training resources, eliminates duplication, and makes training identifiable and budget defensible.

Continuation Training. Additional training beyond requirements with emphasis on present or future duty assignments.

Core Task. Tasks identified by AFS functional managers as minimum qualification requirements within an AFS or duty position.

Course Objective List (COL). A listing derived from our initial skills course training, identifying the tasks and knowledge requirements and respective standards provided to achieve a 3- to 9-skill level in this career field. Supervisors use the COL to conduct graduate evaluations.

Educational Subject Block Index (ESBI). A comprehensive information resource package on SF subjects, procedures, or equipment. ESBI's contain text and test material for qualification and sustainment training, or skills/knowledge enhancement. ESBI's are suitable for either individual or classroom use. ESBI's are available on the HQ AFSFC web site. Some AFHs are conversions from ESBI's. Use ESBI's until replaced by an AF publication or rescinded.

Exportable Training. Additional training via computer assisted, paper text, interactive video, or other necessary means to supplement training.

Field Manual (FM). US Army publication used to define key training requirements for certain SF tasks. Use US Army FMs for training only when a FM is listed as a STS line item task training reference.

Initial Skills Training. A formal school course that results in award of a 3-skill level Air Force specialty code (AFSC). (May also include a "qualifying" course before the AFSC awarding course.)

Instructional System Development (ISD). A deliberate and orderly but flexible process for planning, developing, implementing, and managing instructional systems. It ensures a cost efficient way to provide the knowledge, skills, and attitudes essential for successful job performance.

Objective. A statement that specifies the desired behavior, condition of behavior, and the minimum standard of performance.

Occupational Survey Report (OSR). A detailed report showing the results of an occupational survey of tasks performed within a particular AFS.

On-the-Job Training (OJT). A method of training used to certify personnel in both upgrade (skill level award) and job qualification (duty position certification) training. It is hands-on, over-the-shoulder training conducted at the duty location.

Qualification Training. Actual hands-on task performance-based training designed to qualify airmen in a specific duty position. This training program occurs during and after the upgrade training process. It provides the performance skills training required to do the job.

Resource Constraints. Resource deficiencies such as money, facilities, manpower, and equipment which preclude delivery of desired training.

Specialty Training. A mix of formal training (technical school) and informal training (on-the-job) to qualify and upgrade airmen in each skill level of a specialty.

Specialty Training Standard (STS). An Air Force publication that describes an Air Force Specialty in terms of tasks and knowledge that an airman in that specialty performs or knows on the job. It further serves as a contract between Air Education and Training Command (AETC) and the functional user to show overall training requirements taught in formal schools, Career Development Courses (CDCs) and exportable training courses.

Standard. A fixed quantity or quality.

Sustainment Training. Training conducted to sustain skills or knowledge previously acquired.

Task. A unit of work activity or operation which forms a significant part of a duty. A task usually has clear beginning and ending points and is directly observable or measurable.

Training Manual (TM). US Army publication used to define key training requirements for certain SF tasks. Use US Army TMs for training only when a TM is listed as a STS line item task training reference.

Upgrade Training (UGT). Mandatory training that leads to the award of a higher skill level.

Utilization and Training Workshop (U&TW). A forum of Air Force and major command functional managers, subject matter experts, and AETC training personnel which determines Specialty Training Standard requirements and responsibilities for a specialty.

SECTION A - GENERAL INFORMATION

4. Purpose. Career field managers, commanders, training managers, supervisors, trainers, and the training wing use this CFETP to plan, develop, manage, and conduct an effective career field training program. This plan directs training individuals must receive to develop and progress throughout their careers. It identifies initial skills, upgrade, qualification, advanced, and continuation training requirements. Initial skills training is the AFS specific training an individual receives upon entry into the Air Force, retraining into this specialty, or lateral training into either the A or B shredout. AETC provides this training at Lackland AFB TX for AFSC 3P0X1/X1A/X1B. Upgrade training identifies the mandatory courses, task qualification requirements, CDCs and exportable training courses completion required for award of the 5-, 7-, and 9-skill levels. Qualification training is actual hands-on task performance training designed to qualify an airman in a specific duty position. This training program occurs both during and after the upgrade training process. It provides the performance skills/knowledge training required to do the job. Advanced training is formal AFS training used for selected airmen. Continuation training is additional training, either in-residence or exportable advanced training courses, or on-the-job training, provided to 3-, 5-, 7-, and 9-skill level personnel to increase their skills and knowledge beyond the minimum required. The CFETP also serves the following purposes:

4.1. Serves as a management tool to plan, manage, conduct, and evaluate a career field training program. It also helps supervisors identify training at the appropriate point in an individual's career.

4.2. Identifies task and knowledge training requirements for each skill level in this specialty and recommends training/education throughout each phase of an individual's career.

4.3. Lists training courses available in the specialty, identifies sources of training, and the training delivery method.

4.4. Identifies major resource constraints which impact full implementation of the desired career field training program.

5. Uses. MAJCOM functional managers (MFMs) and supervisors at all levels use this plan to develop comprehensive and cohesive training programs for each individual in the specialty.

5.1. AETC training personnel develop/revise formal resident and exportable training based on requirements established by users and documented in Part II of the CFETP. They will also work with the Air Force Career Field Manager (AFCFM) to develop acquisition strategies for obtaining resources needed to provide the identified training.

5.2. The MAJCOM focal points will ensure MAJCOM training programs complement the CFETP mandatory initial skills and upgrade requirements. OJT, resident training, contract training, or exportable courseware/courses satisfy identified requirements. MAJCOMS must identify MAJCOM-developed training to support this AFS for inclusion in this plan and must not duplicate training already available.

5.3. Headquarters, Air Force Security Forces Center (HQ AFSFC) develops publications on specific SF subjects, procedures, or equipment. MAJCOMS or local units select and localize these publications to fit their needs.

5.4. Each individual will complete the mandatory training requirements specified in this plan. Use the lists of courses in Part II as a reference for planning continuation or career enhancement training.

6. Coordination and Approval. HQ AFSFC/SFWT develops this CFETP. The approval authority is AF/XOFM, the AFCFM. MAJCOM representatives and AETC training personnel will identify and coordinate on the career field training requirements. The AETC training manager for this specialty will initiate an annual review of this document by the AFCFM, AETC, and MAJCOM functional managers (MFMs) to ensure currency and accuracy.

SECTION B - CAREER FIELD PROGRESSION AND INFORMATION

7. Specialty Description. SF personnel perform force protection duties, including the use of deadly force, to protect personnel and resources. SF duties ensure combat capability through the functions of installation security, nuclear and conventional weapon systems and resources security, air base defense (ABD), law enforcement, information security, military working dog (MWD) activities, and combat arms. SF personnel participate in contingency operations. Personnel in this career field will be deployed and employed in sensitive or hostile environments created by terrorism, sabotage, nuclear, chemical, biological, or conventional warfare. SF members perform the military police function within the Air Force.

7.1. Security Forces Summary. Leads, manages, supervises, directs, and performs SF activities, including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ABD, armament and equipment, training, reports and analysis, pass and registration, information/personnel/industrial security, and combat arms. SF functions will be performed in peace, contingency, and wartime operations. Related DoD Occupational Subgroup: 070.

7.2. Duties and Responsibilities (3-, 5-, & 7- Skill Level).

7.2.1. 3-Skill Level.

7.2.1.1. Performs general SF force protection duties, including the use of deadly force, to protect personnel and resources. Protects nuclear and conventional weapons systems and other resources. Performs ABD functions which contribute to the force protection mission. Controls and secures terrain inside and outside military installations. Defends personnel, equipment, and resources from hostile forces. Operates in various field environments, performs individual/team patrol movements both mounted and dismounted, tactical drills, battle procedures, convoys, military operations other than war (MOOTW), antiterrorism duties, and other special duties. Operates communications equipment, vehicles, intrusion detection equipment, crew-served weapons, and other special purpose equipment. Applies self-aid buddy care and life saving procedures, including cardiopulmonary resuscitation (CPR), as a first responder to accident and disaster scenes.

7.2.1.2. Provides armed response and controls entry. Detects and reports the presence of unauthorized personnel and activities. Implements security reporting and alerting system. Directs vehicle and pedestrian traffic. Apprehends and detains suspects. Searches persons and property. Secures crime and incident scenes. Collects, seizes, and preserves evidence. Completes reports of incidents, and obtains statements and testifies in official judicial proceedings. Responds to disaster and relief operations. Participates in contingencies.

7.2.1.3. Performs SF armory duties, and controls and safeguards arms, ammunition and equipment. Instructs ground weapons qualification training and maintains firing ranges.

7.2.1.4. Employs military working dogs to support worldwide security force operations and executive agency requirements. Ensures health and welfare of military working dogs. Reports and reacts to dog alerts. Maintains dog training and usage records.

7.2.2. 5-Skill Level (includes MWD and CA).

7.2.2.1. Performs general SF force protection duties, including the use of deadly force, to protect personnel and resources. Protects nuclear and conventional weapons systems and other resources. Performs ABD functions which contribute to the force protection mission. Controls and secures terrain inside and outside military installations. Defends personnel, equipment, and resources from hostile forces. Operates in various field environments, performs individual/team patrol movements both mounted and dismounted, tactical drills, battle procedures, convoys, military operations other than war (MOOTW), antiterrorism duties, and other special duties. Operates communications equipment, vehicles, intrusion detection equipment, crew-served weapons, and other special purpose equipment. Applies self-aid buddy care and life saving procedures, including cardiopulmonary resuscitation, as a first responder to accident and disaster scenes.

7.2.2.2. Provides armed response and controls entry. Detects and reports the presence of unauthorized personnel and activities. Implements security reporting and alerting system. Enforces standards of conduct, discipline, and

adherence to laws and directives. Directs vehicle and pedestrian traffic. Apprehends and detains suspects. Searches persons and property. Secures crime and incident scenes. Investigates motor vehicle accidents, minor crimes, and incidents. Operates speed measuring and intoxilyzer test devices. Conducts interviews of witnesses and suspects. Collects, seizes, and preserves evidence. Completes reports of incidents, obtains statements, and testifies in official judicial proceedings. Responds to disaster and relief operations. Participates in contingencies.

7.2.2.3. Implements ground weapons training programs, operates SF armories, and controls and safeguards arms, ammunition, and equipment. Instructs ground weapons qualification training. Provides technical guidance on weapons placement to SF and ground defense force commanders. Inspects ground weapons and replaces unserviceable parts. Analyzes malfunctions by inspection and serviceability testing. Uses precision gauges, testing instruments, and special tools to adjust parts and operating mechanisms. Function-fires weapons for accuracy and serviceability. Controls and operates firing ranges and associated facilities to include supervising construction and rehabilitation.

7.2.2.4. Ensures MWD team proficiency training and certification standards are maintained. Employs MWD teams to support worldwide SF operations and executive agency requirements. Ensures health and welfare of military working dogs. Reports and reacts to dog alerts. Maintains dog training and usage records.

7.2.3. 7-Skill Level (includes supervisory personnel with MWD Special Experience Identifier (SEI) 311 and Combat Arms SEI 312).

7.2.3.1. Performs general SF force protection duties, including the use of deadly force, to protect personnel and resources. Protects nuclear and conventional weapons systems and other resources. Performs ABD functions which contribute to the force protection mission. Controls and secures terrain inside and outside military installations. Defends personnel, equipment, and resources from hostile forces. Operates in various field environments, performs individual/team patrol movements, both mounted and dismounted; tactical drills; battle procedures; convoys; MOOTW; antiterrorism duties; and other special duties. Operates communications equipment, vehicles, intrusion detection equipment, crew-served weapons, and other special purpose equipment. Applies self-aid buddy care and life saving procedures, including cardiopulmonary resuscitation, as a first responder to accident and disaster scenes.

7.2.3.2. Provides armed response and controls entry. Detects and reports the presence of unauthorized personnel and activities. Implements security reporting and alerting system. Enforces standards of conduct, discipline, and adherence to laws and directives. Directs vehicle and pedestrian traffic. Apprehends and detains suspects. Searches persons and property. Secures crime and incident scenes. Investigates motor vehicle accidents, minor crimes, and incidents. Operates speed measuring and intoxilyzer test devices. Conducts interviews of witnesses and suspects. Collects, seizes, and preserves evidence. Completes reports of incidents, obtains statements, and testifies in official judicial proceedings. Responds to disaster and relief operations. Participates in contingencies.

7.2.3.3. Develops plans, policies, procedures, and detailed instructions to implement SF programs. Plans, organizes and schedules SF activities. Provides oversight, guidance, and assistance to commanders regarding application of information, personnel, and industrial security programs. Operates pass and registration activities. Supervises and trains SF augmentees. Provides on-scene supervision of SF personnel. Inspects and evaluates effectiveness of SF personnel and activities. Analyzes reports and statistics.

7.2.3.4. Implements ground weapons training programs; operates SF armories; and controls and safeguards arms, ammunition, and equipment. Instructs ground weapons qualification training. Provides technical guidance on weapons placement to SF and ground defense force commanders. Inspects ground weapons and replaces unserviceable parts. Analyzes malfunctions by inspection and serviceability testing. Uses precision gauges, testing instruments, and special tools to adjust parts and operating mechanisms. Function-fires weapons for accuracy and serviceability. Controls and operates firing ranges and associated facilities to include supervising construction and rehabilitation.

7.2.3.5. Ensures MWD team proficiency training and certification standards are maintained. Employs MWD teams to support worldwide SF operations and executive agency requirements. Ensures health and welfare of military working dogs. Reports and reacts to dog alerts. Maintains dog training and usage records.

7.3. Duties and Responsibilities (9-Skill Level).

7.3.1. Leads, manages, supervises, directs, and performs SF and force protection duties, including the use of deadly

force, to protect personnel and resources. Performs ABD functions which contribute to the force protection mission. Directs defense of personnel, equipment, and resources from hostile forces. Performs tactical drills, battle procedures, convoys, MOOTW, antiterrorism duties, and other special duties. Applies self-aid buddy care and life saving procedures, including cardiopulmonary resuscitation.

7.3.2. Supervises implementation of security reporting and alerting system. Enforces standards of conduct, discipline, and adherence to laws and directives. Conducts interviews of witnesses and suspects. Obtains statements and testifies in official judicial proceedings. Responds to disaster and relief operations. Participates in contingencies.

7.3.3. Manages the development of plans, policies, procedures, and detailed instructions to implement SF programs. Plans, organizes, and schedules SF activities. Provides oversight, guidance, and assistance to commanders regarding application of information, personnel, and industrial security programs. Manages pass and registration activities. Provides on-scene supervision for SF. Inspects and evaluates effectiveness of SF personnel and activities. Analyzes reports and statistics.

7.3.4. Provides recommendations to senior leadership on employment and utilization of military working dog teams. Manages proficiency training and certification standards to ensure standards are maintained. Directs employment of military working dog teams to support worldwide security force operations and executive agency requirements. Manages military working dog health, welfare, and all aspects of the training program.

7.3.5. Manages ground weapons training programs and operation of SF and ground weapons training armories. Provides weapons placement recommendations to SF and ground defense force commanders. Manages operation of firing ranges and associated facilities to include supervising construction and rehabilitation.

8. Skill/Career Progression. It is essential that everyone involved in training contribute to an effective training program. The guidance provided in this part of the CFETP will ensure individuals receive training at the appropriate points in their careers. The following narrative and Table A11.1. identify the training career path. They define the training required in an individual's career.

8.1. Apprentice (3-Skill Level) Training.

8.1.1. Initial skills training in this specialty consists of the task and knowledge training provided in the 3-skill level resident SF apprentice course.

8.1.2. The STS and course objective list at Part II, Sections A and B, and attachments 1 and 2 identify task and knowledge training requirements. Wartime tasks are identified in column 2B (Wartime Tasks). In response to a wartime scenario, tasks identified by using an asterisk (*) in column 2B indicate wartime tasks taught to the task or knowledge level indicated in the 3-skill level course column in a streamlined technical training environment.

8.1.3. Completion of the SF apprentice course is required for award of AFSC 3P031. Completion of the MWD handler apprentice course is required for award of AFSC 3P0X1A. Completion of the combat arms apprentice course is required for award of AFSC 3P0XIB.

8.1.4. Items listed in the STS with a Performance Code Key (PCK) code of D/L are for an exportable training course taught after award of the 3-skill level. Completion of this course IS NOT part of awarding the 3-skill level, but is supplemental training conducted at the 3-level, prerequisite to beginning 5-level training. The exportable training course should be completed during Phase I, Orientation Training, but must be completed prior to initiation of journeyman (5-skill) level upgrade training.

8.2. Journeyman (5-Skill Level) Training. Completion of the SF journeyman (5-level) career development course (CDC) and requirements listed in Table A11.1. are mandatory for award of AFSC 3P051. Specialty wide core tasks are identified in column 2A (Core tasks) by skill level. Continuation training in certain areas is available for use on specific training needs.

8.2.1. Personnel must complete the MWD Handler CDC and requirements listed in Table A11.1., for upgrade to the Suffix A, 5-skill level.

8.2.2. Personnel must complete the Combat Arms CDC and requirements listed in Table A11.1. for upgrade to the Suffix B, 5-skill level.

8.3. Craftsman (7-Skill Level) Training. Completion of the SF craftsman 7-level resident course, 7-level CDCs, and requirements listed in Table A11.1. are mandatory for award of AFSC 3P071. Specialty wide core tasks are identified in column 2A (Core tasks) by skill level. Continuation training in certain areas is available for use on specific training needs.

8.3.1. Personnel performing duties in AFSCs 3P051, 3P051A, and 3P051B must complete core SF 3P071 upgrade training as identified in paragraph 8.3. above.

8.3.2. Personnel awarded 3P051A or the MWD Handler SEI 311 who hold the position of MWD trainer or kennelmaster must complete the MWD Trainer/Supervisor Course (L3AZR3P071-008). Supervisors of these personnel, or non-SEI holders assigned as kennelmaster, may also attend this course.

8.3.3. Personnel awarded 3P051B or the Combat Arms SEI 312 who hold the position(s) of Combat Arms/Armory NCOIC or superintendent must complete (when available) the Combat Arms Supervisors Course (L3AZR3P071-014). Supervisors of these personnel, or non-SEI holders assigned as Combat Arms/Armory NCOIC, may also attend this course.

8.4. Superintendent (9-Skill Level) Training. To earn award of AFSC 3P091, an individual must attain the rank of SMSgt and satisfy any other requirement specified in AFI 36-2101, *Military Classification Policy for Airmen and Officers*. Continuation training in certain areas is available for use on specific training needs.

9. Training Decisions. This CFETP includes life-cycle training requirements for this specialty. Included in this spectrum was the strategy of when, where, and how to meet these training requirements. The strategy is apparent, reduces duplication, and eliminates a fragmented approach to training.

10. Community College of the Air Force (CCAF) Academic Programs. Automatic enrollment in CCAF occurs upon completion of basic military training. CCAF provides the opportunity to obtain an Associates in Applied Science Degree. Paragraph 10.1 identifies academic requirements for completion of the Criminal Justice Degree Program. NOTE: These requirements are subject to change; refer to current CCAF catalog for specifics. Students enrolled in those programs have six years from the date of degree program registration to complete the program. Students who do not complete the program in the time allotted will automatically be moved to the degree program for their primary occupational specialty in the most current catalog. Off-duty education is a personal choice, but is highly encouraged.

10.1. Criminal Justice (CCAF Catalog: 9IJY).

10.1.1. Degree Requirements: Program completion requires attainment of journeyman (5-skill) level.

10.1.3. Leadership, Management, and Military Studies (6 Semester Hours): Professional military education (PME) or civilian management courses accepted in transfer, and/or by testing credit. The preferred method of completing Leadership, Management, and Military Studies is through attendance at an Airman Leadership School, NCO Academy, and the Air Force Senior NCO Academy. However, civilian courses that emphasize fundamentals of managing human or materiel resources may also apply.

10.1.4. Physical Education (4 Semester Hours): Basic military training satisfies this requirement.

10.1.5. General Education (15 Semester Hours): Courses accepted in transfer or by testing credit satisfies this requirement.

Subjects/Courses	Semester Hours
Oral Communication (Speech)	3
Written Communication (English Composition)	3
Mathematics Intermediate algebra or a college-level mathematics course that satisfies the delivering institution's mathematics requirement for graduation. If an acceptable mathematics course is applied as a Technical or Program Elective, a natural science course may be substituted for mathematics.	3
Social Science Anthropology, Archaeology, Economics, Geography, Government, History, Political Science, Psychology, Sociology	3
Humanities Fine Arts (Criticism, Appreciation, Historical Significance), Foreign Language, Literature, Philosophy, Religion	3

10.1.6. Program Elective (15 Semester Hours): Technical Education; Leadership, Management, and Military Studies; or General Education subjects/courses including natural science courses meeting GER application criteria satisfy this requirement. Foreign language credit earned at the Defense Language Institute or through the Defense Language Proficiency Test. Six semester hours of CCAF degree-applicable technical course credit otherwise not applicable to the program are an acceptable substitute.

10.2. Occupational Instructor Certification. Upon completion of instructor qualification training, consisting of an instructor methods course and supervised practice teaching, CCAF instructors (enlisted, officer, and civilian) may be nominated by their school commander/commandant for certification as an occupational instructor. To qualify for certification, a nominee must:

10.2.1. Be a full-time CCAF instructor, teaching a CCAF course at the time of nomination.

10.2.2. Have at least 2 year's teaching experience as a CCAF instructor.

10.2.3. Have completed an instructor course of at least 3-semester hours.

10.2.4. Have completed a teaching practicum course of at least 5 semester hours.

10.2.5. Hold the journeyman (five) level (or fully qualified equivalent).

10.2.6. Hold an associate or higher degree.

10.2.7. Be recommended for certification by the affiliated school commander/commandant or equivalent designated representative.

11. Career Field Path. The following table depicts the SF specialty career path. The career path outlines required training for each skill level and function within this specialty.

Table A11.1. Enlisted Career Path.

	GRADE REQUIREMENTS			
	Rank	Average Sew-On	Earliest Sew-On	High Year Of Tenure (HYT)
Education and Training Requirements				
Basic Military Training school				
Apprentice Technical School (3-Skill Level)	Amn A1C	6 months 16 months		
Distance Learning Course L6AGU3P031-000 (Type 6 Course) - Follow on training subsequent to award of 3-skill level (SF Academy graduation) - Must be completed within 4 months (120 days) of SF Academy graduation - ANG personnel must complete within 4 months (120 days) - AFRC personnel must complete within 6 months (180 days)				
Upgrade To Journeyman (5-Skill Level) - Minimum 15 months OJT. - Complete appropriate CDC. - Complete all 5 level core tasks identified in the applicable STS and other duty position tasks identified by the supervisor. <i>NOTE: Personnel in retraining status are eligible for 5-level upgrade after satisfying a minimum of 9 months in upgrade training. Active duty personnel may only enter AFSC 3P0X1A and 3P0X1B from the core AFSC 3P0X1.</i>	SrA	3 years	28 months	10 Years
Airman Leadership School (ALS) - Must be a SrA with 48 months time in service or be a SSgt Selectee. - Resident graduation is a prerequisite for SSgt sew-on (Active Duty Only). - ANG may attend ALS or complete the CDCs course 0001, (NCO Preparation Course)	Trainer			
	- Must be qualified to perform task. - Trainers may sign-off trainee's records on non-core and non-critical tasks by initialing the trainer's column; third party certification <i>IS NOT</i> required for non-core and non-critical tasks - Must attend formal AF Training Course and appointed in writing by the Commander. <i>NOTE: Personnel who attended previous OJT Trainer's/Supervisor's/Certifier's Courses are grandfathered.</i>			
Upgrade To Craftsman (7-Skill Level) - Minimum rank of SSgt. - 12 months OJT. - Complete appropriate CDC. - Complete all 7 level core tasks identified in the core STS and other duty position tasks identified by the supervisor. - Attend resident craftsman course. <i>NOTE: Personnel in retraining status are subject to the same requirements.</i>	SSgt	7.5 years	3 years	20 Years
	Certifier			
	- Must be at least a SSgt with a 5-skill level or civilian equivalent. - Must be someone other than the trainer, recommended by supervisor, and qualified to perform the task. - Will evaluate all core and critical tasks. - Attend formal AF Training Course and appointed in writing by the Commander. <i>NOTE: Personnel who attended previous OJT Trainer's/Supervisor's/Certifier's Courses are grandfathered.</i>			
Noncommissioned Officer Academy (NCOA) - Must be a TSgt or TSgt selectee. - Resident graduation is a prerequisite for MSgt sew-on (Active Duty Only).	TSgt	12.5 years	5 years	20 Years
USAF Senior NCO Academy (SNCOA) - Must be a SMSgt/SMSgt selectee or MSgt identified for attendance. - Resident graduation is a prerequisite for CMSgt sew-on (Active Duty Only).	MSgt SMSgt	16 years 19.2 years	8 years 11 years	24 years 26 Years
Upgrade To Superintendent (9-Skill Level) - Minimum rank of SMSgt. - Completion of SNCOA in residence.				
Upgrade to Security Forces Manager	CMSgt	21.5 years	14 years	30 years

SECTION C - SKILL LEVEL TRAINING REQUIREMENTS

12. Purpose. This CFETP defines skill levels in terms of tasks and knowledge requirements. This section outlines the specialty qualification requirements for each skill in broad, general terms and establishes the mandatory requirements for entry, award, and retention of each skill level. The STS and Course Objective List at Part II, Sections A and B, of this CFETP identify specific task and knowledge training requirements.

13. Specialty Qualification Requirements.

13.1. Apprentice (3-Skill Level) Training Requirements.

13.1.1. Knowledge. Knowledge is mandatory of: SF weaponry; laws, directives, programs, and policies; and procedures governing SF activities, including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ABD, armament and equipment, training, pass and registration, information security, and combat arms.

13.1.2. Education. For entry into this specialty, completion of high school with courses in government, behavioral science, computer, and communicative skills is desirable.

13.1.3. Training. The following training is mandatory for award of the AFSC indicated:

13.1.3.1. 3P031. Completion of the SF apprentice course satisfies the knowledge and training requirements for award of the 3-skill level.

13.1.3.2. 3P0X1A. Completion of the MWD handler apprentice course. NOTE: SF members must possess AFSC 3P051 prior to entering the MWD handler apprentice course. Direct entry of active duty AFSC 3P031 and prior service personnel may be permitted by HQ USAF/XOFM as required.

13.1.3.3. 3P0X1B. Completion of the combat arms apprentice course. NOTE: ANG and reserve personnel may enter this course directly (pipeline) from the SF apprentice course. After graduation, they must complete all core and combat arms upgrade requirements. NOTE: Active duty SF members must possess AFSC 3P051 prior to entry. Direct entry of active duty AFSC 3P031 and prior service personnel may be permitted by HQ USAF/XOFM as required.

13.1.4. Experience. The following experience is mandatory for award of the AFSC indicated:

13.1.4.1. 3P031. There is no mandatory military or civilian experience required for award of AFSC 3P031.

13.1.4.2. 3P031A. Qualification in and possession of AFSC 3P051. Also, experience in SF weaponry controlling entry into and providing internal control within installations and restricted areas, response force tactics, ABD concepts and procedures, terrorist threat response techniques, alarm monitor duties, control center duties, traffic control, patrolling, or accident investigation.

13.1.4.3. 3P031B. Qualification in and possession of AFSC 3P051. Also, experience in SF weaponry controlling entry into and providing internal control within installations and restricted areas, response force tactics, ABD concepts and procedures, terrorist threat response techniques, alarm monitor duties, control center duties, traffic control, patrolling, or accident investigation. NOTE: ANG and reserve personnel may enter this course directly (pipeline) from the SF apprentice course.

13.1.5. Other. The following are mandatory as indicated:

13.1.5.1. For entry into this specialty, normal color vision as defined in AFI 48-123, *Medical Examination and Standards*.

13.1.5.1.1. For entry into AFSC 3P0X1A/B, qualification in and possession of AFSC 3P031/51. (See paragraphs 13.1.3.2. and 13.1.3.3.)

13.1.5.2. For entry, award, and retention of these AFSCs:

13.1.5.2.1. No recorded evidence of personality disorder.

13.1.5.2.2. Visual acuity correctable to 20/20 in one eye and 20/30 in the other.

13.1.5.2.3. Qualification to bear firearms IAW AFI 31-207, *Arming and Use Of Force By Air Force Personnel*.

13.1.5.2.4. Never convicted by a general, special, or summary courts-martial.

13.1.5.2.5. Never received non-judicial punishment under the Uniform Code of Military Justice (UCMJ) which resulted in either reduction or suspended reduction in grade, or correctional custody for offenses involving substantiated drug abuse as defined in AFI 36-2701, *Social Actions Program*, acts of larceny, wrongful appropriation, robbery, burglary, housebreaking, or misconduct in combat as delineated in UCMJ articles 99-106.

13.1.5.2.6. Never been convicted by a civilian court of a Category 1, 2, or 3 offense, or exceeded the accepted number of Category 4 offenses. Category 3 and 4 traffic offenses alone, are not disqualifying. NOTE: Categories of offenses are described and listed in AFI 36-2002, *Regular Air Force and Special Category Accession*, Uniform Guide List of Typical Offenses.

13.1.5.2.7. Ability to speak distinctly.

13.1.5.2.8. Individuals who have had their spleen removed are not eligible for award or retention of suffix A. (NOTE: This is a medical precaution related to a reduced ability to fight infection in case of a dog bite.)

13.1.5.2.9. Must be a United States citizen.

13.1.5.2.10. Must be eligible for a secret security clearance IAW AFI 31-501, *Personnel Security Program Management*.

13.1.5.3. For retention of AFSC 3P0XX, must be eligible for a secret security clearance IAW AFI 31-501.

13.1.6. Training Sources/Resources. Completion of the SF apprentice course satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of the 3-skill level. Completion of the MWD handler apprentice course satisfies the knowledge and training requirements specified in the specialty qualification section for award of the 3-skill level A Shred. Completion of the combat arms apprentice course satisfies the knowledge and training requirements specified in the specialty qualification section for award of the 3-skill level B Shred. HQ USAF/XOFM approves prior service accessions, as well as MOS conversions, in conjunction with applicable AF classification and management guidance, satisfying award of the 3-skill level without attending the apprentice, MWD handler, or combat arms courses. The Course Objective List (Part II, Section B, of this CFETP) identifies all the knowledge and tasks with their respective standards. AF publications contain information on a specific duty position, program, or piece of equipment. A list of other training courses to support SF is at Part II, Section D, of this CFETP.

13.1.7. Implementation. Begin formal training upon initial Air Force accession or retraining into the SF career field. Initiate qualification training to qualify an individual to perform their assigned duties.

13.2. Journeyman (5-Skill Level) Training Requirements.

13.2.1. Knowledge. Knowledge is mandatory of: SF weaponry; laws, directives, programs, and policies; and procedures governing security force activities, including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ABD, armament and equipment, training, pass and registration, information security, and combat arms.

13.2.2. Education. For entry into this specialty, completion of high school with courses in government, behavioral science, computer, and communicative skills is desirable.

13.2.3. Training. Must complete the Security Forces Journeyman CDC for award of AFSC 3P051, must complete a minimum of 15 months on-the-job training (9 months for retrainees), all 5-level core tasks, and all duty position tasks identified by the supervisor.

13.2.3.1. 3P051A. Must complete the Military Working Dog Journeyman CDC (3P051D) for award of AFSC 3P051A, a minimum of 9 months on-the-job training, all 5-level core tasks on the MWD STS, and all duty position tasks identified by the supervisor.

13.2.3.2. 3P051B. Must complete the Combat Arms Journeyman CDC (3P051C) for award of AFSC 3P051B, a minimum of 9 months on-the-job training, all 5-level core tasks on the CA STS, and all duty position tasks identified by the supervisor.

13.2.4. Experience.

13.2.4.1. 3P051. Qualification in and possession of AFSC 3P031. Also, experience in SF weaponry controlling entry into and providing internal control within installations and restricted areas, response force tactics, ABD concepts and procedures, terrorist threat response techniques, alarm monitor duties, control center duties, traffic control, patrolling, or accident investigation.

13.2.4.2. 3P051A. Qualification in and possession of AFSC 3P031A (reflecting completion of the resident MWD Handler Course). Also, experience in SF weaponry, maintaining dog handling equipment, caring for and training military working dogs, and reacting to dog alerts.

13.2.4.3. 3P051B. Qualification in and possession of AFSC 3P031B (reflecting completion of the resident Combat Arms Apprentice Course). Also, experience in functions such as classroom instruction, marksmanship fundamentals and techniques, weapons and range safety, sub-depot level firearm maintenance and repair, range operations and safety criteria, or controlling and storing weapons and ammunition.

13.2.5. Other: See para 13.1.4. above.

13.2.6 Training Sources/Resources. Completion of the SF Journeyman CDC satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of the 5-skill level. Completion of the Combat Arms Journeyman CDC satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of 5-skill level in Combat Arms. Completion of the Military Working Dog Journeyman CDC satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of 5-skill level in Military Working Dog Handler. AF publications contain information on a specific duty position, program, or piece of equipment. A list of other training courses to support SF is at Part II, Section D, of this CFETP.

13.2.7. Implementation. Upgrade training may be initiated upon completion of Phase I (Orientation) training. During Phase I training, the trainee should complete the exportable training course (see para 13.2.7.1) comprised of those items on the STS identified with D/L in column 4a. CDCs may be ordered when a trainee arrives at their first duty station, but training on 5-skill level tasks will not start until the exportable training course has been completed. Individuals remain in upgrade training at least 15 months, complete the required CDC, and assume the grade of AIC before award of the journeyman (5-skill) level. (NOTE: The minimum upgrade time for personnel retraining into AFSCs 3P0X1A/B is 9 months for completion of 5-level requirements.) Initiate Phase II (Qualification) training to qualify an individual to perform their assigned duties. Although Phase II training and the exportable training course may be accomplished simultaneously, we recommend completion of the exportable training course first, as it provides critical knowledge necessary to complete Phase II training.

13.2.7.1. Active duty and ANG personnel **must** complete the Security Forces Apprentice Distance Learning (DL) exportable course (L6AGU3P031-000) within 4 months (120 days) from the date of enrollment. AFRC has 6 months (180 days) to complete this training. The 343 TRS (SF Academy) course administrator accomplishes enrollment in the course, the day after graduation from the SF Apprentice technical school course. When the trainee arrives at their first duty station, the unit must annotate the technical school graduation date and monitor the trainee's progress to ensure the course is completed within the allotted time frame. NOTE: ANG members waived from attending the in-residence 3-level course must complete the DL course within 4 months (120 days) of enrollment. Upon completion of

the course, results will be sent to 343 TRS.

13.2.7.2. There may be occasions when a trainee remains at Lackland AFB, attached to the 343 TRS, for a period of time after graduation from technical school. In this instance, the apprentice will complete the exportable course, and receive a letter of completion from the 343 TRS, which will be hand-carried to his/her first duty station.

13.2.7.3. There may be instances where an individual does not successfully complete the exportable course. If an individual does not pass the end-of-course exam after 3 attempts, all contributing factors must be considered in determining the airman's future. If the reasons for failure are academic or difficulty using computers, a waiver should be considered. Before requesting a waiver, additional remedial training on the DL items in the career field education and training plan (CFETP) must be conducted. This training could consist of supervised study, lecture and demonstration/performance lessons conducted by the supervisor or unit training section, and learning by doing on-the-job training. The individual may then be evaluated using oral and practical tests in lieu of a written exam. If the individual does well, the unit may request a waiver of the DL requirement through their MAJCOM, to HQ AFSFC/SFW, who will in turn forward it to the career field manager, HQ USAF/XOFM, for action. If the waiver is granted, document the remedial training, evaluation and waiver in the individual training record, and begin 5-level upgrade training. NOTE: The waiver is only for the training delivery and evaluation methods (DL format). The individual must receive training and evaluation on the STS line items contained in the DL. The waiver permits this to be accomplished using traditional OJT methods. However, training conducted in this manner does not qualify the individual for award of CCAF credit gained by completing the DL course.

13.3. Craftsman (7-Skill Level) Training Requirements.

13.3.1. Knowledge. Knowledge is mandatory of: SF weaponry; laws, directives, programs, and policies; and procedures governing security force activities, including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ABD, armament and equipment, training, pass and registration, information security, and combat arms.

13.3.2. Education. For entry into this specialty, completion of high school with courses in government, behavioral science, computer, and communicative skills is desirable.

13.3.3. Training. Completion of SF craftsman (7-skill level) resident course and CDC, minimum rank of SSgt, 12 months OJT, all 7-level core tasks (on the core STS), and all duty position tasks identified by the supervisor are mandatory for award of AFSC 3P071.

13.3.4. Experience. Qualification in and possession of AFSC 3P051. Also, experience supervising or performing functions such as weapon systems and resource security, ABD, law enforcement, MWD functions, or combat arms functions. (NOTE: Personnel in AFSC 3P051A, who have been awarded a 7-skill level and have attained the rank of TSgt, will be awarded the Special Experience Identifier (SEI) 311 and their control AFSC will be 3P071. Personnel in AFSC 3P051B, who have been awarded a 7-skill level and have attained the rank of TSgt, will be awarded the SEI 312 and their control AFSC will be 3P071.)

13.3.5. Other. See para 13.1.4. above.

13.3.6. Training Sources/Resources. Completion of the 7-skill level CDC and 7-skill level resident course satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of the 7-skill level. AFHs contain information on a specific duty position, program, or piece of equipment. Part II, Section D, of this CFETP lists other training courses.

13.3.7. Implementation. Initiate upgrade training for individuals selected for promotion to Staff Sergeant on the *first day of the promotion cycle*. The craftsman skill level requires a minimum of 12 months in upgrade training and completion of the required courses (see Table A11.1). Initiate qualification training to qualify an individual to perform their assigned duties.

13.4. Superintendent (9-Skill Level) Training Requirements.

13.4.1. Knowledge. Knowledge is mandatory of: SF weaponry; laws, directives, programs, and policies; and

procedures governing security force activities, including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ABD, armament and equipment, training, pass and registration, information security, and combat arms.

13.4.2. Education. Must be a SMSgt for award of the 9-skill level and must complete the Senior NCO Academy in-residence before assuming the rank of CMSgt. Refer to Table A11.1. for additional guidance.

13.4.3. Training. Complete duty position training, as needed.

13.4.4. Experience. Qualification in and possession of AFSC 3P071. Also, experience in leading, managing, and directing SF activities. Examples include: installation security, ABD, antiterrorism techniques, weapon systems security, military police and community policing, resources security, information/personnel/industrial security, combat arms, MWD program, or corrections activities.

13.4.5. Other. See para 13.1.4. above.

13.4.6. Training Sources/Resources. AF Publications provide information for job qualification. Continuation (advanced) training courses satisfy specific training needs. Part II, Section D, of this CFETP lists other training courses.

13.4.7. Implementation. Award the 9-skill level upon assuming the rank of SMSgt.

14. Education and PME Requirements.

14.1. Completion of high school and courses in government, behavioral sciences, security and law enforcement, police administration, police science, criminology, personnel, information, or industrial security are desirable for entry into this specialty.

14.2. Complete Airman Leadership School before assuming the rank of SSgt. Only SSgt selectees and SRA attaining 48 months Total Active Federal Military Service (TAFMS) may attend. ANG may attend ALS or complete the CDC course 0001, NCO Preparation Course. Additionally, courses in law enforcement, crime prevention, or police administration are desirable. Refer to Table A11.1.

14.3. Complete the NCO Academy before assuming the rank of MSgt. Limit attendees to TSgts or TSgt selectees. Additionally, courses in law enforcement, crime prevention, or police administration are desirable. Refer to Table A11.1.

14.4. Complete the Senior NCO Academy before assuming the rank of CMSgt. Refer to Table A11.1.

14.5. Training Requirements for Retrainees. The minimum upgrade times for retrainees will consist of: 9 months for 5-level, and 12 months for 7-level UGT. Complete all other mandatory requirements (including grade requirements) for the applicable skill level prior to award of the skill level.

SECTION D - RESOURCE CONSTRAINTS

15. Security Forces Apprentice Course. Currently, there are no resource constraints in the apprentice course.

15.1. Distance Learning. In order to run the DL program, the following equipment is the minimal requirement.

15.1.1. Microprocessor-Pentium 200

15.1.2. Memory-64 MB RAM

15.1.3. CD ROM-24X speed

15.1.4. Monitor-17 inch

15.1.5. Graphics card-SVGA, 24 bit True Color

15.1.6. Hard disk size-1GB or better

15.1.7. Sound card-16 bit Windows compatible

15.1.8. Operating System-Windows 95

15.1.9. Video Card-32 bit with 2MB Video RAM

15.1.10. Mouse

15.1.11. Speakers or headphones (Headphones are preferred if in computer lab type setting.)

15.2. Optimal Computer Package to Run the Distance Learning Package.

15.2.1. Operating System-Windows 98 2nd Edition, FAT 32, DC, English, OptiPlex

15.2.2. Microprocessor-Dell 500 Pentium III GX110/T Base, 100 MHz FSB, 4 MB Int Vid, Int 10-100 NIC w/RWU, 512K Halfspeed Cache (220-3558)

15.2.3. CD ROM or DVD Drive-17/41X IDE CD-ROM, GX100/110 Mid-Desktop and Mini-Tower

15.2.4. Memory-128 MB, NONECC, 100 MHz, SDRAM, IDIMM, GX 100/110

15.2.5. Monitor- Dell P780 FD Trinitron, 16inch, Viewable Image Size, OptiPlex GX100/110

15.2.6. Hard disk-10 GB, EIDE, 7200 RPM, Hard Drive, GX100 M/T Chassis

15.2.7. Floppy Drive-3.5, 1.44MB Floppy Drive, GX 100/110 Mini-Tower

15.2.8. Soundcard-Creative Labs Sound Blaster Audio PCI Sound Card, Use with Optical Devices, GX100/110

15.2.9. Speakers and headphones (Headphones are preferred if using computer in a lab type setting.)-Harden/Karden HK 195 speakers, GX100/110

15.2.10. Mouse-Microsoft Intellimouse (PS/2) for Windows 9Xor NT, GX100/110

PART II

Section A - Specialty Training Standard

1. Implementation. This STS will be used for technical training provided by AETC.

2. Purpose. As prescribed in AFI 36-2201, this STS (and the STSs at attachment 1 and 2):

2.1. Lists the most common tasks, knowledge, and technical references (TR) necessary for airmen to perform duties in the 3-, 5-, and 7-skill level in column 1 (Task, Knowledge, and Technical Reference).

2.1.1. Specialty-wide Core and Wartime Tasks. These are identified in columns 2A (Core Tasks) by skill level and 2B (Wartime Tasks) by an asterisk (*).

2.1.1.1. The tasks identified in column 2A of the core STS indicate core tasks for the SF specialty. As a minimum, trainees must complete all core tasks for skill level upgrade as indicated by the skill level annotated in column 2A. If units encounter situations where training constraints exist (e.g., lack of equipment, training areas, etc.), specific waiver action must be submitted through their MAJCOM functional manager, to the AFCFM (AF/XOFM) and if approved, documented in unit and individual training records. MAJCOMs determine the method to record training constraint waivers for their subordinate units. For ANG/AFRC components waiver authority is HQ Air National Guard and HQ Air Force Reserve SFMs.

2.1.1.2. In response to a wartime scenario, tasks identified in column 2B indicate wartime tasks which will be taught to the task or knowledge level indicated in the 3-skill level course column in a streamlined technical training environment.

2.2. Provides certification for OJT. Column 3 is used to record completion of tasks and knowledge training requirements. Use automated training management systems to document technician qualifications, if available. Task certification must show a certification/completion date.

2.3. Shows formal training and correspondence course requirements. Column 4 shows the proficiency to be demonstrated on the job by the graduate as a result of training on the task/knowledge and career knowledge provided by the resident and correspondence courses. See CADRE/AFSC/CDC listing maintained by the unit training manager for current CDC listings.

2.4. Shows qualitative requirements relative to SF AFSCs. A proficiency code key is used in the SF STS and in attachments 1 and 2, to indicate the level of training and knowledge provided by resident training and career development courses.

2.5. Becomes a job qualification standard (JQS) for on-the-job training when placed in AF Form 623, **On-The-Job Training Record**, and used according to AFI 36-2201, *Developing, Managing, and Conducting Training*. NOTE: Use the core STS for all SF personnel. In addition, use the Military Working Dog Handler and Combat Arms STS for personnel awarded the appropriate shred, or other SF personnel who are performing duties (in a limited capacity) in those areas. When used as a JQS, the following requirements apply:

2.5.1. Documentation. Document and certify completion of training. Identify duty position requirements by circling the subparagraph number next to the task statement. As a minimum, complete the following columns in Part 3 of the STS: Training Start, Training Complete, Trainee Initials, Trainer Initials, and Certifier Initials (if applicable).

2.5.1.1. Converting from Old Document to CFETP. Use the new CFETP to identify and certify all past and current qualifications. For those core and critical tasks previously certified and required in the current duty position, evaluate current qualifications and, when verified, recertify using current date as completion date and enter trainee's and certifier's initials (no training is taking place). For non-core and non-critical tasks previously certified and required in the current duty position, evaluate current qualifications and when verified, recertify using current date as completion date and enter trainee's and trainer's initials. When transcribing previous certification for tasks not required in the current duty position, carry forward *only* the previous completion date of certification. If and when transcribed tasks become duty position requirements, recertify using standard certification procedures. The person whose initials appear

in the trainer or certifier block during the transcription process must meet the requirements of their respective roles. Upon completion of the transcription process, give the old CFETP to the member.

2.5.1.2. Documenting Career Knowledge. For two-time CDC course exam failures: the unit commander, with help from the unit education and training manager or base education and training manager, interviews the supervisor and trainee to determine the reason for the failure. The commander has the following options: to keep the airman in training, provide, evaluate, and certify career knowledge and upon successful completion, request a waiver of the CDC requirement; withdraw the airman for failing to progress and evaluate for future reentry into UGT and waiving of the CDC requirement; withdraw the airman for failing to progress, request AFSC withdrawal, and recommend retraining or return to a previously awarded AFSC; or withdraw the airman for failing to progress and pursue separation. If the commander elects to keep the airman in training, the supervisor identifies STS training references that trainees require for career knowledge training and ensures, as a minimum, that trainers cover the mandatory items in AFMAN 36-2108. The trainee completes a study of STS references, undergoes evaluation by the task certifier and receives certification of the STS. Upon successful completion, request a waiver of the CDC requirement. Summarize counseling on AF Form 623a, as appropriate.

2.5.1.3. Decertification and Recertification. When an airman is found to be unqualified on a previously certified duty position task, the supervisor lines through the previous certification or deletes previous certification when using automated system. Appropriate remarks are entered on the AF Form 623A, **On-The-Job Training Record Continuation Sheet or computer generated product**, as to the reason for decertification. The individual is recertified (if required) either by erasing old entries or by using correction fluid (if the entries were made in ink) over the previously certified entry, and writing in the new certification date and trainer initials.

2.5.2. Training Standard. Tasks are trained to the “go/no go” level. “Go” means the individual can perform the task without assistance and meet local demands for accuracy, timeliness, and correct use of procedures.

2.6. Promotion Testing. Using column 2A (Core Tasks), the core STS is a guide for development of promotion tests used in the Weighted Airman Promotion System (WAPS). Use the core SF STS only. Do not use the Military Working Dog Handler or Combat Arms STS. Specialty Knowledge Tests (SKTs) are developed at the USAF Occupational Measurement Squadron by senior NCOs with extensive practical experience in their career fields. The tests sample knowledge of STS subject matter areas judged by test development team members as most appropriate for promotion to higher grades. All SF personnel will be tested on core SF skills only, regardless of duty position. Core SF personnel who retrain into one of the shreds ARE NOT exempt from taking the SKT. Develop only one test for each grade. Questions are based upon study references listed in the WAPS catalog. Individual responsibilities are in chapter 14 of AFI 36-2606, *US Air Force Reenlistment, Retention, and NCO Status Programs* (formerly AFR 35-16, volume 1). WAPS is not applicable to the Air National Guard and Air Force Reserve.

3. Recommendations. Report unsatisfactory performance of individual course graduates to 37 TRG/DOS, Lackland AFB, TX, using AF Form 1284, **Training Quality Report (TQR)**. Please reference specific STS paragraphs. Additionally, a customer service information line has been installed for the supervisors’ convenience. For a quick response to problems, call the Customer Service Information Line, DSN 473-2917, anytime day or night.

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	Definition: The individual
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (Extremely limited)
	2	Can do most parts of the task. Needs only help with hardest parts. (Partially Proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (Competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (Highly Proficient)
*Task Knowledge Levels	a	Can name parts, tools, and simple facts about the task. (Nomenclature)
	b	Can determine step by step procedures for doing the task. (Procedures)
	c	Can identify why and when the task must be done and why each step is needed. (Operating Principles)
	d	Can predict, isolate, and resolve problems about the task. (Advanced Theory)
**Subject Knowledge Levels	A	Can identify basic facts and terms about the subject. (Facts)
	B	Can identify relationship or basic facts and state general principles about the subject. (Principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (Analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (Evaluation)

Explanations:

- * A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)
- ** A subject knowledge scale value is used alone to define a level of knowledge for subjects not directly related to any specific task or for a subject common to several tasks.
- This mark is used alone instead of a scale value to show no proficiency training is provided in the course or CDC.
- X This mark is used in course columns to show training required but not given due to limitations in resources.
- DL Tasks in Column 4 marked with a D/L (Distance Learning) indicate an exportable training package.

Notes:

NOTE 1. Those tasks identified in column 2A are core tasks for the skill level(s) indicated, as outlined in Part II, Section A, paragraph 2.1.1.1. In a wartime scenario, the tasks identified with an asterisk in column 2B will be taught to the task or knowledge level indicated in 3-skill level course column, in a streamlined technical training environment.

NOTE 2 : Line items 9a(8) and 9b(7) identified with the PCK 3b in column 4A(1) have training standards and qualification requirements prescribed in AFMAN 36-2227, Volumes 2 &3 and stated T.O.s.

NOTE 3: Line items 9c(8), 9d(8), and 9e(8) identified with the PCK 3b in column 4A(1) have training standards and qualification requirements prescribed in AFMAN 36-2227, Volumes 2&3 and stated T.O.s. However, students will not “wash-out” if they fail to qualify on these weapons qualification courses. Students weapons training documents will reflect “UQ” and the reason for not qualifying, with the information provided to their gaining unit for additional training, if necessary.

NOTE 4: Considered proficiency training until this course of fire is designated a qualification course in AFMAN 36-2227, Vol 2. Once designated a qualification course, may be used in lieu of the Specialized Rifle Course.

NOTE 5: CPR training must be provided by a certified CPR instructor. This training will be conducted using the TRs and sources available at the local level (i.e. Red Cross standards, American Heart Association standards, USAF Hospital or Fire Department training). This task will be taught to American Heart Association Standards (Course C).

NOTE 6: All personnel must practice weapon safety as outlined in AFI 31-207.

SECTION B - COURSE OBJECTIVE LIST

4. Measurement. Each objective is indicated as follows: **W** indicates task or subject knowledge which is measured using a written test, **PC** indicates required task performance which is measured with a progress check, and **PC/W** indicates separate measurement of both knowledge and performance elements using a written test and a performance progress check.

5. Course Objective. These objectives are for the 3 skill-level course.

5.1. Initial Skills Course.

5.1.1. Block I.

5.1.1.1. M16A2 Rifle.

5.1.1.1.1. Perform operator maintenance on the M16A2 Rifle IAW progress checklist #10.
STS: 9a(1) MEAS: PC

5.1.1.1.2. Identify basic facts and terms about the characteristics of the M16A2 Rifle.
STS: 9a(2) MEAS: W

5.1.1.1.3. Identify basic facts and terms about the nomenclature of the M16A2 Rifle.
STS: 9a(3) MEAS: W

5.1.1.1.4. Identify relationship or basic facts and state general principles about the operations and functions of the M16A2 Rifle.
STS: 9a(4) MEAS: W

5.1.1.1.5. Determine the step by step procedures for correcting malfunctions and clearing stoppages on the M16A2 Rifle.
STS: 9a(5) MEAS: W

5.1.1.1.6. Install associated equipment associated with the M16A2 Rifle IAW progress checklist #10a.
STS: 9a(6) MEAS: PC

5.1.1.1.7. Identify basic facts and terms about ammunition types and uses associated with the M16A2 Rifle.
STS: 9a(7) MEAS: W

5.1.1.1.8. Fire the M16A2 Rifle for qualification IAW progress checklist #10b.
STS: 9a(8) MEAS: PC

5.1.1.2. M9 Handgun.

5.1.1.2.1. Perform operator maintenance on the M9 Handgun IAW progress checklist #11.
STS: 9b(1) MEAS: PC

5.1.1.2.2. Identify basic facts and terms about the characteristics of the M9 Handgun.
STS: 9b(2) MEAS: W

5.1.1.2.3. Identify basic facts and terms about the nomenclature of the M9 Handgun.
STS: 9b(3) MEAS: W

5.1.1.2.4. Identify relationship or basic facts and state general principles about the operations and functions of the M9 Handgun.
STS: 9b(4) MEAS: W

- 5.1.1.2.5. Determine the step by step procedures for correcting malfunctions and clearing stoppages on the M9 Handgun.
STS: 9b(5) MEAS: W
- 5.1.1.2.6. Identify basic facts and terms about ammunition types and uses associated with the M9 Handgun.
STS: 9b(6) MEAS: W
- 5.1.1.2.7. Fire the M9 Handgun for qualification IAW progress checklist #11a.
STS: 9b(7) MEAS: PC
- 5.1.1.3. M249 Automatic Rifle (AR).
- 5.1.1.3.1. Perform operator maintenance on the M249 AR IAW progress checklist #25.
STS: 9c(1) MEAS: PC
- 5.1.1.3.2. Identify basic facts and terms about the characteristics of the M249 AR.
STS: 9c(2) MEAS: W
- 5.1.1.3.3. Identify basic facts and terms about the nomenclature of the M249 AR.
STS: 9c(3) MEAS: W
- 5.1.1.3.4. Identify basic facts and terms about the operations and functions of the M249 AR.
STS: 9c(4) MEAS: W
- 5.1.1.3.5. Identify basic facts and terms about correcting malfunctions and clearing stoppages on the M249 AR.
STS: 9c(5) MEAS: W
- 5.1.1.3.6. Identify basic facts and terms about the installation of associated equipment on the M249 AR.
STS: 9c(6) MEAS: W
- 5.1.1.3.7. Identify basic facts and terms about ammunition types and uses associated with the M249 AR.
STS: 9c(7) MEAS: W
- 5.1.1.3.8. Fire the M249 AR for qualification IAW progress checklist #25a.
STS: 9c(8) MEAS: PC
- 5.1.1.4. M60 Machine Gun.
- 5.1.1.4.1. Perform operator maintenance on the M60 Machine Gun IAW progress checklist #27.
STS: 9d(1) MEAS: PC
- 5.1.1.4.2. Identify basic facts and terms about the characteristics of the M60 Machine Gun.
STS: 9d(2) MEAS: W
- 5.1.1.4.3. Identify basic facts and terms about the nomenclature of the M60 Machine Gun.
STS: 9d(3) MEAS: W
- 5.1.1.4.4. Identify basic facts and terms about operations and functions of the M60 Machine Gun.
STS: 9d(4) MEAS: W
- 5.1.1.4.5. Identify basic facts and terms about correcting malfunctions and clearing stoppages on the M60.
STS: 9d(5) MEAS: W
- 5.1.1.4.6. Identify basic facts and terms about installing associated equipment for the M60 Machine Gun.
STS: 9d(6) MEAS: W

- 5.1.1.4.7. Identify basic facts and terms about ammunition types and uses associated with the M60 Machine Gun.
STS: 9d(7) MEAS: W
- 5.1.1.4.8. Fire the M60 Machine Gun for qualification IAW progress checklist #27a.
STS: 9d(8) MEAS: PC
- 5.1.1.5. M203 Grenade Launcher.
 - 5.1.1.5.1. Perform operator maintenance on the M203 Grenade Launcher IAW progress checklist #26.
STS: 9e(1) MEAS: PC
 - 5.1.1.5.2. Identify basic facts and terms about the characteristics of the M203 Grenade Launcher.
STS: 9e(2) MEAS: W
 - 5.1.1.5.3. Identify basic facts and terms about the nomenclature of the M203 Grenade Launcher.
STS: 9e(3) MEAS: W
 - 5.1.1.5.4. Identify basic facts and terms about the operations and functions of the M203 Grenade Launcher.
STS: 9e(4) MEAS: W
 - 5.1.1.5.5. Identify basic facts and terms about correcting malfunctions and clearing stoppages on the M203 Grenade Launcher.
STS: 9e(5) MEAS: W
 - 5.1.1.5.6. Identify basic facts and terms about the installation of associated equipment on the M203 Grenade Launcher.
STS: 9e(6) MEAS: W
 - 5.1.1.5.7. Identify basic facts and terms about ammunition types and uses associated with the M203 Grenade Launcher.
STS: 9e(7) MEAS: W
 - 5.1.1.5.8. Fire the M203 Grenade Launcher for qualification IAW progress checklist #26a.
STS: 9e(8) MEAS: PC
- 5.1.1.6. General SP Operations.
 - 5.1.1.6.1. Identify basic facts and terms associated with general security operations.
STS: 11a(1) MEAS: W
- 5.1.1.7. Hand Grenades.
 - 5.1.1.7.1. Throw the fragmentation hand grenade IAW progress checklist #32.
STS: 9g(5) MEAS: PC.

5.1.2. Block I Con't.

- 5.1.2.1. Career Field History.
 - 5.1.2.1.1. Identify basic facts and terms about the history of the Security Forces Career Field.
STS: 1 MEAS: W
- 5.1.2.2. Duties and Responsibilities.
 - 5.1.2.2.1. Identify basic facts and terms about the duties and responsibilities of the Security Forces career field.
STS: 7b MEAS: W
- 5.1.2.3. Assume Post.

- 5.1.2.3.1. Identify simple facts about assuming Security Forces posts.
STS: 7e MEAS: W
- 5.1.2.4. Security Forces Code of Conduct.
 - 5.1.2.4.1. Identify basic facts and terms about the Security Forces Code of Conduct.
STS: 7a MEAS: W
- 5.1.2.5. Fundamentals of Defense.
 - 5.1.2.5.1. Identify basic facts and terms about fundamentals of defense.
STS: 10d MEAS: W
- 5.1.2.6. Concepts and Principles/Threat Spectrum.
 - 5.1.2.6.1. Identify basic facts and terms about the threat spectrum.
STS: 5a MEAS: W
- 5.1.2.7. Concepts and Principles of Guardmount.
 - 5.1.2.7.1. Identify simple facts and terms associated with guardmount.
STS: 7c MEAS: W
- 5.1.2.8. Force Protection OPSEC Principles.
 - 5.1.2.8.1. Identify basic facts and terms about Force Protection OPSEC Principles.
STS: 4 MEAS: W
- 5.1.2.9. Construct Crew Served Weapons Positions.
 - 5.1.2.9.1. Determine the step-by-step procedures for constructing a crew served weapons position.
STS: 10n(6) MEAS: W
- 5.1.2.10. Personal Hygiene and Field Sanitation.
 - 5.1.2.10.1. Identify the relationship of basic facts and state general principles about personal hygiene and field sanitation.
STS: 10n(19) MEAS: W
- 5.1.2.11. Use Preventive Medicine Procedures.
 - 5.1.2.11.1. Determine step by step procedures for treating environmental injuries.
STS: 10n(4) MEAS: W
- 5.1.2.12. Practice Weapons Safety.
 - 5.1.2.12.1. Practice/enforce weapons safety IAW progress checklist #2.
STS: 2u(3) MEAS: PC
- 5.1.2.13. Communications.
 - 5.1.2.13.1. Use and react to visual signaling techniques IAW progress checklist #18.
STS: 10m(12) MEAS: PC

- 5.1.2.13.2. Given necessary support equipment, install, recover, inspect, and correct communication wire lines IAW progress checklist #18a.
STS: 10m(3) MEAS: PC
- 5.1.2.13.3. Given a field telephone set, install field telephone IAW progress checklist #18b.
STS: 10m(1) MEAS: PC
- 5.1.2.13.4. Given a field telephone set, operate field telephone IAW progress checklist #18c.
STS: 10m(2) MEAS: PC
- 5.1.2.13.5. Given an AN/PRC-139 radio and necessary support equipment, prepare radio IAW progress checklist #18d.
STS: 10m(5)(a) MEAS: PC
- 5.1.2.13.6. Given an AN/PRC-139 radio and necessary support equipment, operate radio IAW progress checklist #18e.
STS: 10m(6)(a) MEAS: PC
- 5.1.2.13.7. Perform operator preventive maintenance and services on tactical radios IAW progress checklist #18f.
STS: 10m(7) MEAS: PC
- 5.1.2.14. Use Cover and Concealment.
 - 5.1.2.14.1. Use cover and concealment IAW progress checklist #20.
STS: 10n(13) MEAS: PC
- 5.1.2.15. Camouflage Self/Individual Equipment.
 - 5.1.2.15.1. Camouflage all exposed skin areas, personal equipment and weapon IAW progress checklist #19.
STS: 10n(1)(a) MEAS: PC
- 5.1.2.16. Move Under Direct Fire.
 - 5.1.2.16.1. Move under direct fire IAW progress checklist #21.
STS: 10n(3) MEAS: PC
- 5.1.2.17. Move Over, Through, or Around Obstacles Except Mine Fields.
 - 5.1.2.17.1. Move over, through, or around obstacles except mine fields IAW progress checklist #22.
STS: 10n(2) MEAS: PC
- 5.1.2.18. Patrolling.
 - 5.1.2.18.1. As a fire team member, employ movement techniques IAW progress checklist #23.
STS: 10p(2) MEAS: PC
 - 5.1.2.18.2. As a squad member, participate in tactical movements IAW progress checklist #23a.
STS: 10p(4) MEAS: PC
 - 5.1.2.18.3. As a squad member, participate in passage of lines IAW progress checklist #23b.
STS: 10p(7) MEAS: PC
 - 5.1.2.18.4. Cross a danger area IAW progress checklist #23c.
STS: 10p(8) MEAS: PC
 - 5.1.2.18.5. React to a near/far ambush IAW progress checklist #23d.
STS: 10p(12)(b) MEAS: PC

- 5.1.2.18.6. As a squad member, consolidate and reorganize the patrol IAW progress checklist #23f.
STS: 10p(12)(a) MEAS: PC
- 5.1.2.18.7. As a squad member, break contact with the enemy IAW progress checklist #23e.
STS: 10p(14) MEAS: PC
- 5.1.2.18.8. Defend from an alternate and supplementary position IAW progress checklist #23j.
STS: 10n(17) MEAS: PC
- 5.1.2.18.9. Placed in a tactical situation, react to flares, IAW progress checklist #23g.
STS: 10p(11) MEAS: PC
- 5.1.2.18.10. React to indirect fire IAW progress checklist #23h.
STS: 10p(9) MEAS: PC
- 5.1.2.18.11. React to enemy contact IAW progress checklist #23i.
STS: 10p(10) MEAS: PC
- 5.1.2.19. Navigate.
- 5.1.2.19.1. Given a compass and a point on the ground, determine the correct magnetic azimuth to that point IAW progress checklist #24.
STS: 10o(5) MEAS: PC
- 5.1.2.19.2. Given a topographical map, locate and use the marginal information to identify symbols and colors on the map IAW written progress check.
STS: 10o(1) MEAS: WPC
- 5.1.2.19.3. Given a topographical map, and protractor, determine the 8 digit grid coordinate of a point on a military map using the military grid reference system, IAW written progress check.
STS: 10o(4) MEAS: WPC
- 5.1.2.19.4. Given a topographical map, identify 5 major and 3 minor terrain features IAW written progress check.
STS: 10o(2) MEAS: WPC
- 5.1.2.19.5. Given a topographical map and a designated point, determine the elevation of the point IAW written progress check.
STS: 10o(6) MEAS: WPC
- 5.1.2.19.6. Given a topographical map with two points plotted on it (marked "A" and "B"), a protractor, straight edge, and a pencil, determine the grid azimuth from point "A" to point "B" IAW written progress check.
STS: 10o(11) MEAS: WPC
- 5.1.2.19.7. Given an azimuth, compute the back azimuth to the exact degree IAW written progress check.
STS: 10o(12) MEAS: WPC
- 5.1.2.19.8. Given a topographical map, two designated points, a strip of paper or straight edge, and a pencil, determine the distance in meters between the two points IAW written progress check.
STS: 10o(7) MEAS: WPC
- 5.1.2.19.9. After determining your pace count, calculate the distance between two points while moving IAW progress checklist #24a.
STS: 10o(13) MEAS: PC
- 5.1.2.19.10. Given a topographical map, a pencil, and a magnetic/grid azimuth, convert the magnetic/grid azimuth to a

grid/magnetic azimuth IAW written progress check.

STS: 10o(10) MEAS: WPC

5.1.2.19.11. Placed on a natural terrain course and given a topographical map, orient the map using terrain association IAW progress checklist #24b.

STS: 10o(15) MEAS: PC

5.1.2.19.12. Given a topographical map and a lensatic compass, orient the map using the compass IAW progress checklist #24c.

STS: 10o(18) MEAS: PC

5.1.2.19.13. Placed on a natural terrain course and given a map, determine your location using terrain association IAW progress checklist #24d.

STS: 10o(14) MEAS: PC

5.1.2.19.14. Given a topographical map with two known points, an azimuth from each of the known points to an unknown point, a protractor, and a pencil, use the intersection technique to determine the 8 digit grid coordinate for the unknown point IAW written progress check.

STS: 10o(16) MEAS: WPC

5.1.2.19.15. Given a topographical map, 2 identifiable terrain features, an azimuth to the identifiable features, a protractor, and a pencil, use the resection technique to determine the 8-digit grid coordinate for an unknown point IAW written progress check.

STS: 10o(17) MEAS: WPC

5.1.2.19.16. Placed on a natural terrain course, given a starting point, an ending point, a map, a protractor, a pencil, and a compass, navigate from the starting point to the ending point IAW progress checklist #24e.

STS: 10o(20) MEAS: PC

5.1.2.20. Global Positioning System (Gps) Precision Lightweight Ground Receiver (PLGR).

5.1.2.20.1. Given a PLGR and a 1:50,000-scale topographical map, setup the PLGR IAW progress checklist #28.

STS: 10o(21)(a)1 MEAS: PC

5.1.2.20.2. Given a PLGR, initialize the PLGR, IAW progress checklist #28a.

STS: 10o(21)(a)2 MEAS: PC

5.1.2.20.3. Given a PLGR, determine the status of the PLGR, IAW progress checklist #28b.

STS: 10o(21)(a)3 MEAS: PC

5.1.2.20.4. Given a PLGR and a point on the ground, determine the 10-digit grid coordinate of the point on the ground, IAW progress checklist #28c.

STS: 10o(21)(b) MEAS: PC

5.1.2.21. Tactically Deploy From Vehicles.

5.1.2.21.1. As a member of a team in an M-1026 and M35 series vehicle; tactically deploy from the vehicle IAW progress checklist #34.

STS: 10n(16) MEAS: PC

5.1.2.22. Military Operations In Built-Up Area.

5.1.2.22.1. Placed in a built-up area, perform movement techniques IAW progress checklist #33.

STS: 10n(10) MEAS: PC

- 5.1.2.22.2. Placed in a built-up area, select a hasty firing position IAW progress checklist #33c.
STS: 10k(12)(a) MEAS: PC
- 5.1.2.22.3. As a member of a team, enter a building IAW progress checklist #33a .
STS: 10n(11) MEAS: PC
- 5.1.2.22.4. As a member of a team, clear a building IAW progress checklist #33b.
STS: 10n(12) MEAS: PC
- 5.1.2.22.5. As a member of a team in a built-up area, conduct a hasty defense in urban terrain IAW progress checklist #33d.

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	Definition: The individual
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (Extremely limited)
	2	Can do most parts of the task. Needs only help with hardest parts. (Partially Proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (Competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (Highly Proficient)
*Task Knowledge Levels	a	Can name parts, tools, and simple facts about the task. (Nomenclature)
	b	Can determine step by step procedures for doing the task. (Procedures)
	c	Can identify why and when the task must be done and why each step is needed. (Operating Principles)
	d	Can predict, isolate, and resolve problems about the task. (Advanced Theory)
**Subject Knowledge Levels	A	Can identify basic facts and terms about the subject. (Facts)
	B	Can identify relationship or basic facts and state general principles about the subject. (Principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (Analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (Evaluation)
Explanations:		
<p>NOTE: Those tasks identified in column 2A are core tasks for the skill level(s) indicated. In a wartime scenario, the tasks identified with an asterisk in column 2B will be taught to the task or knowledge level indicated in 3-skill level course column, in a streamlined technical training environment.</p> <p>* A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)</p> <p>** A subject knowledge scale value is used alone to define a level of knowledge for subjects not directly related to any specific task or for a subject common to several tasks.</p> <p>- This mark is used alone instead of a scale value to show no proficiency training is provided in the course or CDC.</p> <p>X This mark is used alone in course columns to show training required but not given due to limitations in resources.</p>

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	Definition: The individual
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (Extremely limited)
	2	Can do most parts of the task. Needs only help with hardest parts. (Partially Proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (Competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (Highly Proficient)
*Task Knowledge Levels	a	Can name parts, tools, and simple facts about the task. (Nomenclature)
	b	Can determine step by step procedures for doing the task. (Procedures)
	c	Can identify why and when the task must be done and why each step is needed. (Operating Principles)
	d	Can predict, isolate, and resolve problems about the task. (Advanced Theory)
**Subject Knowledge Levels	A	Can identify basic facts and terms about the subject. (Facts)
	B	Can identify relationship or basic facts and state general principles about the subject. (Principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (Analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (Evaluation)

Explanations:

- * A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)
- ** A subject knowledge scale value is used alone to define a level of knowledge for subjects not directly related to any specific task or for a subject common to several tasks.
- This mark is used alone instead of a scale value to show no proficiency training is provided in the course or CDC.
- X This mark is used alone in course columns to show training required but not given due to limitations in resources.

Notes:

NOTE 1. Those tasks identified in column 2A are core tasks for the skill level(s) indicated. In a wartime scenario, the tasks identified with an asterisk in column 2B will be taught to the task or knowledge level indicated in 3-skill level course column, in a streamlined technical training environment.

NOTE 2. Underlined TRs are other services' publications essential for OJT and mission accomplishment.

NOTE 3. (**3 Skill Level**) Detailed disassembly of weapons, as accomplished within the course, has some exceptions. The following denotes what is allowed by weapon:

- a. M16 Rifle. WILL NOT remove/install bolt carrier key, lower receiver extension, forward assist assembly (as applicable), front and rear sight, flash suppressor, front sight frame, and sling swivels.
- b. M9 Pistol. WILL disassemble to the T.O. "field strip" level and additionally remove/install the trigger bar, locking block plugger, locking block, disassembly lever and button, and slide stop.
- c. M203 Grenade Launcher. WILL NOT disassemble quadrant sight assembly, leaf sight assembly, or the receiver beyond removing backplate and follower.
- d. M60 Machine Gun. WILL NOT remove/install flash suppressor, bipod, carrying handle, or barrel latch (lock).
- e. M249 Automatic Rifle. WILL NOT remove/install extractor, firing pin, compensator, buffer, trigger mechanism, cover latch spring, or cover retainer.

1. COMBAT ARMS OPERATION AND FACILITY MAINTENANCE									
a. Conduct combat arms operations									
(1) Conduct live fire training									
(a) Perform firing line instructor duties TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3; AFSFC Firing Line Official Lesson Plan		*						2b	b
(b) Perform tower operator duties TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3; AFSFC Firing Line Official Lesson Plan		*						2b	b
(2) Initiate forms, records, and reports TR: AFI 31-209; AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3								-	b
(3) Maintain combat arms reference library TR: AFI 36-2226; AFMAN 36-2227, Vol 1; T.O. 00-5-1; T.O. 00-5-2								-	b
(4) Order and maintain supplies, equipment, and weapons parts TR: AFI 36-2226; AFMAN 36-2227, Vol 1; AFMAN 23-110; TA 538								-	b
(5) Prepare munitions forecast TR: AFI 36-2226; AFMAN 36-2227, Vol 1; AFCAT 21-209								-	b
(6) Identify range safety procedures TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3; MIL-HDBK 1027-3B		*						B	B
(7) Identify common ground combat ammunition TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3; AFCAT 21-209; FMs 23-9, 23-27, 23-31, 23-33, 23-35, 23-75, 23-67, 23-91	5	*						B	-
b. Maintain combat arms facilities									
(1) Maintain baffles, berms, and backstops TR: AFI 36-2226, MIL-HDBK 1027-3B								-	b
(2) Maintain firing line/target line TR: AFI 36-2226, MIL-HDBK 1027-3B								-	b
(3) Conduct range inspections, certifications, test fire, and trial operations TR: AFI 36-2226, MIL-HDBK 1027-3B								-	b
(4) Advise on range construction TR: AFI 36-2226, MIL-HDBK 1027-3B								-	b
(5) Identify range types TR: AFI 36-2226, MIL-HDBK 1027-3B								B	B
(6) Identify range characteristics TR: AFI 36-2226, MIL-HDBK 1027-3B								B	B
c. Determine planning and programming requirements for CA facilities									
(1) Analyze requirements TR: AFI 36-2226, MIL-HDBK 1027-3B								-	-
(2) Determine range design criteria TR: AFI 36-2226, MIL-HDBK 1027-3B								-	-
(3) Determine range acceptance procedures TR: AFI 36-2226, MIL-HDBK 1027-3B								-	-
d. Analyze combat arms workload data (historical and projected) to determine trends and plan for mission requirements									

1. Tasks, Knowledge, and Technical References.	2. Core & Wartime Tasks.		3. Certification for OJT.					4. Proficiency Codes Used to Indicate Training/Information Provided (See Notes).

(1) Requirements									
(a) Weapons training TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3								-	-
(b) Weapons maintenance (to include inspections) TR: AFI 36-2226; AFMAN 36-2227, Vol 1								-	-
(c) Administrative (to include internal training and reports) TR: AFI 36-2226; AFMAN 36-2227, Vol 1; AFMAN 37-139								-	-
(d) Facility maintenance TR: AFI 36-2226; AFMAN 36-2227, Vol 1								-	-
(e) Additional duties TR: AFI 36-2226; AFMAN 36-2227, Vol 1								-	-
(2) Prepare statistical reports TR: AFI 36-2226; AFMAN 36-2227, Vol 1								-	-
e. Perform range and classroom scheduling									
(1) Determine specific training requirements TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3								-	-
(2) Determine training constraints TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3								-	-
(3) Perform scheduling TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3								-	-
f. Plan and organize instruction programs									
(1) Combat arms training TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3; AFSFC Lesson Plans								-	-
(2) Weapons maintenance TR: AFI 36-2226; AFMAN 36-2227, Vol 1								-	-
(3) Instructor refresher training TR: AFI 36-2226; AFMAN 36-2227, Vols 1, 2, & 3								-	-
g. Manage work center files and documentation TR: AFI 36-2226; AFMAN 36-2227, Vol 1; AFMAN 37-139; T.O.s 00-5-1, 00-5-2, 11W-1-10								-	-
h. Manage ground weapons maintenance program									
(1) Deficiency reporting TR: AFI 36-2226; AFMAN 36-2227, Vol 1; T.O. 00-35D-54								-	-
(2) Tools and gauges									
(a) Identification of need and acquisition to include locally fabricated TR: AFI 36-2226; AFMAN 36-2227, Vol 1; T.O.s 11W3-5-5-1, 11W3-5-5-1-1, 11W3-5-5-24, 11W3-5-5-42, 11W3-3-5-4, 11W3-3-4-12, 11W3-9-4-2, 11W3-6-1-154, 11W3-6-1-171, 11W3-6-2-1, 11W2-6-4-12, 11W2-6-4-14, 11W3-5-5-52, 11W2-8-1-322, 11W2-8-32-4								-	-
(b) Calibration requirements TR: AFI 36-2226, AFMAN 36-2227, Vol 1; T.O. 33K-1-100								-	-

1. Tasks, Knowledge, and Technical References.	2. Core & Wartime Tasks.		3. Certification for OJT.					4. Proficiency Codes Used to Indicate Training/Information Provided (See Notes).
