

CAREER FIELD EDUCATION TRAINING PLAN
 BIOMEDICAL EQUIPMENT TECHNICIAN
 AFSC 4A2X1

This change is effective 6 May 2002 and applies to the electronically published CFETP 4A2X1. After necessary action, file this sheet in the back of the CFETP 4A2X1.

Write-in changes by paragraph:

Part II

Para.	Line or Column	Action
2.5	2-5	Change "For those tasks previously certified...recertify with current date and certifier's initials." to "For those core and critical tasks previously certified and required in the current duty position, evaluate current qualifications and when verified, recertify using current date as completion date, and enter trainee's and certifier's initials. Remember, during the transcription process no training is taking place. Therefore, the trainer's initials are not required. For non-core and non-critical tasks previously certified and required in the current duty position, evaluate current qualifications and when verified, recertify using current date as completion date and enter trainee's and trainer's initials. When transcribing previous certification for tasks not required in the current duty position, carry forward only the previous completion date of certification (not the initials of another person). If and when transcribed tasks become duty position requirements, recertify using standard certification procedures. The person whose initials appear in the trainer or certifier block during the transcription process must meet the requirements of their respective roles. Upon completion of the transcription process, give the old CFETP to the member.
