SUMMARY OF REVISIONS

This supplement renumbered and updated all paragraph to correspond to the basic manual.

17.25.1. At the option of the COS, the AWP monitor may perform limited stock control functions such as lateral support and preparing follow-ups. Any specific limitations are defined by the COS.

17.25.2.3. The COS has the option to store repair cycle end items until all bits and pieces are received. Storage of AWP end items in maintenance must be mutually agreed upon by the maintenance squadron commander and the COS.
