This instruction implements AFD 36-28, *Awards and Decorations Programs*, to establish and instruct the Safety Awards Program as a major element of the Air Mobility Command (AMC) Mishap Prevention Program. The AMC Director of Safety administers the program. This publication requires collection and maintenance of information protected by the Privacy Act of 1974. Authority to collect and maintain the records prescribed here is 44 U.S.C. 2904, 3102, 3301, and implemented by Web RIMS (Record Information Management System), <https://webrims.amc.af.mil>. This instruction applies to all active duty AMC activities and AMC-gained Air National Guard (ANG) and Air Force Reserve Command (AFRC) units. HQ AMC/SE will approve supplements to this instruction.

SUMMARY OF REVISIONS

This revision generally updates the text; award criteria and nomination formats for AMC-level safety awards. It adds the AMC Safety Medical Achievement Award paragraph **15**. (remaining paragraphs were renumbered) and Spotlight Awards paragraph **34**. It deletes the AMC Explosive Safety Individual of the Year Award; the AMC Nuclear Surety Individual of the Year Award; and the Mobility Forum Photo Contest. It changes the name of the Best En Route Support Unit Award to the Best En Route Support Unit Safety Award. It removes reference to Numbered Air Force (NAF). It updates references to AF Safety Awards Program, AFI 36-2833. A bar (|) indicates a revision from the previous edition.

Section A—General Information.

1. Purpose. AMC Safety Awards recognize outstanding safety acts or achievements performed by individuals and units. Commanders at all levels should emphasize and encourage participation in these awards, review achievements, and submit only those truly deserving recognition. Awards are considered on a fiscal year basis, except for the following, which may be submitted and/or awarded throughout the year: Distinguished Individual Safety Award; the Excellence in Airmanship Award; the Individual Mishap-Free Flying-Hour Milestone Award; the Unit Mishap-Free Year/Hour Milestone Award; the *Mobility Forum* Writing Contest, and the AMC Director's Safety Award.

2. Eligibility. Eligibility extends to all active duty units and individuals. AMC-gained ANG and AFRC units and individuals are eligible only for the AMC Excellence in Airmanship Award; the Individual Mishap-Free Flying-Hour Milestone Award; the Unit Mishap-Free Year/Hour Milestone Award; the AMC Distinguished Individual Safety Award; and the *Mobility Forum* Writing Contest. ANG and AFRC units and individuals participate in the annual AF Safety Awards Program through their respective channels.

3. Unit Awards. The AMC Safety Awards Program provides a wide variety of avenues to stimulate performance and recognize unit achievements.

4. Individual Awards. The AMC Safety Awards program provides a wide variety of avenues for recognition at all levels of achievement. Awards progression should be as follows:

- 4.1. Oral compliment from supervisor or commander
- 4.2. Letter of appreciation from supervisor or commander
- 4.3. Letter of commendation
- 4.4. Awards in this Instruction

5. Nomination Suspense's. For annual awards, Wings/Groups will submit the unit packages to arrive at HQ AMC/SEE not later than 10 November after the fiscal year award period, unless otherwise specified.

6. Nominating Procedures. Unless otherwise indicated, active duty, ANG and AFRC unit commanders originate nominations and send through command channel safety offices to HQ AMC/SEE, 510 POW-MIA Drive, Room E112, Scott AFB IL 62225-5020 or e-mail to <mailto:mobilityforum@scott.af.mil>. Nomination submittals are limited to one single-spaced page (front side only) and will be submitted on AF IMT 1206, **Nomination for Award**, using BULLET format, and saved as an Internet Forms Document (.XFD). Nominations must be accompanied by a cover letter indicating order of preference for each award and submitted electronically, either on disks or via e-mail. In some cases, only one nomination for both AMC and Air Force awards is required. In those cases, submit only for the Air Force award according to AFI 36-2833. The AMC Safety Awards Board will automatically review for AMC equivalent.

7. AMC Safety Awards Board. The awards board convenes annually to review nominations. Final approval is either AMC Commander or AMC Director of Safety (SE), depending on the level of award. The board is chaired by the AMC Director of Safety or designated representative, and consists of voting members from headquarters staff and wing Flight, Ground, Weapons, and ORM safety offices. Representatives from HQ AMC/SEE, Executive Services Division, act as advisors to the board.

8. Mishap-Free Status. For the purpose of flight safety awards, "mishap" is defined as any DOD Class A or B Aircraft Flight or Aircraft Flight related mishap IAW AFI 91-204, *Safety Investigations and Reports*. For the purpose of ground and weapons safety awards, "mishap" is defined as any DOD Class A and B mishap, IAW AFI 91-204. Individuals are "mishap-free" when not directly involved with causing or contributing to any mishap above. Individuals who caused or contributed to incidents, which, only because of reporting criteria, were not categorized as mishaps, should not be submitted. Units are "mishap-free" when not found accountable in a Class A or B mishap.

9. Mishap Accountability for Awards Purpose. Commanders should not wait for final determination of cause factors to nominate their units. The AMC Safety Awards Board or the Director of Safety will ensure accountability has been properly determined before approving awards. For safety awards, commanders may also submit rationale supporting unit “no-fault” mishap (due to circumstances clearly beyond control of the unit). When a unit is held accountable in a mishap, all intermediate units in the chain of command are also held accountable. Active wings will be considered separately from associate wings.

10. Presentation of Awards/Displaying of Awards. Senior personnel should present awards in a timely manner, with maximum participation and publicity. Presentations should be coordinated with local Public Affairs office whenever possible. Unit awards should be displayed in a central location so all may share in the achievement.

11. Disposition of Awards. On deactivation, units will send elements to the next level of command for storage or display. These awards are returned to the unit upon reactivation.

12. Additional Safety Awards Program. Subordinate units are encouraged to establish additional awards programs to enhance AF and AMC programs. These awards will comply with the spirit and intent of the AMC program. Units should emphasize the prestige of receiving an award.
