OPR: HQ AFSPA/SPO
(SMSgt Steven J. Peterson)
Supersedes AFI 31-204, 1 August 1997.

Certified by: AF/SF (Brig Gen R. A. Coleman)

Pages: 56
Distribution: F

This instruction implements Air Force Policy Directive (AFPD) 31-2, *Law Enforcement*. It assigns responsibilities and establishes procedures for motor vehicle traffic supervision on Air Force installations in the continental United States (CONUS) and overseas (OCONUS) areas. This includes, but is not limited to, granting, suspending, or revoking the privilege to operate a privately owned vehicle (POV); registration of POVs; administration of vehicle registration and driver performance records; driver improvement programs; police traffic supervision; and off-installation traffic activities.

(MACDILL) AFI 31-204, 14 July 2000, is supplemented as follows. This directive applies to all individuals residing, working, or visiting MacDill Air Force Base (AFB).

SUMMARY OF REVISIONS

This revision incorporates Interim Change (IC) 2000-1. It makes changes to paragraph **4.9.3**. A bar (|) indicates revision from previous edition. See the last attachment of the publication for the complete IC.

(MACDILL) This revision implements AFI 31-204, *Air Force Motor Vehicle Traffic Supervision*, dated 14 July 2000, changes all references to 6th Air Refueling Wing (6 ARW) to 6th Air Mobility Wing (6 AMW). Changes DD Form 1569 to AF Form 3545, **Incident Report**. Adds **Table 5.1**. Assessment 4(9) punitive actions for speeding in housing areas and school zones. Deletes paragraph **3.3**.

Chapter 1

INTRODUCTION

1.1. Program Management. This instruction implements policy, assigns responsibility, and establishes procedures for motor vehicle traffic supervision on Air Force installations located in the continental United States (CONUS) and overseas (OCONUS) areas.

1.1.1. This includes, but is not limited to:

1.1.1.1. Granting, suspending, or revoking the privilege to operate a POV.

1.1.1.2. Registration of POVs.

1.1.1.3. Administration of vehicle registration and driver performance records.

1.1.1.4. Driver improvement programs.

1.1.1.5. Police traffic supervision.

1.1.1.6. Off-installation traffic activities.

1.1.2. Commanders can modify these policies and procedures in the following instances:

1.1.2.1. When dictated by host nation relationships, treaties, and agreements.

1.1.2.2. When traffic operations under military supervision necessitate special measures to meet mission unique requirements or to protect public safety.

1.1.3. Safe and efficient movement of personnel and vehicles is the objective of every traffic control program. Program goals should focus on ways to reduce traffic-related deaths, injuries, and property damage.

1.2. Responsibilities.

1.2.1. Air Force Chief of Security Police (HQ USAF/SP). Establishes policy to assist installation commanders in the administration of local traffic supervision and enforcement programs.

1.2.2. Air Force Security Police Agency (HQ AFSPA). Provides guidance to MAJCOMs and field units on implementing traffic safety and supervision programs.

1.2.3. Major Command Chief of Security Police (MAJCOM/SP). Each MAJCOM/SP manages command unique traffic supervision and enforcement programs. They provide key staff support to installation commanders and their assigned security police units.

1.2.4. Installation Commander. Establishes and manages the local installation traffic supervision program. They have broad authority to regulate the movement of traffic and personnel on their installations. Each must develop local procedures to ensure safe pedestrian and vehicle traffic. To meet goals and objectives, installation commanders integrate safety, engineering, legal, and law enforcement resources into their traffic review and planning processes.

1.2.5. Chief of Security Police. The CSP is the installation commander's principal advisor on issues pertaining to the safe movement of personnel and traffic. The CSP exercises staff responsibility for directing, regulating, and controlling traffic, and enforcing installation rules pertaining to traffic con-

trol. CSPs assist traffic engineers by performing traffic control studies to gather information on traffic problems and usage patterns.

1.2.6. Installation Safety Officer. The safety officer develops traffic accident prevention initiatives in support of the installation traffic safety program. They also help the CSP and other agencies with accident and incident investigation.

1.2.7. Installation Civil Engineer (CE). The CE plans, designs, constructs, and maintains streets, highways, and abutting lands. CEs select, determine appropriate design, procure, construct, install, and maintain permanent traffic and parking control devices in coordination with the CSP and installation safety officer. They ensure traffic signs, signals, and pavement markings conform to the standards in the current *Manual on Uniform Traffic Control Devices for Streets and Highways*. They also ensure planning, design, construction, and maintenance of streets and highways conform to National Highway Safety Program Standards, and where applicable, host nation requirements.

1.2.8. Installation Traffic Engineer. Traffic engineers conduct formal traffic engineering studies. They apply traffic engineering measures and control devices to reduce the number and severity of traffic accidents. If there is no installation traffic engineer, the installation commander may request support services by contacting the Commander, Military Traffic Management Command, 5611 Columbia Pike, Falls Church VA 22041-5050.

1.2.9. Mental Health Office. The mental health substance abuse control program provides alcohol/drug education, treatment, and rehabilitation to personnel identified with alcohol and/or drug abuse problems.

1.3. Delegation Of Authority. Installation commanders can delegate their authority under this instruction to their vice commander, support group commander, or other appropriate official. Those selected for delegation must not occupy a law enforcement, investigative, or other position which might lead to a conflict of interest or the appearance of such conflict during their administration of the motor vehicle traffic supervision program. Installation commanders must coordinate their letters of delegation through their installation staff judge advocate

1.3.1. (Added-MACDILL) The 6th Support Group Deputy Commander (6 SPTG/CD) is designated the Traffic Violations Review Authority (TVRA) and will act under AFI 31-204, paragraph 1.2.4. The 6th Security Forces Squadron Commander (6 SFS/CC), 6 SFS Operations (6 SFS/SFO), 6 SFS Reports and Analysis (6 SFS/SFAR), and the Judge Advocate (6 AMW/JA) will act as advisors to the TVRA. The TVRA will consult with his or her advisors as needed to review traffic violation appeals.

1.3.2. (Added-MACDILL) The 6 SPTG/CD is designated the chairperson for the traffic coordination group and authority for traffic supervision programs. The 6 SFS/SFO, 6th Civil Engineer Squadron, Engineering Flight (6 CES/CEC), 6 AMW/JA, and Ground Safety (6 AMW/SEG) will act as advisors for the traffic supervision programs. The SPTG/CD will meet at least annually with his or her advisors to review the traffic supervision programs.

Chapter 2

DRIVING PRIVILEGES

2.1. Requirements for Driving Privileges.

2.1.1. Driving a government owned vehicle (GOV) or POV on an Air Force installation is a privilege granted by the installation commander. If you accept that privilege, you must comply with the laws and instructions governing motor vehicle operation and registration on the installation. Consequently, everyone operating a motor vehicle on a military installation must produce, upon request from the security police, the following:

2.1.1.1. Proof of vehicle ownership or registration if required by the issuing authority.

2.1.1.2. A valid state, overseas command, host nation, or international driver's license and/or AF Form 2293, **US Air Force Motor Vehicle Operator's Identification Card**, supported by a DD Form 2, **US Armed Forces Identification Card**. Locally determine acceptable identification media for civilian personnel and base contractors. Note: Each installation commander must determine if international drivers licenses are recognized and accepted by the local (civilian) jurisdiction, and if so, will their use be authorized on the installation. As a general rule, most CONUS civilian jurisdictions will honor use of international drivers licenses for short periods of time by non-resident visitors and assigned military personnel. When practical, installation commanders should assimilate local policy to preclude conflicting policy.

2.1.1.3. If required by the jurisdiction in which the vehicle is operated, a valid record of motor vehicle safety inspection, emission control test, or any other test, evaluation, safety inspection, or other documents required by local, state, or host nation law or agreement. Note: In some instances, a state or other governing jurisdiction in which a vehicle is registered may require, as a condition for keeping registration/plates issued by that state or jurisdiction, a safety or other inspection even when the vehicle is operated in another state or jurisdiction. Though not enforceable (in another state), failure to comply may invalidate the vehicle registration leaving the owner/operator in a precarious legal position. In such cases, it becomes the owner's responsibility to comply with their "home state" or other issuing jurisdiction requirements in addition to host state requirements. Owners should secure host registration when unable to comply with licensing and/or registration requirements issued by their home state or other jurisdiction.

2.1.1.4. Proof of current vehicle insurance when required by state, host nation, or the installation commander.

2.2. Stopping and Inspecting Personnel or Vehicles.

2.2.1. The security police may stop vehicles on military installations based on the installation commander's authority. The following principles govern the stopping of motor vehicles:

2.2.1.1. In overseas areas, security police may stop, search, and detain vehicles on or off base as determined by host nation agreements and local command policy.

2.2.1.2. AFI 31-209, *The Air Force Resource Protection Program*, local command instructions, and policies established by the installation commander will detail stop, inspection, search, and impoundment of motor vehicles at CONUS installation entry gates and in Air Force restricted areas.

2.2.1.3. On-base traffic stops and inspections (other than at entry gates and restricted areas) of POVs is authorized when there is a reasonable basis to believe it's necessary to enforce a traffic regulation or when there is suspicion of criminal activity.

2.2.2. MAJCOMs responsible for overseas military installations must provide their installation commanders with written guidelines governing stop, inspection, search, and impoundment of vehicles. This guidance must reflect host nation agreements and pass appropriate legal review. Note: A theater commander or those commanding unified forces may direct policy covering all installations under their command. In this case, MAJCOMs must review those policies before issuing their guidance.

2.3. Implied Consent to Blood, Breath, or Urine Tests. Drivers give consent to evidential tests for alcohol or other drug content of their blood, breath, and/or urine as a condition to accepting installation driving privileges. This consent applies when lawfully detained, apprehended, or cited for any impaired driving offense committed while driving or in physical control of a motor vehicle on an Air Force installation.

2.4. Implied Consent to Vehicle Impoundment. As a condition to accepting installation driving privileges, drivers must give their consent for the removal and temporary impoundment of their POV if their POV is: 1) Illegally parked for unreasonable periods; 2) Interferes with traffic operations; 3) Creates a safety hazard; 4) Disabled by accident or incident; 5) Left unattended in, or adjacent to, a restricted, controlled, or off-limits area; and 6) Abandoned. Drivers also agree to reimburse an authorized agency or contractor for the cost of towing, storage, and disposal should a need arise to remove or impound their motor vehicle because of a situation described above.

2.4.1. Installation commanders define in local procedures or supplement to this instruction, the definitions for "unreasonable periods," "abandoned," and other terms relevant to enforcement action under paragraph 2.4. Incorporate those instructions, procedures, and definitions into the local installation traffic code and make them known to the general public.

2.5. Suspension or Revocation of Driving Privileges . Installation commanders may suspend or revoke installation driving privileges and POV registration for lawful reasons both related and unrelated to traffic violations or safe vehicle operations. Installation commanders must incorporate procedures governing suspension and revocation in local publications or supplement to this instruction. Make these known to the general public.

2.5. (MACDILL) The TVRA has the authority to suspend/revoke the privilege of operating a motor vehicle on MacDill AFB.

2.5.1. Suspensions.

2.5.1.1. Installation commanders can suspend driving privileges for serious violations or when lesser measures fail to improve a driver's performance. The commander may also suspend or revoke licenses for up to 12 months if a driver continually violates installation parking standards, or habitually violates other standards considered non-moving in nature. Installation commanders determine suspension and revocation policy for non-moving violations, as well as what constitutes a non-moving violation on their installation (i.e., performing unauthorized repair; failure to register; unauthorized modifications or alterations; failure to maintain safety standards, etc.). Make these standards part of the local installation traffic code and take reasonable steps to make them known to the general public.

2.5.1.2. The installation commander has discretionary authority and may withdraw anyone's authorization to operate a government or privately owned motor vehicle on the installation.

2.5.1.3. Installation commanders will immediately suspend installation GOV or POV driving privileges pending resolution of an intoxicated driving incident which involves active duty military personnel, their family members, retired members of the military service, and DoD civilian personnel. This applies regardless of the geographic location of an intoxicated driving incident. Installation commanders can only suspend privileges of non-DoD affiliated civilians for incidents occurring on the installation or in the areas subject to their military traffic jurisdiction. After a review of available evidence as specified in paragraph 2.6., suspend driver's privileges pending resolution of the intoxicated driving incident under the circumstances outlined below:

2.5.1.3. (MACDILL) An individual whose driving privileges have been revoked or suspended by the TVRA or by state authorities will have his or her privilege to operate a government owned motor vehicle (GOV) revoked or suspended in the same manner and for the same duration as imposed by the TVRA or state authorities. On-duty Security Forces personnel will issue immediate notices of suspension of base driving privileges to personnel apprehended or detained for intoxicated driving.

2.5.1.3.1. Refusal to take or complete a lawfully requested chemical test to determine blood alcohol content (BAC) or breath alcohol content (BrAC) for alcohol or other drugs.

2.5.1.3.2. Operating a motor vehicle with BAC or BrAC of 0.10 percent by volume or higher.

2.5.1.3.3. Operating a motor vehicle with a BAC or BrAC below 0.10 percent blood alcohol by volume if the jurisdiction in which the vehicle is operated imposes a suspension for a BAC or BrAC level below 0.10.

2.5.1.3.4. On an arrest report or other official document reasonably showing an intoxicated driving incident occurred.

2.5.2. Revocation.

2.5.2.1. The installation commander will immediately revoke driving privileges for a period of not less than one year in the following circumstances:

2.5.2.1.1. A person is lawfully detained for intoxicated driving and refuses to submit to or complete tests to measure blood alcohol or drug content as required by the law of the jurisdiction, installation traffic code, or this instruction.

2.5.2.1.2. A conviction, nonjudicial punishment, or a military or civilian administrative action resulting in the suspension or revocation of a driver's license for intoxicated driving. Official documentation is required as the basis for this type of revocation action.

2.5.2.1.3. When a serious incident involving a motor vehicle occurs and the installation commander determines immediate revocation of driving privileges is required to preserve public safety or the good order and discipline of military personnel.

2.5.2.2. The CSP develops plans and procedures to forward revocation, suspension, and driving records to gaining commanders and to initiate appropriate staff action when receiving similar records from losing commanders of inbound personnel.

2.5.2.3. When temporary suspensions are followed by revocations, compute the revocation period from the original suspension date, exclusive of any period during which full driving privileges were restored pending resolution of charges.

2.5.2.4. Installation commanders may impose multiple suspensions to run consecutively or concurrently.

2.6. Reciprocal Procedures.

2.6.1. Air Force installation commanders will honor revocations issued by other installation commanders regardless of service component affiliation. Revocations remain in effect during reassignment unless the issuing authority terminates the revocation before reassignment. Installation commander may honor suspensions as determined on a case by case basis. Anyone with suspended or revoked privileges may petition an installation commander for partial or limited driving privileges.

2.7. Administrative Due Process for Suspensions and Revocations.

2.7.1. When considering suspending or revoking someone's driving privileges, notify that person in writing and tell them what action you are taking and the reason for it. Coordinate this notice with the base legal office.

2.7.2. Except for incidents outlined in para [2.5.1.3.](#) and [2.5.2.1.](#), do not suspend or revoke a person's driving privileges until they are notified (or reasonable attempts made) and offered an administrative hearing. Installation commanders determine when a suspension or revocation takes effect once making or attempting this written notice. Only in unusual circumstances should you make verbal notifications. Unless an application for a hearing is made within the prescribed period, suspension or revocation takes place on the prescribed date and time. Installation commanders determine the time period for staying a suspension or revocation action after receiving a request for a administrative hearing. For offenses outlined in para [2.5.1.3.](#) and [2.5.2.1.](#), an installation commander will authorize an immediate preliminary suspension based on reliable evidence. Such evidence can include witness statements, a military or civilian police report, chemical test results, a refusal to complete chemical testing, video tapes, written statements, field sobriety test results, or other evidence.

2.7.2.1. Installation commanders or their designee must conduct evidence reviews as soon as possible, but no later than three duty days following final assembly of evidence.

2.7.2.2. For active duty military personnel, send a written notice of preliminary suspension for intoxicated driving to their commander or reasonable equivalent. For non-installation, non-DoD affiliated civilians, present the written notice of preliminary suspension for intoxicated driving either in person (preferred) or by certified mail. If the person is employed on the installation, send the notice to their commander or reasonable equivalent.

2.7.2.3. Advise the individual of the following in the preliminary suspension notification for intoxicated driving:

2.7.2.3.1. Suspension can be made a revocation under the authority of paragraph [2.5.2.](#) of this AFI.

2.7.2.3.2. The right to request restoration of driving privileges pending investigation or resolution of the incident (direct request letters to the installation commander or designee).

2.7.2.3.3. The right of military personnel to present evidence and witnesses and be represented by a civilian counsel (at their own expense) or assigned military counsel. Commanders determine the availability of specific (by name) military counsel requests.

2.7.2.3.4. The right of DoD civilian employees to have a personal representative present at the administrative hearing in accordance with applicable laws and instructions.

2.7.2.3.5. Amount of time the individual has to respond and request the administrative hearing before the preliminary suspension or revocation becomes permanent.

2.7.2.3.6. Direction to sign the acknowledgment of receipt and to return the signed letter to the address shown in the letter.

2.7.2.3.7. Requested hearings must take place within a reasonable period which is determined by the installation commander. A preliminary suspension for intoxicated driving remains in effect until the installation commander makes a final decision. However, if no decision is made within 30 days of the preliminary suspension or revocation, restore full driving privileges until the accused is notified of the final hearing results.

2.7.2.4. (Added-MACDILL) All appeals of suspension or revocation actions will be submitted to 6 SFS/SFAR for review, and forwarded through 6 SFS/CC to the TVRA for consideration/action.

2.7.3. Hearings for intoxicated driving will cover only the pertinent issues of whether: 1) The law enforcement official had reasonable grounds to believe the person was driving or was in physical control of a motor vehicle while under the influence of alcohol or other drugs; 2) The person was lawfully cited or apprehended for an intoxicated driving offense; 3) The person was asked to submit to a test for alcohol or other drug content of blood, breath, or urine and was informed of the consequences for refusing to take or complete such a test; 4) The person refused to submit to the test for alcohol, breath, or urine; failed to complete the test; submitted to the test and the result exceeded the amount of allowed blood alcohol content; results indicate the presence of other drugs for an on-installation apprehension or in violation of state laws for an off-installation apprehension; and 5) The testing methods used were valid and reliable, and the results accurately recorded and evaluated.

2.7.3.1. For revocation actions under paragraph **2.5.2.1.** for intoxicated driving, the revocation is mandatory on conviction or other findings that confirm the charge.

2.7.3.1.1. The date of conviction or other findings that confirm the charge is the effective date of the revocation.

2.7.3.1.2. You may place the notice that revocation is automatic in the suspension letter, or send a separate letter. Revocation is not effective until receipt of the written notice, or the showing that you made reasonable attempts to notify the individual.

2.7.3.1.3. Revocations cancel any partial or restricted driving privileges previously granted. Once revocation is acknowledged, a person may petition for the restoration of all or partial driving privileges.

2.8. Alcohol and Drug Abuse Programs.

2.8.1. Refer military personnel involved in any intoxicated (drug or alcohol) motor vehicle incident to Substance Abuse Office, Drug and Alcohol Control for evaluation.

2.9. Restoration of Driving Privileges on Acquittal. When an official report or finding determines lack of guilt (not guilty) or when charges are dismissed or reduced to an offense not amounting to intoxicated driving, vacate the suspension of driving privileges except when:

- 2.9.1. The preliminary suspension was based on refusal to take a BAC test.
- 2.9.2. Operating a motor vehicle with a BAC of 0.10 percent by volume or higher or in violation of the law of the jurisdiction that is being assimilated on the military installation.
- 2.9.3. The person was driving or in physical control of a motor vehicle while under another preliminary suspension or revocation.
- 2.9.4. The state or host nation authorities made an administrative determination to suspend or revoke driving privileges based on local law or pertinent regulations.
- 2.9.5. The individual failed to complete a formally directed substance abuse or driver's training program.

2.10. Restricted Driving Privileges or Probation.

2.10.1. Unless prohibited by higher authority, host nation authority, or other publication, installation commanders may authorize partial or restricted driving privileges to those whose authority to drive on military installations was suspended or revoked by a military service authority. Ensure the individual's driving credentials (civilian state, international, host nation, etc.) are still valid.

2.10.1.1. (Added-MACDILL) The TVRA has the authority to grant or deny a request for restricted or limited driving privileges or probation. To request restricted or limited driving privileges or probation, the suspended driver must submit a written request, endorsed by his or her commander, through 6 SFS/SFAR to the TVRA.

2.10.1.2. (Added-MACDILL) If restricted or limited driving privileges or probation are granted and the individual is subsequently involved in a chargeable accident or moving violation, restricted or limited driving privileges will be withdrawn. This is done in addition to any further suspension or revocation action taken for the offense that occurred.

2.10.2. Without due cause, do not grant restricted driving privileges, probation, or reinstatement to any person whose civilian driver's license is under suspension or revocation by a state, federal, or host nation licensing authority. If absolutely necessary to do so (and for on base privileges only), coordinate with the installation staff judge advocate. Note: This option applies only to installations exercising exclusive military jurisdiction. Outline procedures for applying for partial or restricted privileges in the base supplement to this AFI or in another appropriate publication. Only consider requests in which there is extreme hardship and there are no other workable alternatives. Do not consider the granting of limited privileges as an alternative to administrative discharge action when discharge is the more appropriate action. **Installation commanders must weigh heavily the potential liability inherent when an individual with a suspended or revoked state, host nation, or other license is allowed to operate a motor vehicle on the installation.** Administrative separation may be appropriate when the loss of driving privileges renders someone ineffective and incapable of performing their military duties, and a change in duty position is not reasonable.

2.11. Extensions of Suspensions and Revocations.

2.11.1. Increase by two years the suspension or revocation period when someone is discovered driving in violation of their original suspension or revocation. The unit or installation commander may also take administrative or disciplinary action.

2.11.2. Extend the suspension or revocation of installation driving privileges until the offender completes an approved remedial driver training course, drug or alcohol program, or other program deemed necessary by the installation commander or local authorities.

2.12. Reciprocal State-Military Action.

2.12.1. Statutory authority may exist within some host nations or states for reciprocal suspension and revocation of driving privileges. If so, the installation commander should honor the reciprocal agreements with the state or host nation driver licensing authorities. On receipt of written notice, the receiving party may suspend or revoke driving privileges as if the violations or incidents occurred within its own jurisdiction.

2.12.1.1. Use the following procedures if statutory authority does not provide for formal military reciprocity:

2.12.1.1.1. When such authority suspends or revokes a license, automatically terminate the individual's installation GOV and POV driving privileges. Take only comparable military administrative actions (suspensions, revocation, or point assessment) for those off-base violations reported by local, state, or host nation authorities.

2.12.1.1.2. In the CONUS, notify the licensing authority of the state where a license is issued when revoking a person's installation driving privileges (for a period of one year or more only) following final adjudication of an intoxicated driving offense or for refusal to submit to a BAC/BrAC test. Include in the notification the basis for the revocation and the BAC/BrAC level.

2.12.2. Provisions of the applicable status of forces agreement (SOFA) and the law of the host nation concerning reciprocal suspension and revocation can affect OCONUS installation commanders. When permitted at a particular overseas installation and to the extent an agreement concerning reciprocity exists, the installation commander must have prior authorization to negotiate and conclude such an international agreement in accordance with applicable directives.

Chapter 3

MOTOR VEHICLE REGISTRATION

3.1. Registration Policy.

3.1.1. Register motor vehicles according to guidance in this instruction and policies established by the installation commander. Installation commanders may extend registration to anyone they deem appropriate. This may include reserve force personnel who maintain close affiliation with the installation and other persons who frequently visit the base, such as local dignitaries, community leaders, retired civilian employees, civil air patrol members, etc.

3.1.1. (MACDILL) The 6 SFS/CC will administer the motor vehicle registration program.

3.1.1.1. Consistent with base entry policy in AFI 31-209, the installation commander is responsible for ensuring vehicles entering their installation are controlled. Vehicles entering Air Force installations must be registered or meet other entry requirements outlined in paragraph 3.2. Eligible vehicle registrants include assigned active duty military and civilian personnel working on base, retired military personnel, reserve and national guard personnel assigned to a unit or attached for training on an active installation or a reserve or national guard base or facility, and survivors of deceased active duty and retired military members who are authorized to use base facilities. The installation commander may authorize the registration of vehicles that are in the custody of or owned by dependents, step-parents, or guardians of minor children authorized to use base facilities. A dependent living away from home may require a letter stating acceptance of responsibility from the military sponsor to support an application for vehicle registration. Furthermore, a person need not own the vehicle to register it; however, they must have a lease agreement, power of attorney, or notarized statement from the owner of the vehicle granting them permission to use the vehicle and specifying the inclusive use dates.

3.1.1.2. Treat rental vehicles as government vehicles when being used for official business by military or DoD personnel. Check the driver's installation entry credentials and if all is in order, the vehicle may proceed in the same manner as a marked government vehicle.

3.1.2. Vehicles intended for construction and material handling or used solely off the road are not usually registered as motor vehicles. Installation commanders determine the need and method for registering off road vehicles (ORV) on the installation. However, ORV owners must register and license the vehicle prior to its operation on installation roadways.

3.1.3. When unit vehicle registration (via orderly rooms) is authorized by the installation commander, each unit commander can grant limited temporary registration for up to 45 days pending permanent registration, or in other circumstances for longer terms.

3.1.4. Air Force installations and activities honor the DD Form 2220, **DOD Registered Vehicle Decal**, issued by other military or DoD organizations.

3.1.5. Use of AF Form 75, Visitor/Vehicle Pass. The AF Form 75 is one method to control and identify personnel and vehicles on a temporary basis. You can give it to installation visitors who do not have the authorized personal or vehicle credentials needed for unescorted or unchecked entry to the base. Installation commanders determine the use of AF Forms 75 on their installation and, if used, to what degree and to whom issued. If used, develop local policy and procedures governing the issue

and control of visitor passes. Issue other access credentials when a pass is needed for longer than one year.

3.1.5. (MACDILL) Organizations that sponsor a contractor will provide a letter to the Visitor Reception Facility (6 SFS/SFOLV) stating reason for pass, length of contract, and name of contract personnel to be issued an AF Form 75, Visitor/Vehicle Pass. The duration of AF Forms 75 will not exceed one year.

3.1.5.1. How to process the AF Form 75:

3.1.5.1.1. Ask the visitor to fill out the form and sign the consent to search and towing/impoundment warning.

3.1.5.1.2. Use either the driver's license, state vehicle registration, or passport (overseas) or other recognized credential according to para [2.1.1](#).

3.1.5.1.3. Display the form so one can view it from outside the vehicle.

3.1.5.1.4. Installation commanders determine if and how to retrieve passes once the visit is finished.

3.1.6. The installation commander determines local policy on authorizing and honoring other vehicle registration systems and decals of nonmilitary or non-DoD tenant activities tenanted on the installation. Tenant-operated registration systems must meet the requirements of this instruction for:

3.1.6.1. Complying with registration prerequisites and individual responsibilities in this instruction and on the AF Form 533, **Certificate of Compliance-Private Motor Vehicle Registration** (or its equivalent).

3.1.6.2. Displaying decals on the vehicle.

3.1.6.3. Storing, issuing, and recovering decals.

3.1.7. Installation commanders can implement decentralized POV registration among installation units. However, the security police must have 24-hour access to registrant information on all registration systems used on the installation.

3.2. Registration and Driver Requirements. Registration systems for POVs on Air Force installations will include the requirements specified below. Overseas commands and overseas installations should modify these procedures to conform with local and international agreements. All motorcycle operators must comply with the requirements of AFI 91-207 prior to registering a motorcycle. Individuals must have the following credentials immediately available upon demand as required by state law or policies established by the installation commander. 1) A valid state, overseas command, host nation, or international driver's license (as applicable) supported by DD Form 2, or other appropriate identification for DoD civilians; 2) A certificate of state registration as required by the state or authority in which the vehicle is registered; 3) Proof of meeting the minimum requirements for automobile insurance laws or regulations of the state or host nation. Within the United States, the installation commander may set reasonable liability insurance requirements for registration and operation of POVs within the confines of the installation; and 4) Evidence of satisfactory completion of emission, safety, mechanical, or other test or evaluation required by local, state, or other jurisdiction in which the vehicle is licensed or located. Installation commanders may require periodic safety inspections for all vehicles operated routinely on their installation if a like inspection is not required by a nonmilitary jurisdiction. In such cases, the instal-

lation commander must ensure reasonable and accessible inspection facilities are available and that inspections follow National Highway Traffic Safety Administration (NHTSA) standards. Note: The owner or authorized operator is responsible for reasonable fees and expenses associated with vehicle inspections. Failure to comply with safety inspection standards will result in termination or denial of use of installation roadways.

3.2.1. Vehicle registration record keeping. Registering officials must check the eligibility to register and ownership (or legitimate custody) of a vehicle. Unit distribution points (i.e., unit orderly rooms) may perform registration functions under the supervision of the installation pass and registration section. In this case, these distribution points receive registration decals in bulk from the pass and registration section. After issuing decals, provide the pass and registration section the completed AF Form 533 or the necessary information for entering registration data into the automated system. Use one of the following methods to keep records:

3.2.1.1. Manually kept records. Each registrant fills out an AF Form 533 upon initial Air Force vehicle registration and upon arrival at a new installation after permanent change of station. The registrant's signature on the AF Form 533 certifies compliance with registration requirements. To minimize inconvenience to the registrant, you can preprint the name of the installation and minimum insurance limits in the appropriate blocks on the front. Determine filing methods locally.

3.2.1.2. Automated records. Use the security police automated system (SPAS) computerized vehicle registration program. The registrant must read and understand the registration requirements before issuing a decal.

3.3. Appointing Registration Officials . The chief of security police (CSP) develops local procedures governing base registration officials. Generally, security police personnel working in the pass and registration section are assigned duties as registration officials. When authorized by the installation commander, unit orderly room personnel may also act as registration officials for their unit personnel when unit-level vehicle registration has been authorized. Local registration official procedures must cover the following:

3.3.1. Qualifications (i.e., grade, duty position, and skill level).

3.3.2. Duty training requirements and general position responsibilities which must include record keeping procedures, inventory, and security procedures for controlled DD forms.

3.3.3. Appointment procedures for those authorized to perform as registration officials.

3.4. Specifications for DD Form 2220.

3.4.1. Use the DD Form 2220 to register vehicles on Air Force installations. Remove the form from POVs when registration expires or registration privileges terminate.

3.4.2. Use the installation tag (4" X 1/2") to identify the Air Force installation where the vehicle is registered. Position this decal directly under the DD Form 2220. The tags are color coded according to the category of the registrant and are issued as follows:

3.4.2. (MACDILL) Surviving dependents authorized base decals will be issued decals commensurate with sponsor's rank.

3.4.2.1. Officer--blue background with white letters.

3.4.2.2. Noncommissioned officer--gold background with black letters.

3.4.2.3. Airman--red background with white letters.

3.4.2.4. Civilian--green background with white letters.

3.4.2.5. Contractor--white background with black letters.

NOTE: The installation commander determines the color code used by dependents of deceased military members.

3.4.3. Use AF Form 2219, **Registered Vehicle Expiration (2" X 3/4")**, to maintain the validity of a vehicle's registration. This tab has a suffix (series) corresponding to a particular year of expiration (i.e., 2219A, 2219B, etc.). Revalidate registration by issuing a different "series" at a minimum of every three years. Position this decal to the right of the DD Form 2220.

3.4.4. Prominently affix registration decals to the windshield (centered at the top or at lower driver's side corner), on the front bumper (driver's side), or to a owner supplied plate securely fastened to the driver's side bumper, bumper mounting bracket, or license plate mounting bracket. State and local policy can affect the exact placement. On two-wheeled vehicles, place registration decals on a conspicuous front-facing surface or plate affixed to a front-facing surface.

3.4.5. Use AF Form 787, **Handicapped Person Vehicle Decal**, to identify vehicles of handicapped persons. Position the decal to the right of the DD Form 2220. For short term and temporary disabilities, the installation commander may authorize issue of the AF Form 787 or a locally devised card or form. When authorized, temporary local cards or forms should contain an issue and expiration date. Issue and display in accordance with local procedure. Note: Honor local and state issued handicap decals, placards, signs, etc., on all Air Force installations. Don't require personnel issued local or state handicapped parking identification media to have an AF Form 787.

3.4.6. (Added-MACDILL) No person will maintain a DD Form 2220, DOD Registered Vehicle Decal, or base tag that is invalid, faded, illegible, damaged, or not authorized to be in the possession of the vehicle owner. Improper use of decals and tags shall be cause for Security Forces personnel to have the vehicle operator remove such items.

3.4.7. (Added-MACDILL) When an individual's installation driving privileges have been revoked, the individual shall remove the vehicle decal (DD Form 2220) from his or her vehicle and return the decal to the Visitor Reception Facility (VRF), Building 1098, within 24 hours of written notification of the suspension or revocation. If other family members have installation driving privileges and require the use of the vehicle, a restricted AF Form 75 will be issued.

3.5. Termination or Denial of Registration . Vehicle registration will be denied under the following conditions:

3.5.1. The owner fails to comply with the registration requirements of paragraph **3.2**.

3.5.2. The owner sells or disposes of the registered POV, is released from active duty, is separated from the service, or terminates civilian employment with a military service or DoD agency.

3.5.3. The owner is other than an active duty military or civilian employee and discontinues regular operation of the POV on the installation.

3.5.4. The state, overseas command, host nation, or installation suspends or revokes the owner's driving privilege. Affected persons can apply to reregister their POV after their suspension or revocation period expires. Other family members having installation driving privileges may transfer the base vehicle registration into their name. If so, change the AF Form 533 or SPAS data base to reflect the new registrant. Note: The installation commander determines the period of time a person has before they must surrender their DD Form 2220 or transfer the decal and base registration to another authorized driver.

3.5.5. When a registrant is transferred. The installation commander may permit registration by the spouse or other dependents continuing to live near the installation. When this occurs, update the AF Form 533 or SPAS data base.

3.5.6. When ownership of a vehicle is transferred. The new owner of a previously registered vehicle can transfer the registration provided the new owner is eligible for base vehicle registration. The new owner must follow the procedures in paragraph 3.2.

3.5.7. During a PCS transfer. If authorized by the installation commander, a registrant may keep the registration decal on their vehicle for re-registration at the gaining installation. In this case, the losing installation transfers the registration number to the gaining pass and registration section where only a new installation tab is issued upon the member's arrival at the new duty station. Note: This procedure is not allowed for CONUS to OCONUS POV shipments or consecutive OCONUS to OCONUS transfers unless the vehicle will be accompanied or driven by a registered owner. Unless the vehicle is accompanied or driven, surrender the DD Form 2220 as part of normal out processing.

3.6. Specified Consent to Impoundment. Personnel must consent to the installation vehicle impoundment policy if they wish to drive on the installation. POV registration forms or policy will contain or have appended to them a certificate with the following statement:

"I am aware that AFI 31-204, *Air Force Motor Vehicle Traffic Supervision*, and the installation traffic code provide for the removal and temporary impoundment of privately owned vehicles parked illegally for unreasonable periods, interfering with military operations, creating a safety hazard, disabled by incident, left unattended in a restricted or controlled area, or abandoned. I agree to reimburse any agency or contractor for the cost of towing, storing, and disposing of my motor vehicle if it is lawfully removed and impounded."

Chapter 4

TRAFFIC PLANNING AND CODES

4.1. Traffic Planning

4.1.1. Safe and efficient movement of traffic on an installation requires traffic supervision. A strong traffic supervision program includes sound traffic circulation planning, supervision, and control of motor vehicle traffic. Proactive publication and enforcement of traffic laws and regulations together with timely and professional investigation of motor vehicle accidents are also important. Finally, every successful program must include meaningful interaction, education, and communication with the general public.

4.1.2. Installation commanders develop traffic circulation plans that provide for the safest and most efficient use of primary and secondary roads. A major focus of installation traffic planning is circulation control. The base traffic engineer, CSP, safety officer, and other concerned staff agencies develop the traffic circulation plan. Consult with highway engineering representatives from adjacent civilian communities to ensure the installation plan is compatible with plans developed by the state and surrounding local communities. As a minimum, your base traffic plan should consider the following:

4.1.2.1. Normal and peak load routing based on traffic control studies.

4.1.2.2. Effective control of traffic, using planned traffic flow patterns which include measures for special events and adverse road conditions.

4.1.2.3. Point control at congested locations by law enforcement personnel or designated traffic directors or wardens, including trained school-crossing guards.

4.1.2.4. Use of traffic control signs and devices.

4.1.2.5. Efficient use of available parking facilities.

4.1.2.6. Efficient use of mass transportation.

4.1.2.7. Every installation commander should appoint a primary and alternate base traffic engineer. The engineer directs, develops, and staffs the base traffic circulation plan. This is normally a civil engineering responsibility and those considered for the position should have an infrastructure planning and engineering background.

4.1.3. Traffic control studies provide factual data on existing roads, traffic density and flow patterns, and points of congestion. The CSP and traffic engineer usually conduct coordinated traffic control studies to obtain the data. Accurate data helps determine major and minor routes, locations for traffic control devices, and special conditions requiring engineering or enforcement services.

4.1.4. The Military Traffic Management Command Transportation Engineering Agency (MTMC-TEA) will help installation commanders solve complex highway traffic engineering problems. MTMC-TEA traffic engineering team services include:

4.1.4.1. Traffic studies of lifted areas and other special situations.

4.1.4.2. Complete studies of traffic operations of entire installations.

4.1.4.3. Assistance in complying with established traffic engineering standards.

4.1.5. Installation commanders submit requests for MTMCTEA assistance in accordance with AFR 75-88, *Highways for National Defense*.

4.2. Installation Traffic Codes.

4.2.1. Installation commanders must establish a traffic code for operation of motor vehicles on the installation. Commanders in overseas areas establish a traffic code to the extent military authority is empowered to regulate traffic under applicable treaties or agreements. Installation traffic codes must contain the base rules of the road and will, to the degree possible, conform to the code of the state or host nation in which the installation is located. The CSP is responsible for developing the traffic code and for ensuring it meets all local and legal requirements, this AFI, and the standards published in the following:

4.2.1.1. *The National Highway Safety Program Standards*, as published in 23, CFR 1230.

4.2.1.2. Applicable portions of the *Uniform Vehicle Code and Model Traffic Ordinance* published by the National Committee on Uniform Traffic Laws and Ordinances, which is contained in 23, CFR 1204.

4.2.1.3. DoDI 6055.4, *DoD Traffic Safety Program*.

4.2.2. The installation traffic code must contain policy and procedures for the towing, searching, impounding, and inventorying of vehicles. Publish these provisions and ensure they contain the following:

4.2.2.1. Violations and conditions to tow or impound a vehicle.

4.2.2.2. Procedures to notify the vehicle owner.

4.2.2.3. Procedures for towing, storing, and protecting impounded vehicles.

4.2.2.4. Procedures for disposing of vehicles after lawful impoundment.

4.2.3. Where applicable, installation traffic codes must supplement the various basic provisions contained in the subparagraphs below:

4.2.3.1. Motorcycles and mopeds. Operators must comply with special requirements when driving motorcycles, mopeds, or other open two-, three-, and four-wheel vehicles powered by a motorcycle-type engine. See paragraph 4.2.6. for information concerning off-road vehicle use. Installations should adopt local, state, or host nation guidance concerning the legal definition, operation, use, and control of mopeds, motorized bicycles, and other such devices on installation roadways. Such guidelines will be modified or restricted as necessary to ensure personal safety or the safe and orderly flow of installation traffic. Refer to AFI 91-207 for helmet, eye, and clothing safety requirements.

4.2.3.2. Restraint systems.

4.2.3.2.1. Operators and passengers of all vehicles operated on Air Force installations must wear restraint systems. In addition, operators and passengers of GOVs must wear restraint systems when driving or riding off the installation as well.

4.2.3.2.2. All Air Force active duty and reserve component members on active duty must wear restraint systems while driving or riding in a POV whether on or off the installation.

4.2.3.2.3. US Department of Transportation requires approved infant/child restraint devices in POVs for children 4 years old or under and not exceeding 50 pounds in weight.

4.2.3.2.4. Cars manufactured after model year 1966 require a manufacturer-approved restraint system meeting federal traffic safety standards.

4.2.3.2.5. Operators using vehicles equipped with air bags must still wear the manufacturer's primary restraint system (seat belts).

4.2.3.3. Headphones and earphones. The wearing of headphones and earphones is prohibited while driving a motor vehicle on base. This does not negate wearing of hearing protection when conditions and good judgment dictate its use such as when driving in noise hazard areas. This restriction does not apply to intercom systems worn by motorcycle operators and their passengers.

4.2.4. Take only administrative actions (reprimand, assessment of points, loss of installation driving privileges, etc.) for off-installation violations of the installation traffic code.

4.2.5. At bases with concurrent or exclusive federal jurisdiction, make violations of state traffic codes applicable to base driving records when those violations are included in that state's criminal offense code. This provision is covered under the authority of Title 18 United States Code 13 (USC).

4.2.5.1. DoDD 5525.4, *Enforcement of State Traffic Laws on DoD Installations*, adopts the vehicular and pedestrian traffic laws of states where traffic law violations are not considered criminal offenses and cannot be assimilated under 18 USC. It makes these laws applicable to military installations having concurrent or exclusive federal jurisdiction. It also delegates authority to installation commanders to establish additional vehicular and pedestrian traffic rules and regulations for their installations. Those found guilty of violating traffic laws made applicable on installations under provisions of DoDD 5525.4 are subject to a fine of not more than \$50 or imprisonment for not more than 30 days or both for each violation. In those states where you cannot assimilate traffic laws, post an extracted copy of this paragraph and a copy of DoDD 5525.4 in a prominent place accessible to persons assigned, living, or working on the installation.

4.2.5.1.1. Take only administrative actions in states where you cannot assimilate violations of traffic laws under either Title 18 USC 13 or DoDD 5525.4. Generally, this applies to installations under part or full proprietary jurisdiction.

4.2.6. Off-road vehicles usage: The installation commander or his or her designee determines if, when, and where off-road vehicles may be operated on base. In many areas, the operation of off-road vehicles is unregulated while other jurisdictions have strict requirements concerning age, safety training, and vehicle equipment. Generally, some "on-street" safety practices such as reflective vests, gloves, headlight on, and goggles may not apply when operating off road in a recreational capacity. However, ensure full compliance with local, state, or host nation requirements. When necessary, develop additional procedures and guidance locally and publish in the installation traffic safety plan or supplement to this instruction. Ensure environmental considerations are reviewed prior to designating any off-road vehicle use area.

4.3. Traffic Law Enforcement Principles.

4.3.1. Traffic law enforcement should motivate drivers to operate vehicles safely within traffic laws and regulations and maintain an effective and efficient flow of traffic. Effective enforcement should

emphasize selective enforcement and voluntary compliance by drivers. You can reach these goals by developing effective programs in the following areas.

4.3.1.1. Publishing a realistic traffic code well known by all personnel.

4.3.1.2. Adopting standard signs, markings, and signals in accordance with *National Highway Safety Program Standards* (NHSPS) and the *Manual on Uniform Traffic Control Devices for Streets and Highways*.

4.3.1.3. Ensuring enforcement personnel establish courteous, personal contact with drivers, and act promptly when driving behavior is improper or when observing a defective vehicle in operation.

4.3.1.4. Maintain an aggressive program to detect and apprehend those who drive with suspended or revoked privileges.

4.3.1.5. Use sound discretion and judgment in deciding when to apprehend, issue a citation, or warn the offender.

4.3.2. Enforcement activities against intoxicated driving will include:

4.3.2.1. Detecting, apprehending, and testing persons suspected of driving under the influence of alcohol or drugs.

4.3.2.2. Training law enforcement personnel in special enforcement standards, detection techniques, and equipment standards unique to your location and jurisdiction.

4.3.2.3. Enforcing blood-alcohol concentration standards (see paragraph 4.11.).

4.3.2.4. Denying installation driving privileges to those whose use of alcohol or drugs prevents their safe operation of a motor vehicle.

4.4. Speed-measuring Devices. Use speed-measuring devices in traffic control studies and enforcement programs. Post signs to indicate the use of speed-measuring devices.

4.4.1. Equipment purchases. Installations located in states having a formal civilian police training and certification program for speed measurement should consider purchasing the same brand and model of equipment used by their civilian counterparts. Where possible, attend the same or similar certification courses used by local authorities.

4.4.2. Training and certification standards.

4.4.2.1. The CSP should strive to ensure operators of speed-measuring devices meet training and certification requirements prescribed by the state or jurisdiction where the installation is located. Obtain specific information on course dates, costs, and prerequisites for attending by contacting the state agency responsible for police traffic radar training. Notwithstanding the above information, the CSP may establish other local training and certification programs for operators of speed-measuring devices. If exercising this option, you must ensure your qualification and training standards are admissible as evidence and considered reliable by both military and civil authorities. This requirement applies to courts-martial, nonjudicial proceedings, and civilian courts used to prosecute civilian offenders. Coordination between the military staff judge advocate and attorney general (or equivalent) is necessary.

4.4.2.2. Develop local training programs or attend a civilian institution or manufacturer's training program if security police are unable to attend local or state-sponsored radar certification courses.

4.4.2.3. The objective of civilian or manufacturer-sponsored courses is to improve the effectiveness of speed enforcement through the proper and efficient use of speed-measurement radar. On successful completion, the course graduate must know how to:

4.4.2.3.1. Describe the association between excessive speed and accidents, deaths, and injuries, and describe the traffic safety benefits of effective speed control.

4.4.2.3.2. Describe the basic principles of radar speed measurement.

4.4.2.3.3. Identify and describe Air Force speed measurement and speed enforcement policy and procedure.

4.4.2.3.4. Identify the specific radar instrument used and describe the instrument's major components and functions.

4.4.2.3.5. Demonstrate basic skills in calibrating and operating the specific radar instrument(s).

4.4.2.3.6. Demonstrate basic skills in preparing and presenting records and courtroom testimony relating to radar speed measurement and enforcement.

4.4.3. Recertification. Certify operators every three years or more frequently when required by the state or governing jurisdiction. The CSP must document and maintain certification and training standards in the unit training section. Forward records to gaining unit commanders when personnel PCS.

4.4.4. Use the following sources in local training and certification programs:

4.4.4.1. State or local training guides, plans, and procedures.

4.4.4.2. Publish techniques for radar speed detection and legal aspects of speed-measuring devices by the National Highway Traffic Safety Administration and the International Association of Directors of Law Enforcement Standards and Training.

4.5. Traffic Accident Investigation.

4.5.1. Conduct detailed investigations of the following:

4.5.1.1. All accidents involving a fatality or personal injury.

4.5.1.2. Vehicle and private property damage over the amount specified by the installation commander. This applies to government as well as private vehicles and property damage; however, the installation commander may establish different damage amounts for each category.

4.5.2. Conduct investigations of off-installation accidents involving military personnel according to local policy developed by the CSP and local police leaders.

NOTE: Generally, a detailed accident investigation includes, but is not limited to, an accident report form, field sketch, scale diagram, and accident narrative.

4.6. Traffic Accident Investigation Reports.

4.6.1. Anyone involved in an on-base vehicle accident must immediately report the incident to the security police. Report off-base accidents to the security police if they involve injuries to military per-

sonnel or damage to military property. The installation commander determines what agencies to notify and for what type of accidents to notify them. The CSP must develop a local notification matrix or other procedures that will ensure notification of appropriate base and civilian agencies. Develop and publish these notification procedures locally.

4.6.2. The security police will act as the focal point for gathering off-base accident information. Record the information in the security police desk blotter. When possible, obtain copies of major accident reports prepared by investigating civilian police agencies.

4.6.3. Security police respond to all on-base major vehicle accidents (unless local conditions or policies prohibit) to accomplish the following:

4.6.3.1. Render first aid and arrange for medical assistance.

4.6.3.2. Protect personal property.

4.6.3.3. Normalize traffic.

4.6.3.4. Identify witnesses and personnel involved.

4.6.3.5. Conduct a formal investigation.

4.6.3.6. The CSP determines (with installation commander approval) when and/or if minor vehicle accidents require investigation or a police response. He or she may delegate this authority to on-duty security police supervisory personnel. Develop policy in this area locally.

4.6.4. Report minor accidents not involving a security police response to the security police within 72 hours. Record accident information in the security police blotter. This information should include the accident type, time and date, location, name(s) of vehicle operator(s), unit (or address when civilian not affiliated with military), vehicle description, and license number(s). You should also include a brief summary of any damage and circumstances behind or causing the accident. A minor accident is any accident in which there are no fatalities/injuries or vehicle/property damage above the amount established by the installation commander. Consequently, a major accident is any accident involving a fatality, injury, or property damage above the amount established by the installation commander. The installation commander may set differing amounts for government versus private vehicle and property damage. The investigation of major accidents involve specialized accident investigative techniques to draw conclusions and opinions about how and why the accident occurred.

4.6.4.1. Injury is defined as any one of the following caused or aggravated by a motor vehicle accident:

4.6.4.1.1. Any condition requiring medical attention

4.6.4.1.2. Complaint or report of pain or injury regardless if medical attention is sought

4.6.4.1.3. Any visible injury. This includes bruises, contusions, cuts, scrapes, compression, or any other visible damage to the body.

4.7. Use of Traffic Accident Investigation Report Data.

4.7.1. Analyze data derived from traffic accident investigations to determine accident causes. When frequent accidents occur in one area, analyze location conditions, type of accidents, and other factors in an attempt to isolate causes. With the exception of privacy act information, make accident data and trend analysis available to agencies requesting the data for reporting and analytical purposes. With the

exception of requests filed under the Freedom of Information Act, the CSP determines the agencies cleared to receive accident and incident data.

4.7.2. Law enforcement personnel and others who prepare traffic accident investigation reports will indicate if a seat restraint was used at the time of the accident, and where applicable, if air bags deployed.

4.8. Parking.

4.8.1. Illegal parking contributes to congestion and slows traffic flow on the installation. Strong enforcement of parking rules results in better use of available parking while reducing traffic accidents and hazards. Combine enforcement with community education and awareness initiatives in areas where illegal parking is a problem. When education and awareness fail, installation commanders may authorize more serious enforcement measures such as towing and "booting" of vehicles. Do not use towing and booting if less severe means of enforcement such as warnings, ticketing, reprimands, revocations, etc., prove effective. When using towing and booting, follow the guidelines below:

4.8.1.1. Publish operating instructions to control discretion of enforcers and limit towing or booting to specific offenses.

4.8.1.2. Focus on specific reasons for towing or booting. Booting is effective for immobilizing unsafe vehicles, or vehicles not inspected or registered. Use booting in high offense areas or to compel the presence of repeat offenders. Towing is more effective for moving vehicles that pose safety hazards. Some examples include double parking, and blocking fire hydrants and fire lanes.

4.8.1.3. Notify drivers that certain violations or multiple violations may result in towing or booting. Also, provide drivers a prompt opportunity to obtain release of their property.

4.8.1.4. Warn drivers when a boot is attached to their vehicle and instruct them on how to have the boot removed without damaging the vehicle.

4.8.2. Reserved Parking. When not addressed by MAJCOMs, installation commanders determine reserved parking policy for their installations. Number of available spaces, facility design and layout, traffic flow, and number of vehicles using facilities will help determine the number and location of reserved parking spaces. Make policy and procedures governing reserved parking a part of the installation supplement to this instruction, separate traffic control instruction, or base parking plan. The publication must address approval, issue, control, and review of reserved parking and should give special consideration to bicycle, motorcycle, visitor, and car pool parking. Handicap parking is regulated under the uniform federal accessibility standards and applies to all Air Force installations.

4.8.2. (MACDILL) The TVRA is the approval authority for reserved parking requests ([Attachment 3](#)).

4.8.3. You can use distinctive emblems, decals, stickers, etc., to control parking space assignments and to indicate authorized use of the parking slot. If this identification media is placed on a vehicle bumper, separate it from the vehicle registration identification. MAJCOMs (or installation commanders if not addressed by the MAJCOM) may develop policy concerning the issue and control of the identification media discussed above.

4.8.4. You can use parking wardens (unit personnel) to monitor and cite parking violators, especially within off-street parking facilities.

4.9. Traffic Violation Reports.

4.9.1. Commanders should deal with most traffic violations occurring on Air Force installations within Air Force channels.

4.9.2. You can refer traffic violations occurring on Air Force installations (within the United States or its territories) to the proper US Magistrate. Do not refer violations in the following circumstances:

4.9.2.1. The operator is driving a government vehicle at the time of the violation.

4.9.2.2. A US Federal Magistrate is either not available or lacks jurisdiction to hear the matter because the violation occurred in an area where the federal government has only proprietary legislative jurisdiction.

4.9.2.3. Mission requirements make referral of offenders impractical.

4.9.2.4. A US Magistrate is available, but the accused refuses to consent to the jurisdiction of the court and the US attorney refuses to process the case before a US district court.

4.9.3. Issue traffic violators on military installations a DD Form 1408, Armed Forces Traffic Ticket, or a DD Form 1805, United States District Court Violation Notice. The CSP determines who is authorized to issue those forms and what training they must complete before issuing either form. The DD Form 1408 is issued to *the following personnel: active duty personnel, Cadets/Midshipmen of the Military Academies to include the Coast Guard Academy, reservists on orders or performing inactive duty training including commuting to and from training, and guardsman in federal service under Title 10 of the United States Code. Title 10 status is reflected on the guardsman's orders.* Issue civilians the DD Form 1805, or the DD Form 1408 when a US Magistrate system is not available.”

4.9.3.1. (Added-MACDILL) Active duty military, reserve, guard and individual mobilization augmentee personnel on active duty orders who commit traffic offenses on base will be issued a DD Form 1408, **Armed Forces Traffic Ticket**. Civilian employees operating a GOV will also be cited with a DD Form 1408. Civilian employees not operating a GOV, active duty and retired military dependents (18 years of age or older), and visitors (18 years of age or older) to MacDill AFB will be issued DD Form 1805, **United States District Court Violation Notice**. Juveniles under 18 years of age will be issued a DD Form 1408.

4.9.4. Installation commanders establish procedures for disposing of traffic violation cases through administrative or judicial action consistent with the Uniform Code of Military Justice (UCMJ) and federal law. Additionally, forward a copy of all violation reports on military personnel and DoD civilian employees apprehended for intoxicated driving to the Substance Abuse Office, Drug and Alcohol Control.

4.9.5. Unless restricted under the provisions of para [4.9.2.](#), use the DD Form 1805 to refer civilian violators of state and federal traffic laws to the appropriate US magistrate. Notify the commander, first sergeant, or supervisor when any military personnel or DoD civilian employees is cited with the DD Form 1805. If requested, locally reproduce a copy of the DD Form 1805 and make it available to the commander, first sergeant, or supervisor.

4.9.5.1. Preparation of the DD Form 1805. This prenumbered form is issued through standard publication channels and is only accountable once it is issued to an offender. Before issuing this form, stamp (type) in black ink the specific address of the clerk of the US District Court (Central Violations Bureau) to which the violator must address the communication, on the reverse of the

violator's copy (manila card stock) of the four-part form. Determine the entry for the amount of the fine, mandatory court appearance of the offender, and the date of appearance according to guidance furnished by the governing district court.

4.9.5.2. Identify the assimilation of state traffic laws by a specific state code reference in the CODE SECTION block of the DD Form 1805 or in a complaint filed with the US magistrate.

4.9.5.3. Use the statement of probable cause on the DD Form 1805 according to local staff judge advocate and US magistrate court policy. The statement of probable cause is required by the federal misdemeanor rules to support the issuance of a summons or arrest warrant.

4.9.5.4. For cases referred to US magistrate, normal distribution of DD Form 1805 is as follows:

4.9.5.4.1. The CSP forwards copy 1 (white) and copy 2 (yellow) to the US District Court (Central Violation Bureau).

4.9.5.4.2. Security police file copy 3 (pink).

4.9.5.4.3. Provide copy 4 (envelope) to the violator.

NOTE: Ensure unit personnel are notified IAW para **4.9.5.** above.

4.9.5.5. When DD Form 1408 is used, distribute the form as follows:

4.9.5.5.1. Provide the pink copy to the violator with normal reporting instructions and rebuttal instructions as determined by the installation commander.

4.9.5.5.2. Forward the white copy to the service member's commander, to the commander of the family member's sponsor, or to the civilian's supervisor or employer for administrative action within the unit/organization.

4.9.5.5.2. (MACDILL) Upon receipt of a DD Form 1408, the commander/first sergeant of the individual involved will indicate in the proper block the action taken and return the citation to 6 SFS/SFAR in a sealed envelope. If action taken by the commander/first sergeant cannot be completed by the suspense date, the commander/first sergeant will contact 6 SFS/SFAR and request an extension.

4.9.5.5.3. Forward the yellow copy to the security police administration branch for processing and tracking until the white "action copy" is returned by the unit commander, section commander, or first sergeant. When the white copy is received, review it for action taken, annotate the information in SPAS or the AF Form 1313, **Driver Record**, with the moving or non-moving violation and any points assessed. File the white and yellow copies with the driver record.

4.10. Standards and Procedures for Processing Intoxicated Drivers.

4.10.1. As a minimum, the CSP must train installation law enforcement personnel to do the following:

4.10.1.1. Recognize signs of alcohol and other drug impairment in persons operating motor vehicles.

4.10.1.2. Prepare DD Form 1920, **Alcohol Influence Report**, or other form which adequately documents sobriety and sobriety testing of an individual.

- 4.10.1.3. Perform standard field sobriety tests. The standardized Air Force field sobriety test consists of the one leg stand, the walk and turn, and the horizontal gaze nystagmus. Also consider any local, state, or host nation sobriety test requirements in addition to the above standard Air Force tests.
- 4.10.1.4. Determine to a reasonable and practical degree when a person appears intoxicated, but is actually physically or mentally ill and requires prompt medical attention.
- 4.10.1.5. Understand the operation of breath-testing devices.
- 4.10.2. Each installation using breath-testing devices will ensure operators of these devices:
- 4.10.2.1. Are chosen for integrity, maturity, and sound judgment.
- 4.10.2.2. Meet installation, and where possible, state certification standards.
- 4.10.3. Use only breath-testing devices listed on the approved NHTSA conforming products list published in the Federal Register. Ensure only trained personnel administer tests as specified in paragraph 4.13. and adhere to the procedures described in paragraphs 4.14. and 4.15. relating to voluntary and involuntary testing.
- 4.10.4. Installations located in states or overseas areas with no formal training program will develop their own training program following material and guidance from selected civilian institutions or manufacturers of the equipment. Coordinate local training programs with the installation staff judge advocate and state's attorney general (or local equivalent) to ensure your program meets local requirements for legal admissibility. Conduct refresher training at the intervals determined by the CSP and staff judge advocate.

4.11. Blood Alcohol Concentration Standards.

- 4.11.1. Uniformly apply administrative revocation of driving privileges and other enforcement measures to offenders driving under the influence of alcohol or drugs. When a person is tested per paragraph 2.3., evaluate the results of the test as follows:
- 4.11.1.1. If the percentage of alcohol in the person's blood is less than 0.05 percent, presume the person is not under the influence of alcohol.
- 4.11.1.2. If the percentage is 0.05 but less than 0.10, presume the person is impaired. Consider this standard with other competent evidence in determining whether the person was under the influence of alcohol. Suspend driving privileges according to para 2.5. Note: The 0.10 threshold delineating impaired from intoxicated can be lesser level when assimilating a more stringent local, state, or host nation standard.
- 4.11.1.3. If the percentage is 0.10 (or lesser amount when assimilating local, state, or host nation standards) or more or if tests reflect the presence of illegal drugs, the person is considered to have been driving under the influence of intoxicants. Suspend driving privileges according to para 2.5.1.3.
- 4.11.2. Percentages in paragraph 4.11.1. are percent of weight by volume of alcohol in the blood based on grams of alcohol per 100 milliliters of blood. Installation commanders will modify military standards to agree with a more stringent state, local authority, or host nation standard. Refer to Assessment #3, Table 5.1.

4.12. Chemical Testing Policies and Procedures.

4.12.1. Results of chemical testing are valid under this instruction only under the following circumstances:

4.12.1.1. Testing of blood, breath, urine, or other bodily substances using generally accepted scientific and medical methods and standards.

4.12.1.2. Qualified personnel administer breath tests.

4.12.1.3. Use of a nonportable breath-testing device approved by the state or host nation.

4.12.2. If the state or host nation has not established procedures for use of breath-testing devices, then apply the following procedures if you use portable breath-testing devices: 1) During the initial traffic stop as a field sobriety testing technique in lieu of or in conjunction with other field sobriety testing techniques as long as the state or host nation does not prohibit such use, and 2) According to the manufacturer's operating instructions.

4.12.2.1. Use nonportable evidentiary breath-testing devices as follows:

4.12.2.1.1. Observe the suspected person for at least 20 minutes before collecting the breath specimen. During this time, the person must not drink, eat, smoke, chew tobacco, or ingest any substance.

4.12.2.1.2. Verify calibration and proper operation of the instrument according to manufacturer's specifications and any specific local, state, or host nation requirements.

4.12.2.1.3. Comply with operational procedures in the manufacturer's current instruction manual. Perform the preventive maintenance as required by the owner's manual.

4.12.3. Chemical tests of personnel involved in fatal accidents.

4.12.3.1. Installation medical authorities will immediately notify and brief the CSP upon death of any person involved in a motor vehicle accident. Subject to military jurisdiction, medical authorities will examine anyone killed in an on-base motor vehicle accident or mishap. Conduct tests for the presence and concentration of alcohol or other drugs in the blood, bodily fluids, or tissues as soon as possible and where practical within eight hours of death. Include the test results in the medical reports.

4.12.3.2. As provided by law and medical conditions permitting, obtain a blood or breath sample from any surviving operator whose vehicle is involved in a fatal accident.

4.13. Detection, Apprehension, and Testing of Intoxicated Drivers.

4.13.1. Most of the time you will detect drunk drivers by observing unusual or abnormal driving behavior. Stop these drivers and determine the cause of their unusual driving behavior. If you reasonably conclude that the individual in control of the vehicle is impaired, perform field sobriety tests. The DD Form 1920 is used in examining, interpreting, and recording results of such tests. Use the standard field sobriety tests outlined in para 4.10. Specific procedures for administering them can be found in AFH 31-227, *Air Force Motor Vehicle and Traffic Control*. Also see AFH 31-227 for procedures and guidance concerning the use of traffic mazes, DWI checkpoints, and other drunk driving reduction measures.

4.14. Voluntary Breath and Bodily Fluid Testing Based on Implied Consent.

4.14.1. Implied consent policy is explained in paragraph [2.3](#).

4.14.2. Administer tests only when the following conditions are met:

4.14.2.1. The person was lawfully stopped while driving or while in physical control of a motor vehicle on the installation.

4.14.2.2. Reasonable suspicion exists to believe the person was driving under the influence of alcohol or drugs.

4.14.2.3. A request was made of the person to consent and he or she was advised that failure to voluntarily submit to or complete a chemical test of bodily fluids or breath may result in revocation of on-base driving privileges.

4.14.3. The installation commander prescribes the type of chemical tests used. Advise the driver that the installation commander may revoke driving privileges if they fail to voluntarily submit to or complete a requested chemical test and that they do not have the right to have an attorney present before deciding if they will or will not take the test. Testing will follow policies and procedures in paragraph [4.12](#). Also advise the driver that you can use the results of chemical tests conducted under the implied consent provisions of this instruction as evidence in courts-martial, nonjudicial proceedings under Article 15 of the UCMJ, administrative action, or civil court proceeding.

4.14.4. Special rules exist for persons who have hemophilia, other blood-clotting disorders, or any medical or surgical disorder under treatment with an anticoagulant. Such people may refuse a blood extraction without penalty, but you can offer a breath or urine test, or both. You must outline these procedures and the type of medical conditions that qualify for nonpunitive refusal in readily available medical guidelines located in emergency rooms or other reasonable areas where blood samples might be drawn from those suspected of drunk driving. Valid refusals must have the concurrence of a medical doctor.

4.14.5. If a person suspected of intoxicated driving refuses to submit to a chemical test, do not administer a test except as specified in paragraph [4.15](#).

4.15. Involuntary Extraction of Bodily Fluids in Traffic Cases.

4.15.1. These procedures pertain only to the investigation of individuals stopped, apprehended, or cited on a military installation for any offense related to driving a motor vehicle and for whom probable cause exists to believe that such individual is intoxicated. Rule 312d, Military Rules of Evidence, and regulatory rules concerning requesting and granting authorizations for searches govern the extraction of body fluids in furtherance of other kinds of investigations. Air Force policy on nonconsensual extraction of blood samples is further addressed in AFI 44-102, *Patient Care and Management of Clinical Services*.

4.15.2. Involuntary bodily fluid extractions (blood or urine) require valid search and seizure authorizations. A person subject to the UCMJ who does not consent to chemical testing, and who subsequently refuses a lawful order to surrender to the test, may nonetheless be forced to submit to an involuntary extraction of bodily fluids. As a general rule, forced extractions are considered only when an individual is involved in an accident in which there is a death, serious personal injury, or significant property damage. Probable cause must exist to believe the individual was driving or was in control of a vehicle while under the influence of an intoxicant. Conduct the extraction in accordance with the

following procedures: 1) A search authorization by an appropriate commander or military magistrate obtained pursuant to Rule 315, Military Rules of Evidence, is required prior to such nonconsensual extraction; 2) A search authorization is not required under such circumstances when there is a clear indication that one will find evidence of intoxication and there is reason to believe that the delay necessary to obtain a search authorization would result in the loss or destruction of the evidence sought; and 3) Conduct warrantless searches only after coordination with the servicing staff judge advocate and attempts to gain authorization from an appropriate official fail because of the unavailability of the appropriate commander or military magistrate.

4.15.2.1. If authorization from the military magistrate or commander proves unsuccessful (due to nonavailability), the commander of a medical facility is empowered by Rule 315(d), Military Rules of Evidence, to authorize such extraction from an individual located in the facility at the time an authorization is sought.

4.15.2.1.1. Before authorizing the involuntary extraction, the commander of the medical facility should, if circumstances permit, coordinate with the servicing staff judge advocate.

4.15.2.1.2. The medical facility commander authorizing an extraction under Rule 315(d) need not be on duty as the attending physician. Any qualified medical person can perform the extraction.

4.15.2.1.3. The authorizing official may consider his or her own observations of the individual in determining probable cause.

4.15.3. Authorization for the nonconsensual extraction of blood samples for evidentiary purposes by qualified medical personnel is independent of and not limited by provisions defining medical care, such as the provision for nonconsensual medical care pursuant to AFR 160-12. Only qualified medical personnel administer extractions and use only reasonable measures to accomplish the procedure. Assistance to overcome an individual's resistance to the extraction is normally provided by law enforcement personnel or unit personnel acting under orders from the member's commanding officer or designee. Do not use any form of life endangering force to effect nonconsensual extractions.

4.15.3.1. Nonconsensual extraction will not interfere with or delay proper medical attention. Medical personnel determine the priority given to involuntary fluid extractions when other medical treatment is required.

4.16. Testing at the Request of the Apprehended Person.

4.16.1. A person subject to tests under paragraph 2.3. can request additional testing. These tests are paid for by the requesting individual, and an approved facility such as an off-base hospital or research laboratory performs the tests. If they desire admissibility of other tests in a military or civilian court of law, they must ensure the state (or host nation when in an overseas area) approves the test and test method. Complete all tests as soon as possible, noting any delay on the resulting documents.

4.16.2. If someone requests additional testing, the apprehending official may help make those arrangements. However, tests conducted under authority of the UCMJ remain valid when circumstances prevent timely release of the individual, or for whatever reason additional testing is not completed.

4.17. Off-installation Traffic Activities. Civil authorities enforce traffic laws in areas not under military control. Likewise, the security police often investigate on-base accidents and incidents of interest to

local authorities. Consequently, the CSP must develop a program for the sharing and exchanging of information with civil authorities. In overseas areas, these procedures are generally well documented in formal agreements with the host nation. Local procedures must cover the receiving, processing, and securing of traffic and related incident reports received from other investigative agencies.

4.18. Compliance With Local and State Laws.

4.18.1. Installation commanders must ensure drivers comply with state and local traffic laws when operating government vehicles on or off base.

4.18.1. (MACDILL) Traffic rules applicable to the operation and control of motor vehicles on MacDill AFB are outlined in the Florida State Motor Vehicle Code and the Installation Traffic Code (**Attachment 3**). All vehicle operators shall comply with these rules.

4.18.2. Commanders coordinate with the proper civil law enforcement agency before moving government vehicles or property that require special handling or exceed legal limits such as weight, length, width, or other standards.

4.18.3. Installation commanders should maintain a close liaison with civil enforcement agencies and encourage the following:

4.18.3.1. When possible, the prompt release of government vehicles and operators involved in accidents or incidents.

4.18.3.2. Prompt notice to military authorities when military personnel or drivers of government motor vehicles are involved in traffic accidents or detained for serious violations of civil traffic laws.

4.18.3.3. Prompt notice of any state, local, or host nation action to suspend, revoke, or restrict the driving privileges of personnel assigned to the installation.

4.19. Civil-Military Cooperative Programs.

4.19.1. The State-Armed Forces Traffic Workshop Program is an organized effort to coordinate military and civil traffic safety activities throughout a state or area. Installation commanders should cooperate and provide proper support and participation.

4.19.2. The installation commander should establish a community-installation traffic workshop program to coordinate the installation traffic efforts with those of local communities. Sound and practical traffic planning depends on a balanced program of traffic enforcement, engineering, and education. Civilian and military legal and law enforcement officers, traffic engineers, safety officials, and public affairs officers should take part.

Chapter 5

DRIVING RECORDS AND THE TRAFFIC POINT SYSTEM

5.1. Driving Records. Use SPAS or the AF Form 1313 to record vehicle traffic accidents, moving and parking violations, suspension or revocation actions, and traffic point assessments involving military and DoD civilian personnel, their family members, and other personnel operating motor vehicles on a military installation. In filling out the form, use the following codes in the “accident classification” block:

5.1. (MACDILL) The Reports and Analysis System will be used.

5.1.1. Identify individuals who are principals in a motor vehicle accident as “S” subject or “V” victim.

5.1.2. Identify accidents appropriately with “MVA” minor vehicle accident; “NLD” no liability determined; “PD” property damage; “PI” personal injury; “G” government; “P” private; “V” vehicle; and “FO” fixed object.

Table 5.1. Suspension/Revocation of Driving Privileges (See Notes 1 and 2).

<p>Assessment: 1. Two-year revocation is mandatory on determination of facts by installation commander.</p> <p>Violation: Driving while driver’s license or installation driving privileges are under suspension or revocation.</p>
<p>Assessment: 2. One-year revocation is mandatory on determination of facts by installation commander.</p> <p>Violation: Refusal to submit to or failure to complete chemical tests (implied consent).</p>
<p>Assessment: 3. One-year revocation is mandatory on conviction.</p> <p>Violation:</p> <ol style="list-style-type: none"> 1. Manslaughter (or negligent homicide by vehicle) resulting from the operation of a motor vehicle. 2. Driving or in physical control of a motor vehicle while under the influence of intoxicating liquor 0.10% or greater. <i>Note:</i> Where state or local authority use a more stringent standard (i.e., 0.08 instead of 0.10), Air Force units will assimilate the more stringent standard. 3. Driving a motor vehicle while under the influence of any narcotic or while under the influence of any other drug (including alcohol) to the degree rendered incapable of safe vehicle operation. 4. Use of a motor vehicle in the commission of a felony. 5. Fleeing the scene of an accident involving death or personal injury (hit and run). 6. Perjury or making a false statement or affidavit under oath to responsible officials relating to the ownership or operation of motor vehicles. 7. Unauthorized use of a motor vehicle belonging to another, when the act does not amount to a felony.
<p>Assessment: 4. Suspension for a period of six months or less or revocation for a period not to exceed one year is discretionary.</p> <p>Violation:</p> <ol style="list-style-type: none"> 1. Mental or physical impairment (not including alcohol or other drug use) to the degree rendered incompetent to drive. 2. Commission of an offense in another state which, if committed on the installation, would establish grounds for suspension or revocation.

3. Permitting an unlawful or fraudulent use of an official driver's license.
4. Conviction of fleeing or attempting to elude a police officer.
5. Conviction of racing on the highway.
6. Excessive parking and other non-moving violations as covered under paragraph [2.5.1.1](#).

NOTES:

1. When imposing a suspension or revocation because of an off-installation offense, the effective date is the same as the date of civil conviction or the suspension or revocation date of state or host nation driving privileges. This effective date can be retroactive.
2. No points are assessed solely for revocation or suspension actions. Except for implied consent violations, base revocations on a conviction by a civilian court, military courts-martial, nonjudicial punishment under Article 15 of the UCMJ, or a separate hearing as otherwise addressed in this instruction. If revocation for implied consent is combined with another revocation such as one year for intoxicated driving, revocations may run consecutively (total of 24 months) or concurrently (total of 12 months). Apply the installation commander's policy systematically and not on a case-by-case basis.

Table 5.1. (Added-MACDILL) Suspension/Revocation of Driving Privileges.

<p>Assessment 3</p> <p>(8) (Added). VIOLATION: Operating a vehicle with knowledge of the presence of marijuana or other illegal drugs in vehicle.</p> <p>(9) (Added). VIOLATION: Using a motor vehicle to transport stolen government or private property.</p> <p>(10) (Added). VIOLATION: Accumulation of 12 points within 12 months.</p> <p>(11) (Added). VIOLATION: Accumulation of 18 points within 24 months.</p>
<p>Assessment 4</p> <p>(7) (Added). Suspension for a period of 30 days. VIOLATION: Accumulation of more than 9 points but less than 12 points within 12 months.</p> <p>(8) (Added). Nonmoving violations acquired within a 12 month period will result in the suspension of on-base driving privileges in accordance with the following criteria:</p> <p>First Offense: Action determined by squadron commander/first sergeant.</p> <p>Second Offense: Action determined by squadron commander/first sergeant.</p> <p>Third Offense: 60 day suspension by TVRA.</p> <p>Fourth Offense: 180 day suspension by TVRA.</p> <p>Fifth Offense: 1 year suspension by TVRA.</p> <p>Table 5.1., Assessment 4 (9) (Added). VIOLATION: Speeding in base housing or school zones:</p> <p>First Offense: Revocation of on-base driving privileges for a period of 30 days.</p> <p>Second and subsequent offense: Revocation of on base driving privileges to be determined by the TVRA, but as a minimum will be for a period of 6 months.</p>

5.2. The Traffic Point System. The traffic point system provides a uniform administrative device to impartially judge service personnel's driving performance. This system is not a disciplinary measure or a substitute for punitive action. Further, this system is not intended to interfere in any way with the reasonable exercise of an installation commander's prerogative to issue, suspend, revoke, deny, or reinstate installation driving privileges.

5.3. Point System Application. The use of the point system and procedures prescribed herein are mandatory. The point system applies to civilian personnel operating government vehicles on and off the installation and to their POVs driven on-base. It applies to military personnel operating GOVs and POVs on or off the installation and to dependents, civilian employees, and all other individuals subject to this instruction operating POVs on the installation. Unless an individual submits a rebuttal, assess points according to the **Table 5.2**. Also assess points to individuals found guilty by a military or civilian court, or upon payment of fine or forfeiture of pay and allowances, or posted bond or collateral. Do not use the point system for non-moving violations.

5.3. (MACDILL) The 6 SFS/CC has delegated the Chief, Administration and Reports Flight (6 SFS/SFA), the authority to assess traffic points on DD Forms 1408 and 1805 issued to civilians and military dependents. The number of points assessed will be recorded on the individual's driving record. Suspensions or revocations will also be indicated.

5.3.1. (Added-MACDILL) An individual may rebut a DD Form 1408 by submitting a letter (**Attachment 4**) to his or her commander. If concurred, the letter is endorsed by the commander and forwarded to 6 SFS/CC through 6 SFS/SFAR. If 6 SFS/CC concurs/nonconcur, the letter will be forwarded to the TVRA with recommendations for final determination.

5.3.2. (Added-MACDILL) An individual who disagrees with the findings made by his or her commander on a DD Form 1408 may appeal, in writing, through his or her commander setting forth the grounds for the appeal and attaching statements or other evidence in support of the appeal to 6 SFS/CC through 6 SFS/SFAR. If 6 SFS/CC concurs/nonconcur, the letter will be forwarded to the TVRA with recommendations for final determination.

5.3.3. (Added-MACDILL) Individuals found not guilty in Magistrate Court may rebut a DD Form 1805 by submitting a written appeal (**Attachment 5**) to 6 SFS/CC through 6 SFS/SFAR. If 6 SFS/CC concurs/nonconcur, the letter will be forwarded to the TVRA with recommendations for final determination.

Table 5.2. Point Assessment for Moving Violations (See Note 1).

Violation	Points assessed
Reckless driving (willful and wanton disregard for the safety of persons or property).	6
Owner knowingly and willfully permitting a physically impaired person to operate the owner's motor vehicle.	6
Fleeing the scene (hit and run)-property damage only.	6
Driving vehicle while impaired (blood-alcohol content more than 0.05 percent and less than 0.10 percent or lesser amount when assimilating a local, state, or host nation standard).	6
Speed contests.	6
Speed too fast for conditions.	2
Speed too slow causing potential safety hazard.	2
Failure of operator or occupants to use available restraint system devices while moving (operator assessed points)	4
Failure to properly restrain children in a child restraint system while moving (when child is 4 years of age or younger or the weight of the child does not exceed 50 pounds). See note #3	2
One to 10 miles per hour over the posted speed limit.	3
Over 10 but not more than 15 miles per hour above the posted speed limit.	4
Over 15 but not more than 20 miles per hour above the posted speed limit.	5
Over 20 miles per hour above the posted speed limit.	6
Following too close.	4

Failure to yield the right of way to emergency vehicle.	4
Failure to stop for school bus or school-crossing signals.	4
Failure to obey traffic signals or traffic instructions of an enforcement officer or traffic warden; or any official regulatory traffic sign or device requiring a full stop or yield of right of way; denying entry; or requiring direction of traffic.	4
Improper passing.	4
Failure to yield (no official sign involved).	4
Improper turning movements (no official sign involved).	3
Wearing of headphones/earphones while driving motor vehicles (two or more wheels).	3
Failure to wear an approved helmet and/or eyewear while operating or riding on a motorcycle, MOPED, or a three- or four-wheel vehicle powered by a motorcycle-like engine.	3
Improper overtaking.	3
Other moving violations (involving driver behavior only).	3
Operating an unsafe vehicle (see note 2).	2
Operating a radar detection devices to indicate the presence of speed recording instruments or to transmit simulated erroneous speed (prohibited on DoD installations).	3
Driver involved in accident is deemed responsible (only added to points assessed for specific violations).	1

NOTES:

1. When two or more violations are committed on a single occasion, assess the points for the offense having the greater value.
2. Use this measure for other than minor vehicle safety defects or when a driver or registrant fails to correct a minor defect (for example, a burned out headlight not replaced within the grace period on a warning ticket).
3. Applies to not using or improper use of a child restraint device, i.e., car seat, infant carrier, booster seat, belt/strap modification (when required by manufacturer) etc. Assess four points when no restraint system of any kind is used.

5.4. Point System Procedures.

5.4.1. Reports of moving traffic violations recorded on DD Form 1408 or DD Form 1805 will serve as a basis for determining point assessment.

5.4.1. (MACDILL) Individuals who receive a DD Form 1805 on MacDill AFB will have traffic points assessed against their base driving record and have the option of paying the fine or attending Magistrate Court.

5.4.2. On receipt of DD Form 1408 or other military law enforcement report of a moving violation (e.g., AFI 3545) the unit commander or designated supervisor will conduct an inquiry. The commander will take or recommend proper disciplinary or administrative action.

5.4.3. Distribute citation copies and process point assessments IAW para **4.9**.

5.4.4. Installation commanders may require the following driver improvement measures as appropriate:

5.4.4.1. Advisory letter through the unit commander or supervisor to any person who has acquired six traffic points within a six-month period.

5.4.4.1.1. (Added-MACDILL) 6 SFS/CC will notify the appropriate unit commander and 6 AMW/SE when an individual has accumulated more than 6 points within 6 months.

5.4.4.1.2. (Added-MACDILL) 6 SFS/CC will notify all civilians accumulating 9 points within a 12 month period by a warning letter indicating an automatic suspension for any subsequent moving violation during the 12 month period.

5.4.4.2. Counseling or driver improvement interview by the unit commander of any person who acquires more than six points but less than 12 traffic points within a six-month period.

5.4.4.3. Referral for medical evaluation when a driver, based on reasonable belief, appears to have mental or physical limits that had, or may have, an adverse effect on driving ability.

5.4.4.4. Attendance at driver improvement program (DIP) to improve driving skill, awareness, or attitude.

5.4.4.4. (MACDILL) Unit commanders have the option to send military or Department of Defense (DOD) civilians to Course V, Drivers Improvement, if warranted. When an individual completes Course V, the 6 AMW/SE will notify 6 SFS/SFAR of Course V completion.

5.4.4.5. Referral to an alcohol or drug treatment or rehabilitation facility for evaluation, counseling, or treatment. This action is required for active duty military personnel in all cases in which alcohol or other drugs are a contributing factor to a traffic citation, incident, or accident.

5.4.5. The installation commander may suspend or revoke driving privileges as provided by this instruction regardless of whether these improvement measures are accomplished.

5.4.6. Notify in writing anyone whose driving privileges are suspended or revoked (for one violation or an accumulation of 12 traffic points within 12 consecutive months, or 18 traffic points within 24 consecutive months). Installation commanders determine suspension and revocation periods for offenses not covered in [Table 5.1.](#); however, any revocation must be for a period of 6 months or more. The installation commander may impose a longer suspension or revocation period (to include offenses in [Table 5.1.](#)) based on the person's overall driving record. Consider the frequency, flagrancy, and severity of moving violations, and the response to previous driver improvement measures. In all cases, military members must successfully complete a prescribed course in remedial driver training before reinstatement of driving privileges.

5.4.7. Points assessed against a person remain in effect for point accumulation purposes for 24 consecutive months. Routinely review driver records to delete traffic points during records update while recording new offenses and forwarding records to new duty stations. Completion of a revocation based on points requires removal from the driver record of all points assessed before the revocation.

5.4.8. Removal of points does not authorize removal of driving record entries for moving violations, chargeable accidents, suspensions, or revocations. Recorded entries will remain posted on individual driving records for the period of time indicated below.

5.4.8.1. Chargeable nonfatal traffic accidents or moving violations--three years.

5.4.8.2. Nonmandatory suspensions or revocations--five years.

5.4.8.3. Mandatory revocations--seven years.

5.5. Disposition of Driving Records. Establish procedures to promptly notify the CSP when a person assigned to or employed on the installation is transferred to another installation, released from military service, or ends employment or affiliation with the installation.

5.5.1. If persons transferred to another Air Force installation have valid points or other entries on their driving records, the CSP must forward the records to the CSP of the gaining installation. The gaining CSP should coordinate with applicable commanders and continue any Air Force suspension or revocation based on intoxicated driving or accumulation of traffic points. Traffic points for persons transferred will continue to accumulate as specified in para **5.4.7**.

5.5.2. Follow AFI 37-138, *Records Disposition--Procedures and Responsibilities*, and AFMAN 37-139, *Records Disposition Schedule*, to maintain and destroy records of military personnel released from active duty. Driving records remain active in the case of immediate reenlistment, change of officer component, or military and civilian retirement when continued vehicle registration is authorized. Retain or destroy according to AFMAN 37-139 records on civilian personnel who are terminating on-base employment or on-base registration.

5.5.3. Forward driving records of military family members containing point assessments or other entries to the sponsor's gaining installation and review in the same manner as for service members. Retain driving records of retirees electing to retain installation driving privileges. Do not delete points accumulated or entries on the driver record regarding suspensions, revocations, moving violations, or chargeable accidents from the driver records except per para **5.4.7** and **5.4.8**.

Chapter 6

IMPOUNDING PRIVATELY OWNED VEHICLES

6.1. General. This chapter provides the standards and procedures for law enforcement personnel when towing, inventorying, searching, impounding, and disposing of POVs. This policy is based on:

6.1.1. The interests of the Air Force in crime prevention, traffic safety, and the orderly flow of vehicle traffic movement.

6.1.2. The vehicle owner's constitutional rights to due process, freedom from unreasonable search and seizure, and freedom from deprivation of private property.

6.2. Standards for Impoundment.

6.2.1. You should not impound a vehicle unless it interferes with traffic, threatens public safety or convenience, is involved in criminal activity, contains evidence of criminal activity, or is stolen or abandoned.

6.2.2. The impoundment of vehicles is inappropriate if other reasonable alternatives exist. When possible, attempt to locate the owner of the POV and have the vehicle removed. If reasonably feasible, allow another responsible person to drive or tow the POV, if they first have permission from the owner, operator, or person empowered to control the vehicle. However in such cases, the security police (or towing contractor) is not responsible for safeguarding the vehicle.

6.2.3. Impounding of POVs is justified when any of the following conditions exist:

6.2.3.1. The vehicle is illegally parked:

6.2.3.1.1. On a street or bridge, in a tunnel, or is double parked and interferes with the orderly flow of traffic.

6.2.3.1.2. On a sidewalk, within an intersection, on a crosswalk, on a railroad track, in a fire lane, or is blocking a driveway so that the vehicle interferes with operations or creates a safety hazard to other roadway users or the general public.

6.2.3.1.3. When blocking an emergency exit door of any public place.

6.2.3.1.4. In a "tow-away" zone that is so marked with signs.

6.2.3.2. The vehicle interferes with or is involved in one of the following:

6.2.3.2.1. Street cleaning or snow removal operations after attempts to contact the owner fail.

6.2.3.2.2. Emergency operations during a natural disaster, fire, or other emergency.

6.2.3.2.3. The vehicle was used in a crime or contains evidence of criminal activity.

6.2.3.2.4. The owner or person in charge of the vehicle is apprehended and therefore unable (or unwilling) to arrange removal of the vehicle.

6.2.3.2.5. The POV is mechanically defective and is a menace to others using the public roadways.

6.2.3.2.6. The POV is disabled by a traffic accident and the operator is unavailable or physically incapable of having the vehicle towed to a place of safety for storage or safekeeping.

6.2.3.2.7. Law enforcement personnel reasonably believe the vehicle is abandoned.

6.3. Towing and Storage.

6.3.1. The Air Force or a contracted wrecker service may tow and store impounded POVs depending on availability of towing services and the local commander's preference.

6.3.2. The installation commander designates a securable enclosed area on the installation for use as an impound lot. You may use an impoundment area belonging to a contracted wrecker service provided the area is reasonably secure. The CSP approves contractor impoundment areas and maintains keys for all on-base impoundment areas.

6.3.2. (MACDILL) The Security Forces Impound Lot is designated the impoundment lot on MacDill AFB.

6.3.3. Impound or tow POVs for appropriate violations of the installation traffic code or involvement in criminal activities under the direct supervision of law enforcement personnel.

6.3.4. (Added-MACDILL) The towing of one privately owned vehicle (POV) by another is permitted only with a tow bar. Sufficient warning devices must be displayed indicating a vehicle is being towed.

6.4. Procedures for Impoundment.

6.4.1. Unattended POVs.

6.4.1.1. Conspicuously place DD Form 2504, **Abandoned Vehicle Notice** (See DODD 5525.4), on POVs considered abandoned or improperly unattended. Document this action with an entry in the security police blotter.

6.4.1.2. Allow the owner three days from the date the POV is tagged to remove the vehicle. Have the vehicle towed if it's not moved within the allotted time. If a contracted wrecker service is used, complete a DD Form 2505 according to local procedures.

6.4.1.3. After the vehicle is removed, security police or the contractor completes the DD Form 2506, **Vehicle Impoundment Report** (See DODD 5525.4), as a record of action taken.

6.4.1.3.1. Law enforcement personnel or the towing contractor conduct an inventory listing personal property. Do not open closed containers such as a suitcase unless necessary to identify the owner or if the contents might present a danger to the public. In most cases, listing the container and sealing it with security tape will suffice.

6.4.1.3.2. Place personal property in a secure area for safekeeping.

6.4.1.4. Forward DD Form 2507, **Notice of Vehicle Impoundment** (See DODD 5525.4), by certified mail to the address of the last known owner of the vehicle to advise the owner of the impoundment action and request information concerning the owner's intentions concerning the vehicle.

6.4.2. Stolen POVs or vehicles involved in criminal activity.

6.4.2.1. Keep vehicles in Air Force custody when holding them for evidentiary purposes. Release recovered stolen POVs to the registered owner, unless held for evidentiary purposes, or to the law enforcement agency reporting the vehicle stolen, as appropriate.

6.4.2.2. At times, civilian law enforcement or civilian government agencies will request the Air Force impound an on-base vehicle for reasons not related to military issues. Staff such requests through the Staff Judge Advocate and CSP. When appropriate, comply and support such requests and impound the vehicle for a reasonable period. Release the vehicle if civil authorities do not take custody of the vehicle within a reasonable period as determined by the installation commander.

6.5. Search Incident to Impoundment Based On Criminal Activity. Search of a POV in conjunction with impoundment based on criminal activity will likely occur in one of the following general situations:

6.5.1. The owner or operator is not present. This situation could arise during traffic and crime-related impoundments and abandoned vehicle seizures. Do not search the vehicle unless evidence or contraband is in plain view or is readily discernible on the outside as evidence of criminal activity. When in doubt, obtain proper search authority before searching.

6.5.2. The owner or operator is present. This situation can occur during a traffic or criminal incident or if the operator is apprehended for a crime or serious traffic violation and sufficient probable cause exists to seize the vehicle. In some cases, the operator is present but is unwilling, incapacitated, or otherwise unable to make adequate arrangements to safeguard the vehicle. As a general rule, you may search vehicles without search authority when there is a reasonable danger to police or public, there is a risk of loss or destruction of evidence, or the search is reasonable under rules governing search incident to apprehension.

6.6. Disposition Of Vehicles After Impoundment.

6.6.1. When a vehicle is impounded, hold it for as long as necessary for evidentiary, law enforcement, or other legal purposes. Unless directed otherwise by competent authority, release vehicles and property when no longer needed for one of the reasons stated above. Review Title 10, USC 2575, *Disposition of Unclaimed Property*, and DoD Directive 4160.21-M, *Defense Reutilization Marketing Manual*, (when DRMO is used) before taking action to dispose of vehicles not claimed by the owner or an authorized agent.

6.6.2. A vehicle is considered abandoned 60 days after making reasonable good faith efforts to contact the owner or when the owner is contacted and fails to take appropriate steps to assume responsibility for the vehicle. When owners decline to recover their vehicles, attempt to secure release of the vehicle by having the registered owners complete and sign the DD Form 2507. The 60-day waiting period does not apply when the owner releases the vehicle to the Air Force on DD Form 2507, signed letter, power of attorney, or other legally recognized document.

6.6.2.1. Once the vehicle becomes the lawful possession of the Air Force, process the vehicle as abandoned property in accordance with local procedures. Unless otherwise directed, installation commanders have considerable latitude in determining the best use for, or disposal of, abandoned property. Scrap, auction, or use to support Morale, Welfare, and Recreation (MWR) activities are potential options. Consider local, state, or if applicable, host nation requirements. If you process vehicles through the Defense Reutilization Marketing Office (DRMO), follow applicable DRMO and DoD directives.

6.7. Forms Prescribed.

- 6.7.1. AF Form 75, Visitor/Vehicle Pass
- 6.7.2. AF Form 533, Certificate of Compliance - Private Motor Vehicle Registration
- 6.7.3. AF Form 787, Handicapped Person Vehicle Decal
- 6.7.4. AF Form 1313, Driver Record
- 6.7.5. AF Form 2219M, Registered Vehicle Expiration
- 6.7.6. AF Form 2293, US Air Force Motor Vehicle Operator Identification Card
- 6.7.7. DD Form 1408, Armed Forces Traffic Ticket
- 6.7.8. DD Form 1805, United States District Court Violation Notice
- 6.7.9. DD Form 1920, Alcohol Influence Report
- 6.7.10. DD Form 2220, DOD Registered Vehicle Decal

RICHARD A. COLEMAN, Brigadier General, USAF
Director of Security Forces

Attachment 2**IC 2000-1, TO AFI 31-204, AIR FORCE MOTOR VEHICLE TRAFFIC SUPERVISION****14 JULY 2000****SUMMARY OF REVISIONS**

This revision incorporates Interim Change (IC) 2000-1. It makes changes to paragraph **4.9.3**. A bar (|) indicates revision from previous edition. See the last attachment of the publication for the complete IC.

4.9.3. Issue traffic violators on military installations a DD Form 1408, Armed Forces Traffic Ticket, or a DD Form 1805, United States District Court Violation Notice. The CSP determines who is authorized to issue those forms and what training they must complete before issuing either form. The DD Form 1408 is issued to *the following personnel: active duty personnel, Cadets/Midshipmen of the Military Academies to include the Coast Guard Academy, reservists on orders or performing inactive duty training including commuting to and from training, and guardsman in federal service under Title 10 of the United States Code. Title 10 status is reflected on the guardsman's orders.* Issue civilians the DD Form 1805, or the DD Form 1408 when a US Magistrate system is not available.”

Attachment 3 (Added-MACDILL)**INSTALLATION TRAFFIC CODE****INSTALLATION TRAFFIC CODE**

The following rules and regulations shall govern the operation of motor vehicles, bicycles, and traffic control within the jurisdictional limits of MacDill AFB. In cases not specifically covered by this supplement, that portion of the Florida State Motor Vehicle Code which covers the traffic violation shall apply by assimilation as provided by Title 18, United States Code, Section 13. AFI 31-204, as supplemented, and the Florida State Motor Vehicle Code are directive in nature and prescribe a uniform traffic code. It is applicable to all military personnel and civilians who are assigned/attached to, employed/residing on, visiting and/or entering MacDill AFB. Violators will be dealt with in accordance with AFI 31-204, as supplemented, AFI 91-207, The US Air Force Traffic Safety Program, MACDI 10-103, Vehicle Operations on the Flightline, Federal Statutes, and/or the Uniform Code of Military Justice.

V	Driving on Streets and Roadways
VI	Parking
VII	Operation of Motorcycles
VIII	Speed Limits
IX	Bicycles and Other Manually Operated Vehicles
X	Pedestrians
XI	Miscellaneous
XII	Installation Entry Requirements

ARTICLE I - Accident Reporting and Investigations

1. The driver of a vehicle involved in any accident shall, if physically and mentally capable, immediately report such accident to the Security Forces Control Center (SFCC). When the driver of such a vehicle is physically and/or mentally incapable of giving an immediate report as required and there is another occupant in the vehicle capable of reporting the accident, then he or she shall be responsible for notifying the Security Forces.

1.1. Anyone initially arriving at an accident scene before any Emergency Response Units shall be responsible for stopping and rendering aid to any injured person and notifying the Security Forces.

1.2. The SFCC will dispatch appropriate Security Forces units to accomplish accident investigative and management measures. Minor accidents not involving Security forces response need to be reported to the Security Forces Control Center. A blotter entry will be accomplished to include the accident type, time and date, location, name(s) of vehicle operator(s) unit (or address when civilian not affiliated with military), vehicle description, and license number(s), and a brief summary of any damage and circumstances behind or causing the accident.

2. The driver of a vehicle involved in an accident resulting in injury or death to any person or damage to any vehicle shall immediately stop the vehicle at the scene of the accident and notify the SFCC. The driver will remain at the scene of the accident until all requirements of the accident investigation have been satisfied and Security Forces have released all individuals involved.

2.1. Major vehicle accidents will be defined as:

2.1.1. Disabling damage to a POV/GOV requiring towing.

2.1.2. Accidents that are difficult to explain (i.e., no correlation between damage and accident, chain-of-events, arson suspected, fraudulent claim anticipated, etc.).

2.1.3. Major vehicle accidents will be fully investigated by Security Forces personnel and reported on AF Form 1315, Accident Report.

ARTICLE II - Troop Movements

1. Troop movements/formations will use the extreme right side of the roadway and move with the flow of traffic.
2. At intersections, road guards will be posted at least 25 yards prior to the formation reaching the intersection.
3. During the hours of darkness or reduced visibility, a reflective vest, belt, or traffic wand will be used by all personnel positioned on the perimeter ranks (flanks, front and rear), and by all those performing duties as road guards.
4. Vehicles approaching a troop movement will reduce speed to 10 miles per hour (mph) and pass only on the command of the troop commander.

ARTICLE III - Abandoned/Impounded Vehicles

Any vehicle on MacDill AFB will be deemed to be abandoned if it 1) is not in an operational condition; 2) fails to meet all base/state registration and insurance requirements; 3) has been parked in the same location for longer than seven calendar days without approval of the Security Forces Investigation Section. A vehicle that meets the above mentioned criteria will be cited by Security Forces personnel utilizing a DD Form 1408, Armed Forces Traffic Ticket, and a DD Form 2504, Abandoned Vehicle Notice. If the vehicle has not been removed within 72 hours, a DD Form 2506, Vehicle Impoundment Report, is accomplished and an off-base towing company is notified to remove the vehicle. Upon arrival of the towing company, a blotter entry is accomplished and the vehicle is removed from the installation. The towing company is responsible for following Florida State Statutes 715.05 and 715.109 to locate the owner and/or dispose of the vehicle. In the event a vehicle is determined by the 6 SPTG/CC to be a hazard or force protection concern, it may be immediately removed from the installation using an off-base towing company. The registered owner of the vehicle is responsible to the civilian towing company for any and all charges associated with the expense of towing the vehicle.

ARTICLE IV - Driving Under the Influence/Driving While Impaired

1. It is unlawful for any person in a vehicle, motorized or other, operated on MacDill AFB to have an open container of an alcoholic beverage in his or her possession.
2. If an active duty military member detained for suspected driving under the influence (DUI) refuses a chemical test of breath, blood, urine, or any combination thereof, after an AF Form 1176, Authority to Search and Seize, has been authorized, the individual will be advised they are being charged under Article 92, Uniform Code of Military Justice (UCMJ) for failure to obey a lawful order. Investigating Security Forces personnel will accomplish the appropriate documentation to substantiate the DUI, i.e., DD Form 1920, Alcoholic Influence Report, AF Form 1168, Statement of Suspect/Witness/Complaint, and an AF Form 3545, Incident Report. Civilians are not subject to our search and seizure laws governed by the UCMJ, therefore, if they should refuse a chemical test of their breath, a DD Form 1920 and AF Form 3545 will be accomplished and the individual issued a DD Form 1805, United States District Court Violation Notice.
3. Active duty personnel and civilians apprehended for DUI will be processed using AF Form 3545. Commanders will take appropriate action utilizing AF Form 3545, DD Form 1920, and AF Form 1168.

ARTICLE V - Driving on Streets and Roadways

1. Drivers entering MacDill AFB during the hours of darkness are required to use their parking lights or daylight running lights when approaching MacDill AFB entrance gates. Motorcycles, motor scooters, and motorized bicycles that do not have parking lights will use their low beam headlights when approaching entrance gates.

2. No person will be transported in or on a vehicle while in a standing position, except in buses where suitable handholds are provided. When riding in the cargo compartment of a pickup truck, personnel will be seated on the floor, fasten their seatbelt (if installed), and remain seated until the vehicle is properly parked or stopped. The number of personnel riding in a passenger car, station wagon, carry-all, or cab of a truck shall not exceed the number prescribed for the said vehicle or the number of seatbelts installed. Seatbelts will be used at all times when a GOV or POV is in motion.

NOTE: Owners of those vehicles manufactured prior to 1966 without seatbelts are strongly encouraged to have seatbelts installed for their own safety.

3. Riding on the outside of vehicles is permitted only when specific authorization is noted in USAF Instructions or Technical Orders (Fire Dept., etc.).

4. All vehicles carrying a load that exceeds the end of the vehicle by 3 feet must have a red flag attached to the end of the load.

5. Driving on an unpaved area is permissible only under conditions where leaving the paved surface is necessary to avoid obstructions on the road or when directed by Security Forces personnel.

6. No vehicle will be operated with only its parking lights illuminated during the hours of darkness.

7. Emergency vehicles will not be operated in any manner that endangers personnel or property. Emergency vehicles have the right of way when using emergency equipment (lights/sirens). For the purpose of this supplement, the term "Emergency Vehicle" applies only when these vehicles are responding to an emergency or exercise with appropriate emergency devices in use.

8. Off-road vehicles (dirt bikes, all terrain vehicles (ATV), etc.) will not be operated on MacDill AFB except as outlined in Article VII, para 8, and Article XI, para 6.

9. Traffic Complaints: Personnel witnessing an individual violate a traffic law may file a traffic complaint with the SFCC. The traffic complaint will be forwarded to 6 SFS/SFAR and, if known, to the individual's commander. Three traffic complaints on the same individual from different complainants are grounds for a suspension of driving privileges. The TVRA will determine period of suspension.

ARTICLE VI - Parking

1. Parking is authorized only in areas clearly laid out or marked off on paved areas by paint, barriers, cones, signs, and/or at the direction of Security Forces personnel. Parking on unpaved areas is not authorized except during designated special events.

2. All curb parking will be parallel to the direction of traffic flow and only when there is a painted parking space on the pavement, with the exception of base housing where parking is in accordance with base housing regulations.

3. Parking is prohibited:

3.1. Within 15 feet of a fire hydrant, except emergency vehicles performing official duties.

3.2. In a reserved space of another.

3.3. In a handicapped space without handicapped permit issued to said person or without authorized person present.

3.4. In areas painted with diagonal lines.

3.5. In front of a garage or cubicle unless it is assigned to the vehicle operator.

4. Two-wheeled motor vehicles may park in "No Parking Areas" at the end of parking lanes so as not to impede the flow of traffic. Four-wheeled vehicles will not park in these spaces.

5. Recreational vehicles (RV) (defined as boats, jet skis, trailers regardless of size, unlicensed or license expired, 2/3/4 wheeled off-road vehicles (except properly base registered off-road only vehicles), campers, unmounted campers/camper shells (for pickup trucks), motor-homes of all sizes, trucks other than pickups, and any vehicle that is inoperable or "awaiting restoration") will not be parked on streets in base housing, dormitory and lodging parking lots except as follows:

5.1. When properly registered on base and used as a primary vehicle by the owner. Motor homes, campers, boats, and trucks, other than pick-ups, may be parked in the housing area for immediate packing and unpacking after a leave period.

5.2. Personnel will park their oversized vehicles or trailers that are not attached to their vehicles in the temporary parking lot located on the south side of Marina Bay Drive between the Combat Arms Training Range and the Coon's Creek Pavilion Area.

5.2.1. The RV lot is for recreational vehicles only. Boxed or loose items must be kept inside the vehicle and not on the ground.

5.2.2. Assignment of spaces to the RV and dry boat marina lots is controlled by Coon's Creek Recreation Office. Each individual will be issued a key card to gain access to the storage lots. The SFCC will be issued a key card for emergency use only.

5.2.3. Military personnel living in family housing and the mobile home park must remove their vehicles from the RV lot prior to final housing inspection. Military personnel residing in the dormitory must contact Coon's Creek Recreation Office and arrange removal of their vehicle prior to out-processing.

6. All reserved parking spaces are approved by the 6 SPTG/CD after coordination with his or her advisors for the traffic supervision program. Designated reserved numbers will be controlled and maintained by 6 CES/CEC. EXCEPTIONS: United States Special Operations Command (USSOCOM) and United States Central Command (USCENTCOM) establish procedures for requesting, approving, marking, and controlling reserved parking areas around their facilities. Reserved parking spaces will be authorized at the respective duty locations for the following: Unit commanders; first sergeants; Wing Command Chief; Group Executive Support Noncommissioned Officer (NCO); officers and civilian personnel of equal rank who hold a two-letter office symbol; the senior E-9 of an organization; official government vehicles; units wishing to provide recognition to outstanding performers may designate spaces for "NCO and Airman of the Quarter," or other award winners (these designated parking spaces may be obtained by re-designating a previously designated space through coordination with the 6 SFS/SFO; handicapped personnel who are qualified for and have affixed to their vehicle the handicapped decal; and carpools. The following procedures apply for control and marking:

6.1. Personnel requesting reserved parking spaces will submit an AF Form 1768, Staff Summary Sheet, to 6 SPTG/CD through his or her traffic program advisors. Requests must show justification and a diagram attached of the location on standard size bond paper to include the name, rank, duty title, and office symbol of the requester. Requests must have prior coordination through the affected building custodian. The requester will also attach a prepared AF Form 332, Base Civil Engineer Work Request, requesting a bumper block marked with the word "RESERVED". Upon request approval, the 6 CES/CEC will assign a number to be placed in the appropriate assigned parking slot. 6 CES/CEC will maintain and update the listing of all assigned reserved parking spaces and forward a copy to 6 SFS/SFO when updates are made.

6.2. Units, sections, and agencies may reserve "Off-Street" parking spaces for loading as necessary to their operation; however, these zones will not impede the flow of traffic. Loading zones shall be clearly marked with

yellow diagonal lines on pavement or by signs stating, "No Parking/Loading Zone." Organizations will coordinate with 6 SFS/SFO and 6 CES/CEC prior to marking the area.

6.3. Units, sections, or agencies will not (except as authorized herein) reserve or otherwise prohibit parking in any authorized or designated parking space.

6.4. Reserved parking spaces are not transferable. When an organization moves to a new location, requests for reserved parking spaces must be resubmitted as prescribed above, and existing signs and/or markings removed.

6.5. During visits by higher headquarters, temporary signs may be posted with the following terminology: "Reserved for Inspector," or "Inspector General," or other similar terminology.

ARTICLE VII - Operation of Motorcycles

1. Headlights will be turned on when the motorcycle is in motion.
2. A rear view mirror will be attached to at least one side of the motorcycle.
3. Operators and passengers must wear a protective helmet. (Helmets must be properly worn and fastened and meet standards of the Snell Memorial Foundation, the American National Standards Institute, or the Department of Transportation.) Operator and any passenger must wear impact resistant goggles or a full-face shield on their helmet. Tinted eye protection will not be worn during the hours of darkness. Soft pliable footwear such as sandals, shower clogs, etc., is not authorized.
4. Persons riding on a motorcycle will ride on permanently affixed regular seats. No more than one passenger will be carried on any motorcycle or scooter with passenger accommodations. Passengers are not allowed on mopeds.
5. All motorcycles will be equipped with a functional front brake and fender.
6. Foot pegs or floor boards will be used by the operator and passenger.
7. Motorcycles will not be operated more than two abreast in a single lane of traffic.

EXCEPTION: Contractors operating motorcycles on Air Force installations must be licensed and must comply with all installation safety requirements, except training.

ARTICLE VIII - Speed Limits

1. The speed limit on MacDill AFB is 25 mph unless otherwise posted.
2. The maximum speed limit in parking lots is 5 mph.
3. The maximum speed limit while backing is 5 mph.
4. The maximum speed limit in the Base Housing areas is 15 mph.
5. The maximum speed limit in the Hangar Loop Industrial Complex area is 25 mph.
6. Speed limits for special purpose vehicles operating on the aircraft parking ramp and hangar area are specified in MACDI 10-103, Vehicle Operations on the Airfield. The speed restrictions are enforceable under provisions of that instruction.
7. The authority for emergency vehicles to exceed the posted speed limit during actual emergency situations rests with owning units. At no time will speeds exceed 10 mph over posted speed limits. **NOTE:** No vehicle will exceed the speed limit during exercise situations.

ARTICLE IX - Bicycles, Roller Blades, Scooters, and Other Manually Operated Vehicles

1. Operators of these devices must wear an approved helmet. A helmet is considered approved if it is from an organization such as American National Standards Institute (ANSI) or Snell Memorial Foundation.
2. Operators will not wear headphones, earplugs, or any other device, which impairs hearing.
3. Operators are prohibited from holding on to any vehicle in motion. Allowing animals to pull users of these devices on the street or sidewalk presents a safety hazard and is prohibited.
4. These devices will not be parked on sidewalks so as to obstruct doorways or impede pedestrian traffic.
5. During hours of darkness, bicycles will be equipped with and use working headlights and taillights/approved reflectors.
6. Organizational bicycles (government owned) are permitted on the aircraft parking aprons. Privately owned bicycles are prohibited from the flight line area. NOTE: All bicycles are prohibited from taxiways and runways.
7. Roller blading, skate boarding, and other similar devices are permitted only on the jogging path and sidewalk in base housing. Also, in addition to an approved helmet, operators of the types of devices must wear protective knee and elbow pads.

ARTICLE X - Pedestrians

1. Pedestrians will use the jogging path or grass area directly parallel to it when jogging. Joggers will not run on the flight line without clearance through the 6th Operational Support Squadron, Airfield Operations.
2. Pedestrians will use crosswalks, if available, when crossing streets. Pedestrians have the right-of-way when in marked crosswalks.
3. Pedestrians will not walk or jog on any vehicle roadway while wearing headphones. Headphones may be worn on the jogging path, but will be removed when crossing any roadway or street.

ARTICLE XI - Miscellaneous

1. The owner of a motor vehicle will be the subject in all vehicle complaints where the operator of said vehicle cannot be determined.
2. Erection, removal, destruction, or tampering with any traffic sign, signal, or device is prohibited without the prior approval of 6 SFS/CC and the installation traffic engineer. Unresolved differences will be brought before the TVRA.
3. No person shall throw or leave litter, garbage, debris of an accident, or refuse on or about a roadway, parking lot, or any other area, except in designated receptacles. Those observed littering shall be cited, and military members may be subject to punitive action under the UCMJ. Civilians could be barred from base and/or issued DD Form 1805.
4. The owner of a defective vehicle will be issued a DD Form 1408 or 1805 with instructions to repair the vehicle and report to the SFCC in Building 528 within 72 hours. If the defect has been corrected, it will be annotated on the traffic ticket and forwarded to 6 SFS/SFAR for information. If the defect is not corrected, the ticket will be processed.
5. No person will drive any vehicle in any race, speed competition or contest, drag or acceleration contest, test of physical endurance, exhibition of speed or acceleration, or participate in any such race, competition, contest, test, or exhibition unless the event is authorized by 6 SPTG/CC.

6. The following guidelines apply to the use of ATVs on MacDill AFB:

6.1. Operators will attend an approved ATV training course prior to operating the ATV on the installation.

6.2. ATVs used on the hard surface will:

6.2.1. Be restricted to a maximum speed of 25 mph.

6.2.2. Have commercial hard-surface tires installed.

6.2.3. Have a slow-moving vehicle sign displayed on the rear of the vehicle.

6.2.4. Not be operated within 50 feet of any flammable/combustible operation or storage facility.

6.2.5. Only tow accessories as specified by the vehicle manufacturer.

6.3. Operators will wear a helmet that meets or exceeds Department of Transportation specifications and proper eye protection (i.e., full face shield, goggles, or impact resistant eyeglasses).

7. The installation traffic engineer or traffic coordinating group may direct the use of official traffic control devices (i.e., electronic or traffic control points) to be placed that would change the normal flow of traffic temporarily or for special events. When such devices are in place, no motor vehicle operator will operate a vehicle other than directed by such devices.

ARTICLE XII - Installation Entry Requirements

1. Individuals that do not have a valid DD Form 2220 or AF Form 75 for their vehicle will be stopped prior to entering the installation. The installation entry controller will request from the driver approved credentials that authorize him or her to enter the base.

1.1. If the individual does not possess valid credentials, he or she will require a sponsor and must be vouched onto the installation.

1.2. If the operator is in possession of valid credentials, he or she will be required to register the vehicle with Security Forces prior to entering the installation.

2. Installation Registration Requirements: Vehicle registration is required for the following authorized identification card holders living on or near MacDill AFB who utilize base facilities. NOTE: The word "near" is defined as living within 200 miles of the installation if no other military installation is closer.

2.1. Active duty personnel and dependents.

2.2. USAF, Non-Appropriated Fund (NAF), Department of Defense (DOD), Department of Transportation (DOT) and Department of Commerce (DOC) civilians permanently employed on the MacDill AFB.

2.3. Retired military personnel and dependents.

2.4. Reserve and National Guard personnel and dependents from all branches of the Armed Forces.

2.5. Surviving spouses and dependents of deceased active duty and retired military members.

2.6. Retired DOD civilians.

2.7. Hillsborough County School District staff employed at Tinker Elementary.

2.8. Long term contractors assigned to the 6 AMW, USSOCOM, and USCENCOM.

3. All other vehicles not displaying a valid DD Form 2220 are required to display a valid AF Form 75.
