AFMAN 23-110, Volume 2, Part 2, Chapter 7, is supplemented as follows: This supplement prescribes specific guidance for all McGuire AFB supply users/customers.

SUMMARY OF REVISIONS

Changes have been made to bring this supplement into compliance with Air Force standards, update office symbols and change the reference for paragraph 7.9.4. **A bar (|) indicates revision from the previous edition.**

7.3.1. Each Flight Commander/Chief will be actively involved in ensuring rejects are cleared before they become delinquent.

7.9.2.4. (Added) Primary/Alternate Flight Reject Monitors will be appointed in writing. Passwords for Program D818, Cumulative Reject Processor, will only be issued to those individuals. **NOTE:** Each reject monitor in LGRD and LGRV will be assigned a password to clear rejects, since some sections/elements are geographically separated from the main supply complex.

7.9.4. Flight Commanders/Chiefs will review Part Nine of the Daily Supply Surveillance Report (D20) for suspected abuse in force deleting rejects. After review, maintain the listing for 30 days. Reference AFMAN 23-110, Vol 2, Part 2, Chap 2, Para 42.1-42.2.

7.19.2.3. Flight Commanders/Chiefs must review the "Reason Why" phrase prior to processing the delete reject option. The Flight Reject Monitor will enter the transaction serial number when processed under a different document number.
