Pages: 12
Distribution: F

AFI 36-2903, 29 September 2002, is supplemented as follows: This supplement applies to all United States Air Forces in Europe (USAFE) personnel. It does not apply to Air Force Reserve or Air National Guard units. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force. HQ USAFE/A1PFP approves all base supplements to this instruction and USAFE supplement prior to being published. Units must send drafts supplements along with AF Form 673, **Request to Issue Publication**, to HQ USAFE/A1PFP, UNIT 3050 BOX 25, APO AE 09094-5025. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with Air Force Manual 37-123, *Management of Records*, and disposed of in accordance with the Air Force Records Disposition Schedule (RDS).

SUMMARY OF REVISIONS

This document is substantially revised and must be completely reviewed.

This supplement incorporates some requirements, information, and procedures from the previous USAFE Supplement, dated 7 Aug 96. Deletes reference to phase out of the aircrew style name patches (ASNP) on BDUs. Deletes reference to wear of the metal insignia on the Gortex™ jacket. Deletes reference to the wear of the cloth command emblem on the Hospital White Uniform. Updates attachment numbers in accordance with the basic regulation. Deletes authorization to wear the Space and Missile Crew Uniform effective 1 September 2002. Outlines wear of organizational baseball caps. A bar [] in the left margin indicates an addition or revision of the previous edition.

Table 1.1. Commanders' Responsibilities.

Installation Commanders will provide wear instructions for authorized functional clothing in the local base supplement. Supplements must be coordinated through Military Personnel Programs Section (HQ USAFE/A1PPF), prior to publication (also see item number 7.2.2. of this supplement).

Table 1.3. NOTE 5. (Added)

The FDU or BDU may be worn to off-base establishments to include short convenience stops and eating at fast food restaurants. Members will not wear these uniforms to off-base establishments for extended shopping, dining, socializing, or to take part in any entertainment.

Table 1.3. NOTE 6. (Added)

When attending formal military events such as promotion ceremonies, changes of command, retirement and award ceremonies, dining-in/outs, and receiving distinguished visitors, the appropriate blues combination, service or mess dress should be worn. The same applies when attending special events (conferences, conventions, symposiums, meetings, and so forth) where the normal civilian dress would make it more appropriate for members to wear a comparable uniform.

Table 1.3. NOTE 7. (Added)

If FPCON CHARLIE or higher is declared, the uniform of the day policy for all USAFE personnel command-wide is the BDU or FDU. While in FPCON CHARLIE or higher, either the standard issue BDU cap or the woodland camouflage pattern baseball style cap with subdued rank insignia must be worn.

Table 1.3. NOTE 8. (Added)

Numbered Air Force (NAF) and wing commanders are authorized to establish local uniform of the day guidance consistent with the provisions outlined in AFI 36-2903 and/or this supplement. FOAs and DRUs will wear uniforms appropriate to their duties and environment and as directed by their parent commander/commandant.

Table 1.3. NOTE 9. (Added)

All colonels and above and all command chief master sergeants will wear a blue service uniform combination in accordance with AFI 36-2903, Table 1.3, while traveling TDY at government expense on flights that begin and end within the CONUS, unless otherwise prohibited by AF policy.

Table 1.3. NOTE 10. (Added)

Air Force personnel, when using their frequent flyer miles to upgrade to business or first class, will not wear a uniform or allow a military status/affiliation to be associated with an upgrade.

| Figure 2.10. NOTE 2.

Officers will wear non-subdued (shiny) grade insignia while in garrison and subdued grade insignia when not in garrison. When FPCON CHARLIE or higher has been declared, either the standard issue BDU cap or the woodland camouflage pattern baseball style cap must be worn with subdued grade insignia.

| Figure 2.11. NOTE 3.

Personnel center their respective subdued MAJCOM patch on the right breast pocket. Center a subdued unit emblem on the left breast pocket, except when an approved badge (security police, fire protection, missile, etc.) is worn on this pocket. The approved badge takes precedence. Command and unit patches will be subdued and approximately 3 inches in diameter. Installation commanders designate which unit patch will be worn (e.g., NAF, wing, group, or squadron). Unit emblems must be approved in accordance with AFI 84-105, *Organizational Lineage, Honors and Heraldry*, before they can be worn. Publish information/guidance regarding which unit patch is worn by each assigned organization in the local base supplement to AFI 36-2903. Personnel assigned to HQ USAFE staff will not wear unit patches. Patches will not be worn over the right pocket above the nametape. The only authorized exception is the Honor and Elite Guard Patches. Patches will be sewn on the uniform and not be affixed with Velcro or similar fasteners. Morale Patches are authorized for wear upon USAFE/CC approval. The following are currently approved for wear: Master Crew Chief Patch, Master Technician Patch, Prime Rib Patch, Honor Guard Patch, and the Elite Guard Patch. Requests for development of a new morale patch should be routed through command channels to Commander (USAFE/CC) for approval. Coordination with the MAJCOM functional manager is mandatory for inclusion with the request. Commanders request for morale patches will include guidelines for wear, an explanation of the patch design, and a sketch, drawing, or photo of the proposed patch. Approval for temporary morale patches (i.e. to commemorate an activity, exercise, or special event) is delegated to no lower than the wing commander. Temporary morale patches (competitions), once approved, are only worn 60 days prior to the event and no longer than 30 days after the event. Morale patches will meet the requirements of AFI 84-105, and must not exceed 3 by 3 inches in size, and will be in good taste. A copy of all approved morale patches will be maintained by the local MPF and a copy provided to HQ USAFE/A1PFP. If authorized, morale patches will be centered above the right breast pocket, 1/2 inch above the nametape. When an authorized duty patch (i.e. PME) is worn in this position, a morale patch will not be worn. The duty patch takes precedence.

Figure 2.11. NOTE 4.

Officers may wear either subdued cloth or subdued metal rank insignia. Officers who routinely work or periodically visit the flightline or aircraft maintenance areas must wear subdued cloth rank insignia. Patches will be sewn on and not affixed with Velcro or similar fasteners.

Table 2.1. Line 8, Outer Garments.

Liners of outer garments are not to be worn alone, as they are not authorized as an outer garment.

Table 2.2. Line 6, Headgear.

Hoods of parkas, field jackets, and outer garments are not considered headgear. Therefore, when the hood is being used, appropriate headgear must be worn under the hood.

Table 2.2. Line 6, Organizational Baseball Cap.

Approved organizational baseball caps may be worn while TDY to other USAFE owned bases providing neither the TDY nor its location are related to a contingency. The black or woodland camouflage pattern baseball style caps will be the only style or color designated to be worn as organizational baseball caps. The only authorized exception is the red baseball cap for USAFE RED HORSE and Combat Arms Training personnel. Combat Arms Training personnel are authorized a red baseball cap with white letters "COMBAT ARMS" on the front of the cap. The Combat Arms baseball cap will only be worn when performing duties on the firing range. The designated cap will have approved organizational letters, numerals, badges, emblems, and, or patches affixed to it. All badges, emblems and patches must be in accordance with AFI 84-105. (Note: AFI 84-105, governs the dimensions of badges, emblems and patches; OPR is HQ USAF/HO). Units desiring to wear organizational baseball caps submit requests in writing to the installation commander through the MPF. Include a detailed description of the hat to be worn, complete wear instructions, and specific justification with your request. The MPF will maintain a list of authorized organizational caps. For the black or red cap, organizational letters and numeral colors will be limited to one single color or one color outlined by a different color. The woodland camouflage pattern baseball style cap will have only approved, subdued letters, numerals, badges, emblems, or patches affixed to it. Units can combine organizational letters and numerals with badges, emblems, or patches. Higher HQ coordination/approval is not required. HQ USAFE staff personnel may wear the black cap with the modified USAFE symbol in the center and the words "HQ USAFE" and "Bring Your Courage" centered around the symbol in gold letters. The only other style hat authorized for wear is the standard issue BDU cap or the woodland camouflage pattern baseball style cap. Separate directorate or division caps are not authorized. Unless otherwise restricted by installation supplements, these caps may be worn to off-base establishments to include short convenience stops and eating at fast food restaurants. Members will not wear these caps to off-base establishments for extended shopping, dining, socializing, or to take part in any entertainment. During contingency operations and deployments or when FPCON CHARLIE or higher has been declared, all USAFE personnel (including RED HORSE and Combat Arms organizations) will wear either the standard issue BDU cap or the woodland camouflage pattern baseball style cap.

Table 2.2. Line 7, Outer Garments.

Liners of outer garments are not to be worn alone, as they are not authorized as an outer garment.

Table 2.2. Line 11, Undergarments.

Members of this command are authorized to wear black or brown T-shirts. The long-sleeved black or brown turtleneck shirts, dickies, or white or brown thermal undershirts are also authorized. The olive green sweater or sleeping shirt may be worn under the BDU shirt only. Units desiring to wear organizational T-shirts must submit requests in writing to the installation commander through the MPF. The MPF will maintain a list of authorized organizational shirts.

Table 2.2. Line 12, Accouterments.

Enlisted personnel wear subdued cloth chevrons. Officers may wear either subdued cloth or subdued metal rank insignia. Officers who routinely work or periodically visit the flightline or aircraft maintenance areas must wear subdued cloth grade insignia. Patches will be sewn on and not affixed with Velcro or similar fasteners.

Table 2.2. Line 13, Other.

Installation commanders will prescribe other functional clothing authorized by TA-016 in their base supplements.

Table 2.3. Line 12, Outer Garments.

Liners of outer garments are not to be worn alone, as they are not authorized as an outer garment.

Table 2.4. Line 9, Headgear.

Hoods of parkas, field jackets, and outer garments are not considered headgear. Therefore, when the hood is being used, appropriate headgear must be worn under the hood.

Table 2.4. Line 9, Organizational Baseball Cap.

Approved organizational baseball caps may be worn while TDY to other USAFE owned bases providing neither the TDY nor its location are related to a contingency. The black or woodland camouflage pattern baseball style caps will be the only style or color designated to be worn as an organizational baseball caps. The only authorized exception is the red baseball cap for USAFE RED HORSE and Combat Arms Training personnel. Combat Arms Training personnel are authorized a red baseball cap with white letters "COMBAT ARMS" on the front of the cap. The Combat Arms baseball cap will only be worn when performing duties on the firing range. The designated cap will have approved organizational letters, numerals, badges, emblems, and, or patches affixed to it. All badges, emblems and patches must be in accordance with AFI 84-105. (**NOTE:** AFI 84-105 governs the dimensions of badges, emblems and patches; OPR is Command History Office [HQ USAF/HO]). Units desiring to wear organizational baseball caps submit requests in writing to the installation commander through the MPF. Include a detailed description of the hat to be worn, complete wear instructions, and specific justification with your request. The MPF will maintain a list of authorized organizational caps. For the black or red cap, organizational letters and numeral colors will be limited to one single color or one color outlined by a different color. The woodland camouflage pattern baseball style cap will have only approved, subdued letters, numerals, badges, emblems, or patches affixed to it. Units can combine organizational letters and numerals with badges, emblems, or patches. Higher HQ coordination or approval is not required. HQ USAFE staff personnel may wear the black cap with the modified USAFE symbol in the center and the words "HQ USAFE" and "Bring Your Courage" centered around the symbol in gold letters. The only other style hat authorized for wear is the standard issue BDU cap or the woodland camouflage pattern baseball style cap. Separate directorate or division caps are not authorized. Unless otherwise restricted by installation supplements, these caps may be worn to off-base establishments to include short convenience stops and eating at fast food restaurants. Members will not wear these caps to off-base establishments for extended shopping, dining, socializing, or to take part in any entertainment. During contingency operations or deployments or when FPCON CHARLIE or higher has been declared, all USAFE personnel (including RED HORSE and Combat Arms organizations) will wear either the standard issue BDU cap or the woodland camouflage pattern baseball style cap.

Table 2.4. Line 10, Outer Garments.

Liners of outer garments are not to be worn alone, as they are not authorized as an outer garment.

Table 2.4. Line 14, Undergarments.

Members of this command are authorized to wear black or brown T-shirts. The long-sleeved black or brown turtleneck shirts, dickies, or white or brown thermal undershirts are also authorized. The olive green sweater or sleeping shirt may be worn under the BDU shirt only. Units desiring to wear organizational T-shirts must submit requests in writing to the installation commander through the MPF. The MPF will maintain a list of authorized organizational shirts.

Table 2.4. Line 15, Accouterments.

Officers may wear either subdued cloth or subdued metal rank insignia. Officers who routinely work or periodically visit the flightline or aircraft maintenance areas must wear subdued cloth grade insignia. Patches will be sewn on and not affixed with Velcro or similar fasteners.

Table 2.4. Line 16, Other.

Installation commanders will prescribe other functional clothing authorized by TA-016 in their base supplements.

Table 2.6. Item 4, Bracelet.

Anklets are prohibited while in uniform.

Table 2.8. No-Hat Area.

Installation commanders specify in their base supplements where headgear may be removed (flightline, motor vehicle maintenance compounds, civil engineering shops, etc.). No-hat areas should be designated for mission or safety reasons only, not for convenience. Keep designated no-hat areas to an absolute minimum.

3.1.2. **Functional Clothing Items.** As a minimum, installation commanders provide wear instructions in the base supplement to AFI 36-2903 for the following items:

3.1.2.1. (Added) **Stocking (Navy Watch) Cap.** May be worn during inclement weather (as defined by the installation commander) when the flight jacket, leather A-2 flying jacket, Cold Weather Camouflage Parka (Gortex™), or BDU jacket is worn. Wear the sides of the cap down to cover the ears to the maximum extent possible. Do not wear the cap rolled up on top of the head. The seam of the cap will rest on the crown of the head. The cap may be worn throughout the installation on breaks, lunch, and other quick convenience stops. It will not entirely replace the BDU cap when the BDU cap is more appropriate. The cap may be worn to and from the installation (while traveling in a GOV or POV). The cap will not be worn on stops off-base (i.e., eating or shopping) when you must exit your vehicle.

3.1.2.2. (Added) **Coveralls.** Installation commanders will determine style, accouterments, and authorized wear areas.

3.1.2.3. (Added) **Cold Weather Camouflage Parka (Gortex™).** Wear cloth grade insignia, officer and enlisted, centered on the jacket front tab when in-garrison. Remove or conceal grade insignia during local exercises and contingency operations as directed by the installation commander.

3.1.2.4. (Added) **Cold Weather Camouflage Pants (Gortex™).** Cold Weather Camouflage Pants may be worn during cold and inclement weather.

3.1.2.5. (Added) **Winter Parka.** Installation commanders will determine style, accouterments, and authorized wear areas.

3.1.2.6. (Added) **Reflective Tape, Belts, Jackets, and Arm Bands.** Installation commanders will determine style, accouterments, and required wear areas and times. Reflective belts will be worn securely fastened around the waist or hips.

3.1.2.7. (Added) **Flight Dress Uniforms.** FDUs and jackets are worn as prescribed in Attachment 1.

Table 3.4. NOTE 8. (Added)

USAFE Combat Arms Training personnel are authorized a red baseball cap with white letters "COMBAT ARMS" on the front of the cap. The Combat Arms baseball cap will only be worn when performing duties on the firing range.

4.2.4. (Added) **Foreign Decorations.** Foreign decorations must be approved by HQ USAFE/A1PFP. Wear foreign awards and decorations as prescribed by AFI 36-2903 and the guidance provided by the particular foreign nation. *Do not* modify the uniform to allow the wear of foreign awards or decorations (i.e., addition of buttons or snaps).

4.2.4.1. (Added) **Schutzenschnur (German Marksmanship Award).** This is an award not a decoration. Approval to accept and retain this award is not automatic. Individuals must submit a memorandum with the certificate and citation to HQ USAFE/A1PFP for approval. Upon approval, wear instructions will be provided to the member. Officers and enlisted personnel may receive the award; however, only enlisted personnel are authorized to wear the award.

7.1.2. **Uniform Boards.** A summary of all uniform boards, either Air Force or USAFE, will be provided to each installation mission support squadron commander for use in evaluating local dress and appearance proposals. The summary is furnished for information purposes only and *will not* be used as implementation authority.

7.2.2. **Processing Supplements.** Base supplements are approved by HQ USAFE/A1PFP prior to being published. Drafts with AF Form 673s, **Request to Issue Publication**, are sent to HQ USAFE/A1PFP, UNIT 3050 BOX 25, APO AE 09094-5025.

Attachment 6 (Added)**USAFE AIRCREW FLIGHT DRESS UNIFORMS**

A6.1. (Added) General. The Flight Dress Uniform (FDU) has traditionally identified aircrew members with unique flying duties. Wear sleeves full length (not pushed up) and zip all zippers. When not flying, the Velcro portion of the sleeves may be unfastened and tucked under the sleeve the width of the Velcro fastener. Subdued accouterments, i.e., nametag, command emblem, etc. will be used on all FDUs and jackets by all USAFE aircrews. FDUs will not be substituted for BDUs. Only individuals authorized and issued FDUs, in accordance with TA-016 are authorized FDU wear.

A6.1.1. (Added) **Sanitization.** To ease removal of adornments (sanitization) during wartime or actual periods of increased tension, attach adornments of FDUs with sage green Velcro tape for all aircrew members. Remove all unit identifications from FDUs before flying any combat missions and during exercises. The approval authority for wear of organizational emblems by aircrews in the alert facility/area is delegated to wing commanders.

A6.2. (Added) Flight Jacket. The Nomex™ or the leather A-2 flying jacket may be worn with the FDU. Jackets must be zipped at least halfway. Wear sleeves full length (not pushed up). See AFI 11-402 (formerly AFR 60-13) and AFI 36-2903, Table 3.6, Authorized Individuals, for additional wear instructions on the leather A-2 flying jacket. Liners of outer garments are not to be worn alone, as they are not outer garments.

A6.2.1. (Added) **Cold Weather Camouflage Parka (Gortex™).** Only authorized for wear when weather conditions warrant it and it will only be worn in the immediate vicinity of the aircraft. The Cold Weather Camouflage Parka (Gortex™) will not be worn over the Brown Leather A-2 flight jacket or the Nomex™ flying jacket.

A6.3. (Added) Headgear:

A6.3.1. (Added) **Flight Cap.** Same requirements as listed in Table 2.1, line 11; and Table 2.3, line 15, of the basic instruction for service uniforms.

A6.3.2. (Added) **Stocking (Navy Watch) Cap.** May be worn during inclement weather (as defined by the installation commander) when the flight jacket, leather A-2 flying jacket, Cold Weather Camouflage Parka (Gortex™), or BDU jacket is worn. Wear the sides of the cap down to cover the ears to the maximum extent possible. Do not wear the cap rolled up on top of the head. The seam of the cap will rest on the crown of the head. The cap may be worn throughout the installation on breaks, lunch, and other quick convenience stops. It will not entirely replace the BDU cap when the BDU cap is more appropriate. The cap may be worn to and from the installation (while traveling in a GOV or POV). The cap will not be worn on stops off-base (i.e. eating or shopping) when you must exit your vehicle.

A6.4. (Added) Accouterments:

A6.4.1. (Added) **Velcro Fasteners.** Attach sage green Velcro fasteners as follows: Center a 2 inch by 4 inch rectangular piece on the left breast of the FDU/Nomex™ jacket for placement of the name patch. Center a silhouette shape of the USAFE command emblem on the right breast of the FDU/Nomex™ jacket. Place a 3-½ by 3-½ inch square piece on each sleeve just below the shoulder for authorized organizational/specialty patches.

A6.4.2. (Added) **Rank Insignia.** Officers will have non-subdued (shiny) cloth grade insignia sewn on the shoulder of the flight coveralls and Nomex™ jacket, center grade insignia from the front to the back

of the epaulet, on the shoulder, and 5/8 inch from the shoulder seam. AFI 36-2903, figure 2.12 prescribes placement and size of general officers' stars. Wing, group or geographically separated units (GSU) commanders will standardize wear of either subdued or plastic covered metallic rank insignia. **NOTE:** Mixing subdued cloth and plastic covered metallic grade insignia is not authorized.

A6.4.3. (Added) Nametags. Aircrew members must wear nametags centered over the left breast pocket of flying coveralls and jackets. Limit contents of nametags to appropriate aeronautical badges and aircrew member's name; tactical call signs are prohibited. Name in this instance means first name, last name (full, abbreviated, or initial) may be included. Do not use nicknames (i.e., "Sport, Snake," etc.). Enlisted aircrew member's nametag must also have their grade displayed on the tag. To ensure standardization, wing, group, or GSU commanders specify the type of nametag material, cloth or leather; and unit commanders will specify color. Refer to Table 3.6 (Authorized Individuals) of the basic instruction for wear of the nametag on the leather A-2 flying jacket.

A6.5. (Added) Flight Dress Uniform. For HQ USAFE staff personnel, members may wear the FDU configured for the flying unit to which they are currently assigned.

A6.6. (Added) Organizational Emblems and Specialty Patches. Optional adornments from the emblems listed in paragraphs A1.8 or A1.9 are authorized for wear and may be put on FDUs at the discretion of the wing commander. Standardize optional adornments throughout the wing. Only one emblem may be worn on each sleeve in addition to the Standardization and Evaluation (Stan/Eval) emblem and will be centered below the shoulder seam. Do not cover the pencil pocket.

A6.7. (Added) Command Emblem. Wear the USAFE command emblem on all FDUs, centered above the right breast pocket. The emblem will be similarly located on the Nomex™ flight jacket or the leather A-2 flying jacket. Use only the non-subdued, standard size (3 inch by 3 inch) command emblem.

A6.8. (Added) Authorized Right Sleeve Emblem. A vivid emblem, approximately 3 inches by 3 inches in size, of either the squadron assigned to for flying or the unique emblem of the wing assigned to (if not, emblem of the squadron assigned to).

A6.8.1. (Added) Freedom's Guardian Emblem:

A6.9. (Added) Authorized Left Sleeve Emblem. A vivid emblem, approximately 3 inches by 3 inches in size, of one of the following:

A6.9.1. (Added) The aircraft unique (such as A-15, F-16, etc.) specialty patch.

A6.9.2. (Added) The Aircrew Standardization and Evaluation (Stan/Eval) Emblem. Personnel assigned to HQ USAFE, wing, or group Stan/Eval sections affix the emblem to the left sleeve of the flight coverall/jacket with the top of the emblem even with the shoulder seam.

A6.9.3. (Added) Organization emblem, unit of assignment (HQs, NAF, Wing, Group) (with flight safety patch, if appropriate).

A6.9.4. (Added) AAFCE Tactical Leadership Program Emblem.

A6.9.5. (Added) Fighter Weapons Instructor Course Emblem.

A6.9.6. Residency in Aerospace Medicine Emblem.

A6.9.7. (Added) Critical Care Air Transport Team Emblem.

A6.9.8. United States National Flag Emblem.

A6.9.9. (Added) **Expeditionary USAFE “Light, lean and lethal” Emblem.**

A6.9.10. (Added) **IG’s Inspector General Emblem.**

A6.9.11. (Added) **USAFE North Atlantic Treaty Organization (NATO)/Weapons Competition Team Emblem.** May be worn during preparation for the competitions, during the competitions, and for 6 months thereafter, while assigned to USAFE.

A6.9.12. (Added) **USAFE Safety Patch.** Personnel assigned to HQ USAFE/SE wear the HQ USAFE Safety patch. Wear the patch on the left sleeve of the flight coveralls/jacket with the top of the emblem even with the shoulder seam.

A6.10. (Added) Neckwear. Installation commanders have the authority to establish wear policy to include standardized unit or wing colors for their installations. If scarves are authorized for wear, they will be worn around the neck and tucked in, and the FDU must be zipped to within approximately 3 inches of the neckline. Scarves will not be worn during flight operations.

A6.11. (Added) Socks. White or black; must be plain without design or colored bands.

A6.12. (Added) Footwear. Wear authorized laced or belted black leather flight boots. Installation commanders may authorize wear of jungle boots when not in flight. Flight boots may have zipper inserts.

A6.13. (Added) Undergarments. Appropriate undergarments are mandatory. Undershirts must be v-neck, u-neck, or crew neck. Undershirts may be athletic style, sleeveless, or T-shirt style and must be brown or black in color. Undershirts with pockets are prohibited when wearing the FDU. Black or brown turtlenecks, mock turtlenecks, and dickies may be worn with the FDU.

A6.14. (Added) Other Standard Flight Clothing. Wear gloves, helmets, and other flight clothing as prescribed in USAFEI 11-301, *Life Support Program*.

Attachment 7 (Added)**USAFE SECURITY FORCES (SF) BIKE UNIFORMS**

A7.1. (Added) General. The following bike patrol uniforms are authorized for wear within USAFE. Members will maintain normal dress and appearance standards when wearing the bike patrol uniform.

A7.1.1. (Added) **Authorized SF bike uniforms during warm weather conditions are as follows:**

A7.1.1.1. (Added) **Shirt.** Polo-type shirt with the SF shield embroidered or printed on the left chest area where a pocket would ordinarily be. Shirts will be white or other conservative color, and be standardized within each unit.

A7.1.2. **Shorts.** Blue or black biking shorts with reinforced padding or “coaching type shorts.”

A7.1.3. (Added) **Headgear.** White bicycle helmet, coordinate headgear selection with the local safety office.

A7.1.4. (Added) **Footwear.** Plain white or black sneaker-type shoes.

A7.1.5. (Added) **Protective Clothing.** Issue black leather or plain black biking gloves (if worn).

A7.2. (Added) Authorized SF bike uniforms during cold or inclement weather conditions are as follows:

A7.2.1. (Added) **Jacket.** Yellow rain jacket (if worn).

A7.2.2. (Added) **Shirt.** Long-sleeved shirt (if they conform to the general guidance of paragraph A2.1.1).

A7.2.3. (Added) **Trousers.** Full-length pants may be substituted for the biking shorts.

A7.2.4. (Added) **Jacket.** The SFs jacket may be worn when wearing full-length pants.

A7.3. (Added) Current SFs uniforms are authorized for bike patrols.

ED KRINGER, COL, USAFE
Commander, USAFE A1
