Air Education and Training Command (AETC)

NCC UPDATE # 06-222

EVENT DATE/TIME: August 21/ 1700 hours

SUBJECT: AETC .mil Restricted website URL change

LOCATION: Randolph AFB

OVERVIEW: The web address (URL) for the AETC private (.mil Restricted) website will be changing on Monday Aug 21st at 1700. Instead of the current <https://www.aetc.af.mil> it will become <https://www-r.aetc.af.mil> to comply with current AF Restricted website naming standards and to "free up" this URL so that it may be used by AF NEWS for the AETC Public website migration.

IMPACT: The new certificate is already loaded which is causing a security popup message indicating that the name of the site does not match the certificate. This popup does not happen when you use the www-r URL. After Aug 21st users going to the old URL will reach a page that will inform them of the change and then redirect them. This redirect page will be operational for two weeks at which time the www.aetc.af.mil URL will be hosted at AF NEWS for AETC's Public presence.

ORGANIZATIONS AFFECTED: All Randolph users

FSA REQUIREMENTS: Please change any bookmarks to this new URL - it is already up and functioning and the website is currently responding to both URLs. Inform any web masters or web page maintainers to change the links on their websites. A separate email has already been sent to these individuals. If they did not get the email then let the POC know and it will be sent to them.

POC NAME: Mr. James B. Bizzell

POC PHONE: 652-2582

POC E-MAIL: james.bizzell@randolph.af.mil

AF74, Communication Status Notice/Request, 1 Oct 89, is now available electronically. All physical versions of AF74 have been discontinued. All pending backorders will be cancelled. Any questions regarding this AF74 should be directed to the OPR at: SAF/XCISI, (703) 588-7807.

DD1721, Space Test program Flight Request, 1 Sept 06. This form solicits technical and programmatic information needed by a tri-Service Review Board to evaluate and select experiments proposed for spaceflight. It also enables STP to accomplish spaceflight planning analysis and payload integration studies prior to recommending assignment of experiments to specific spaceflights. After flight manifest, the document is used as a basis for initiating flight integration.

DD1721-1, Space Test Program Flight Request Executive Summary, 1 Sep 06. This form requests information required by management for "quick look" understanding and evaluation for a proposed flight experiment. The Executive Summary will describe the objective(s) of the experiment and military value or relevance. It will provide a summary of flight specifications and requirements, funding and hardware status.

DD1721-2, Space Test Program After Action Report, 1 Sept 06. This form requests information required by management for "quick look" understanding and evaluation for a proposed flight experiment. The After Action Report will describe the data obtained, results, use of data, and indication of potential DOD benefits to be accrued. These reports are helpful in management and execution of the Space Test Program (STP) and facilitate conducting long-term "DOD Benefits Accrued from STP" studies.

Any inquiries related to DD1721, DD1721-1, and DD1721-2 should be direct to the OPR at SAF/USAL, DSN 425-7375.

PUBLISHING OFFICE TEAM (AFDPO)!!!**

We would like to take this opportunity to say thank you to ALL of our customers for your patience and understanding during our times of transition of the AFPDC and on-line ordering issues endured this year. It is not only our pleasure, but continual goal of providing our customers and the warfighter with outstanding services.

Please feel free to browse the e-Publishing website HOME page from time to time for periodic updates (e-Alerts) as well as new features to the Air Force Electronic Publishing Library.

Due to the holidays, the first PA for 2007 will be published on 15 January 2007. The suspense date for submission is 11 January 2007.
